

DP-700 Pass Leader Dumps & New DP-700 Test Tips

Answer Area

```
SELECT last_run_start_time, last_run_command
FROM 
WHERE last_run_total_elapsed_time_ms > 7200000
AND 

```

We can say that the Microsoft DP-700 exam practice questions are real, valid, and updated Implementing Data Engineering Solutions Using Microsoft Fabric (DP-700) exam questions that will provide you with everything that you need to learn to prepare and pass the DP-700 exam. The Microsoft DP-700 Exam Questions will not only assist you in Implementing Data Engineering Solutions Using Microsoft Fabric (DP-700) exam preparation but also give you sight knowledge about the Implementing Data Engineering Solutions Using Microsoft Fabric (DP-700) exam topics that will help you in your professional career.

When you click into EduDump's site, you will see so many people daily enter the website. You can not help but be surprised. In fact, this is normal. EduDump is provide different training materials for alot of candidates. They are using our training materials tto pass the exam. This shows that our Microsoft DP-700 Exam Training materials can really play a role. If you want to buy, then do not miss EduDump website, you will be very satisfied.

New DP-700 Test Tips | New DP-700 Exam Discount

How our DP-700 study questions can help you successfully pass your coming DP-700 exam? The answer lies in the outstanding DP-700 exam materials prepared by our best industry professionals and tested by our faithful clients. Our exam materials own the most authentic and useful information in questions and answers. For our DP-700 practice material have been designed based on the format of real exam questions and answers that you would surely find better than the other exam vendors'.

Microsoft Implementing Data Engineering Solutions Using Microsoft Fabric Sample Questions (Q58-Q63):

NEW QUESTION # 58

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a KQL database that contains two tables named Stream and Reference. Stream contains streaming data in the following format.

Column name	Data type
Timestamp	Datetime
GeoLocation	Dynamic
Temperature	Decimal
DeviceId	Microsoft

Reference contains reference data in the following format.

Both tables contain millions of rows.

You have the following KQL queryset.

You need to reduce how long it takes to run the KQL queryset.

Solution: You add the `make_list()` function to the output columns.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

Adding an aggregation like `make_list()` would require additional processing and memory, which could make the query slower.

NEW QUESTION # 59

HOTSPOT

You are processing streaming data from an external data provider.

You have the following code segment.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Litware from New York will be displayed at the top of the result set - Yes The data is sorted first by Location in descending order and then by UnitsSold in descending order. Since

"New York" is alphabetically the last Location, it will appear first in the result set. Within "New York", Litware has the highest UnitsSold (1000), so it will be displayed at the top.

Fabrikam in Seattle will have value = 2 in the Rank column - No

The `row_rank_dense` function assigns dense ranks based on UnitsSold within each location. In "Seattle":

Contoso has UnitsSold = 300 # Rank 1

Litware has UnitsSold = 100 # Rank 2

Fabrikam also has UnitsSold = 100, so it shares the same rank (2) as Litware.

Litware in San Francisco will have the same value in the Rank column as Litware in New York - No The rank is calculated separately for each location. In "San Francisco":

Both Relecloud and Litware have UnitsSold = 500, so they share the same rank (1).

In "New York", Litware has the highest UnitsSold = 1000 # Rank 1.

Since ranks are calculated independently for each location, Litware in San Francisco does not share the same rank as Litware in New York.

NEW QUESTION # 60

Your company has a team of developers. The team creates Python libraries of reusable code that is used to transform data.

You create a Fabric workspace name `Workspace1` that will be used to develop extract, transform, and load (ETL) solutions by using notebooks.

You need to ensure that the libraries are available by default to new notebooks in `Workspace1`.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

□ Explanation:

□

NEW QUESTION # 61

You have an Azure subscription that contains a blob storage account named sa1. Sa1 contains two files named File1.csv and File2.csv.

You have a Fabric tenant that contains the items shown in the following table.

□ You need to configure Pipeline1 to perform the following actions:

* At 2 PM each day, process File1.csv and load the file into fh1.

* At 5 PM each day, process File2.csv and load the file into fh1.

The solution must minimize development effort. What should you use?

- A. a data pipeline trigger
- B. a job definition
- C. a data pipeline schedule
- D. an activator

Answer: C

NEW QUESTION # 62

Your company has a team of developers. The team creates Python libraries of reusable code that is used to transform data.

You create a Fabric workspace name Workspace1 that will be used to develop extract, transform, and load (ETL) solutions by using notebooks.

You need to ensure that the libraries are available by default to new notebooks in Workspace1.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

Answer:

Explanation:

□

NEW QUESTION # 63

.....

People always feel fear of the unknown thing and cannot handle themselves with a sudden change. However, our DP-700 exam questions can stand by your side. And we are determined to devote ourselves to serving you with the superior DP-700 Study Materials in this career. Here are some features of our DP-700 learning guide in our free demos which you can free download, you can understand in detail and make a choice.
