We guarantee our C-TS422-2023 practice prep will be good value for money, every user will benefit from our C-TS422-2023 Exam Guide. If you fail exams we will refund the full test dumps cost to you soon. Every extra penny deserves its value. Our C-TS422-2023 test questions will be your best choice.

## SAP S/4HANA Cloud Private Edition - Production Planning and

## Manufacturing Sample Questions (Q71-Q76):

### NEW QUESTION # 71

Your quality department detects a deviation in a raw material batch. Unfortunately this batch has already been used in production. How can you identify all affected finished goods stocks?

Note: There are 2 correct answers to this question.

- A. Use the Batch Information Cockpit.
- B. Use the batch whereused list.
- C. Use batch determination.
- D. Use batch derivation.

**Answer: A,B**

### NEW QUESTION # 72

Which time elements are relevant for lead time scheduling of a production order?

Note: There are 2 correct answers to this question.

- A. Float after production
- B. Setup time
- C. Total replenishment lead time
- D. Opening period

**Answer: A,B**

### NEW QUESTION # 73

What does a line hierarchy in repetitive manufacturing represent?

- A. A production line with prioritized alternative work centers
- B. A production line with a parallel sequence in the routing
- C. A production line with more than one work center
- D. A production line with an alternative sequence in the routing

**Answer: C**

### NEW QUESTION # 74

Advanced Planning uses master data from SAP S/4HANA Cloud Private Edition. In which data objects can you set the Advanced Planning flag? Note: There are 2 correct answers to this question.

- A. Work center
- B. Production version
- C. Plant
- D. Material

**Answer: A,D**

Explanation:

In SAP S/4HANA Cloud Private Edition, Advanced Planning (PP/DS) integrates with core master data, and the "Advanced Planning" flag activates PP/DS-specific planning. This flag can be set in:

\* Work center(A): In the work center (transaction CR02, Basic Data tab, field: Advanced Planning), checking this flag (or integrating with a resource in APO/PP/DS) enables detailed scheduling and capacity planning in PP/DS. It designates the work center as a resource for finite scheduling (e.g., in /SAPAPO/RES01).

\* Material(D): In the material master (MM02, Advanced Planning tab, field: PP/DS Planning), activating this flag makes the material relevant for PP/DS planning. It enables features like detailed scheduling, heuristics, and integration with APO or embedded PP/DS functionalities.

Plant(B) doesn't have an Advanced Planning flag-PP/DS activation is at the system or object level (e.g., via CIF integration model),

not plant-specific. Production version(C) (MRP 4 view) links BOMs and routings but lacks a specific PP/DS flag-its relevance comes from the material and work center settings. This is per SAP' s PP/DS master data setup.

#### NEW QUESTION # 75

Why do you use Engineering Change Management? Note: There are 2 correct answers to this question.

- A. To monitor document table changes
- B. To save multiple changes for an object
- C. To enable integration into a sales order
- D. To monitor document object changes

Answer: B,D

#### NEW QUESTION # 76

.....
