最新的 Strategy Planning Professional SPP 免費考試真題 (Q31-Q36):

問題 #31

Which of the following MUST be present in those who implement strategic plan projects?

- A. Facilitation skills
- B. Business development and financial acumen
- C. Patience and initiative

- D. Teamwork and management skills

答案： D

解題說明：

Implementation of strategic projects requires individuals with strong teamwork and management skills to coordinate activities, manage resources, and ensure collaboration across functional areas. The IASP SPP framework emphasizes that these skills are fundamental for keeping projects on track and adapting to challenges. While financial and facilitation skills add value, the core ability to work effectively as a team and manage complex tasks is essential for successful strategy execution. Patience and initiative contribute but are not sufficient alone. #IASP SPP Study Guide - Project Management###PMI, PMBOK Guide#

問題 #32

When considering who should lead a planning team, it is appropriate to make sure that the person

- A. has values that can take the organization to the next level.
- B. subscribes to the same values as the other team members.
- C. is comfortable with the organization's values.
- D. is true to the organization's values and can inspire others to live them.

答案： D

解題說明：

The best planning team leader is someone who embodies the organization's values authentically and inspires others to do the same. The IASP SPP curriculum emphasizes leadership by example as crucial for motivation, trust, and alignment throughout the planning process. Comfort or agreement with values is insufficient without active demonstration and inspiration. #IASP SPP Study Guide - Leadership###Goleman, Emotional Intelligence#

問題 #33

In developing a strategic plan, key performance measures should be developed for

- A. the organization's desired outcomes.
- B. the organization's financial goals.
- C. each step of the final action plan.
- D. employee satisfaction.

答案： A

解題說明：

Key performance measures are best aligned with the organization's desired outcomes to ensure that progress toward strategic goals is monitored effectively. Measuring outcomes, rather than just inputs or activities, focuses attention on results that truly matter. The IASP SPP framework stresses the importance of outcome-based measurement to enable accountability, guide decision-making, and support continuous improvement.

While financial goals and employee satisfaction are important, they are often components of broader outcomes. Focusing on outcomes ensures that all measures collectively advance the strategic vision. #IASP SPP Study Guide - Performance Measurement###Kaplan & Norton, Balanced Scorecard#

問題 #34

Employee commitment should be secured at what point in the strategic management process?

- A. Once key analysis has been completed
- B. Not until the vision has been approved
- C. After senior managers have made asset allocation decisions
- D. As early as possible

答案： D

解題說明：

Securing employee commitment as early as possible in the strategic management process is crucial for success. Early engagement

fosters ownership, reduces resistance, and aligns employees' efforts with organizational goals. Waiting until after senior management decisions or vision approval risks disconnects and resistance. The IASP SPP framework emphasizes that involving employees early through communication, participation, and feedback creates momentum and sustainable strategic execution. #IASP SPP Study Guide - Change Management###Kotter, Leading Change#

問題 #35

Which of the following best describes the role of leadership in fostering a culture of innovation within an organization?

- A. Encouraging risk-taking and learning from failure
- B. Limiting employee involvement to top management only
- C. Mandating strict adherence to existing processes
- D. Focusing solely on short-term financial targets

答案：A

解題說明：

Leadership plays a critical role in fostering a culture of innovation by encouraging calculated risk-taking and embracing lessons learned from failure. The IASP SPP curriculum highlights that leaders must create safe environments for experimentation, support creative thinking, and reward innovation efforts. This approach drives continuous improvement and strategic growth. In contrast, rigid adherence to processes, exclusion of broader employee involvement, or short-term financial focus stifle innovation. #IASP SPP Study Guide - Innovation and Change Leadership###Tushman & O'Reilly, The Ambidextrous Organization#
