Reliable VMCE_v12 Exam Cram & VMCE_v12 Latest Test Labs

For candidates who are going to purchasing VMCE_v12 learning materials online, they may pay more attention to money safety. If you choose us, we can provide you with a clean and safe online shopping environment. We apply the international recognition third party for the payment of VMCE_v12 exam baidumps, and therefore your money and account safety can be guaranteed. Moreover, VMCE_v12 Exam Dumps are high-quality, and you can pass the exam successfully. We offer you free update for 365 days afterpurchasing, and the update version for VMCE_v12 learning materials will be sent to your email automatically.

Veeam Certified Engineer v12 Sample Questions (Q11-Q16):

NEW QUESTION # 11

On Monday, a backup administrator found out that some backup jobs were missing from a configuration. They want to roll back the configuration database to Friday's state. Which configuration restore mode should be used?

- A. Veeam Explorer for Microsoft SQL
- **B. Restore**
- C. Instant SQL Recovery
- D. Migrate

Answer: B

Explanation:

To roll back the configuration database to Friday's state, the backup administrator should use the 'Restore' mode available in Veeam Backup & Replication. This mode allows for the entire configuration backup to be restored, which includes the job settings and history, and brings the configuration database back to the state it was in at the time of the backup.

NEW QUESTION # 12

Veeam ONE has been installed and configured. The infrastructure contains five Veeam Backup & Replication servers. The administrator needs to check the remaining capacity on each of the backup repository servers. Where can they see this information?

- A. Under Business View, look up the backup repository servers to see the remaining capacity.
- B. Under Infrastructure View, look up the backup repository servers to see the guest disk space.
- C. Under Infrastructure View, look up the Veeam Backup & Replication servers to see the guest disk space.
- **D. Under Data Protection View, look up the backup repository servers to see the remaining capacity**

Answer: D

Explanation:

In Veeam ONE, the remaining capacity of each backup repository server can be viewed under the Data Protection View. This section provides detailed information about the storage utilization and remaining capacity of backup repositories, allowing administrators to effectively monitor and manage storage resources. References: Veeam ONE User Guide, Veeam ONE Data Protection View Documentation

NEW QUESTION # 13

Veeam Agent for Microsoft Windows has been installed in standalone mode on a Windows physical server. The backup job is configured to write to a Veeam repository. Which media type is available for recovery media creation?

- **A. Optical disk**
- B. Object storage
- C. Tape
- D. Veeam Backup & Replication repository

Answer: A

Explanation:

https://helpcenter.veeam.com/docs/agentforwindows/userguide/recovery_media.html?ver=60 You can create a recovery image on different kinds of media:

Removable storage devices such as USB drives or SD cards

CD/DVD/BD

ISO images on local or external computer drives

NEW QUESTION # 14

Which feature of Veeam Data Platform allows a service provider to protect mission-critical tenant virtual machines for which any data loss is unacceptable?

- A. DataLabs
- B. Cloud Agents
- **C. Continuous Data Protection**
- D. Veeam Backup for Google Cloud

Answer: C

Explanation:

Continuous Data Protection, which provides near-zero RPO by continuously replicating I/O so that mission-critical tenant VMs can be recovered to within seconds or minutes of any failure.

NEW QUESTION # 15

An administrator needs to dynamically add VMware VMs that have a custom application installed to a backup job. How can this job be created?

- A. In Enterprise Manager, create a dynamic group of VMs that contain both tags.
- **B. Create a backup job based on vSphere tags.**
- C. Use the RESTful API to scan the VM inventory for machines that match the criteria.
- D. Modify a custom CSV file to be scanned before the start of each job.

Answer: B

Explanation:

To dynamically include VMware VMs with a custom application installed in a backup job, the most efficient approach is C: Create a backup job based on vSphere tags. VMware vSphere tagging allows administrators to assign metadata to VMs, making it easier to categorize and manage them according to various criteria, such as application type, department, or any custom criteria relevant to the organization. Veeam Backup & Replication can leverage these tags to dynamically include VMs in backup jobs. By setting up a backup job to include VMs tagged with a specific identifier related to the custom application, any VM tagged accordingly will be automatically included in the backup job. This approach simplifies management, ensures consistency, and allows for the flexible and dynamic grouping of VMs based on changing criteria without the need for manual adjustments to the backup job configuration.

NEW QUESTION # 16

.....

Having a good command of professional knowledge in this line, they devised our high quality and high effective VMCE_v12 study materials by unremitting effort and studious research. They are meritorious and unsuspecting experts with professional background. By concluding quintessential points into VMCE_v12 Preparation engine, you can pass the exam with the least time while huge progress. And our pass rate of the VMCE_v12 exam questions is high as 98% to 100%.
