Microsoft Security Compliance and Identity Fundamentals Sample Questions (Q35-Q40):

NEW QUESTION # 35

What is an assessment in Compliance Manager?

- A. A policy initiative that includes multiple policies.
- B. A dictionary of words that are not allowed in company documents.
- C. A grouping of controls from a specific regulation, standard or policy.
- D. Recommended guidance to help organizations align with their corporate standards.

Answer: C

Explanation:

Microsoft Purview Compliance Manager is a feature in the Microsoft Purview compliance portal that helps you manage your organization's compliance requirements with greater ease and convenience. Compliance Manager can help you throughout your

compliance journey, from taking inventory of your data protection risks to managing the complexities of implementing controls, staying current with regulations and certifications, and reporting to auditors.

Watch the video below to learn how Compliance Manager can help simplify how your organization manages compliance:

Compliance Manager helps simplify compliance and reduce risk by providing:

- * Pre-built assessments for common industry and regional standards and regulations, or custom assessments to meet your unique compliance needs (available assessments depend on your licensing agreement; learn more).
- * Workflow capabilities to help you efficiently complete your risk assessments through a single tool.
- * Detailed step-by-step guidance on suggested improvement actions to help you comply with the standards and regulations that are most relevant for your organization. For actions that are managed by Microsoft, you'll see implementation details and audit results.
- * A risk-based compliance score to help you understand your compliance posture by measuring your
- * progress in completing improvement actions.
