

C-SEC-2405 Test Registration | New C-SEC-2405 Exam Prep

CSC108H5 – Fall 2025: Mock Exam (Practice Version)

University of Toronto Mississauga

Time Limit: 110 minutes

This Mock Exam is provided for study and self-assessment only.
It is **not** an official University of Toronto examination.
No part of this document may be distributed, posted, or used for grading.

Instructions for Students:

- This practice test is designed to reflect the structure, difficulty, and topics of the CSC108H5 mock exam, but with entirely new questions.
- You may use it to test your understanding of functions, loops, conditionals, strings, lists, Boolean logic, and file operations.
- Treat this as a closed-book exercise. Use only the reference sheet attached.
- Clearly indicate your final answers where applicable.
- No bonus or reflection section is included.

Document version: 4.2.0

P.S. Free 2026 SAP C-SEC-2405 dumps are available on Google Drive shared by PassCollection: <https://drive.google.com/open?id=17UnAmVU7LfINGQMClDs45aVxhVexh2X>

We have tens of thousands of supporters around the world eager to pass the exam with our C-SEC-2405 learning guide which are having a steady increase on the previous years. Exam candidates around the world are longing for learning from our practice materials. If you want to have an outline and brief understanding of our C-SEC-2405 Preparation materials we offer free demos for your reference. You can have a look of our C-SEC-2405 exam questions for realistic testing problems in them.

In line with the concept that providing the best service to the clients, our company has forged a dedicated service team and a mature and considerate service system. We not only provide the free trials before the clients purchase our C-SEC-2405 training materials but also the consultation service after the sale. We provide multiple functions to help the clients get a systematical and targeted learning of our C-SEC-2405 Certification guide. So the clients can trust our C-SEC-2405 exam materials without doubt.

Our C-SEC-2405 practice exam simulator mirrors the C-SEC-2405 exam experience, so you know what to anticipate on C-SEC-2405 exam day. Our SAP C-SEC-2405 features various question styles and levels, so you can customize your C-SEC-2405 exam questions preparation to meet your needs.

SAP Certified Associate - Security Administrator Sample Questions (Q61-Q66):

NEW QUESTION # 61

What happens to data within SAP Enterprise Threat Detection during the aggregation process? Note: There are 3 correct answers to this question.

- A. It is pseudonymized.
- B. It is enriched.
- C. It is prioritized.
- D. It is normalized.
- E. It is categorized.

Answer: A,B,D

Explanation:

During the aggregation process in SAP Enterprise Threat Detection, data undergoes several transformations to enhance security analysis. It is pseudonymized, replacing sensitive identifiers (e.g., user IDs) with pseudonyms to protect privacy while maintaining data utility for threat detection. Data is normalized, converting heterogeneous data formats from various sources into a standardized structure, ensuring consistency for analysis across systems. Additionally, data is enriched by adding contextual information, such as system metadata or threat intelligence, to improve the accuracy of threat identification. These processes enable SAP Enterprise Threat Detection to efficiently analyze large volumes of data while safeguarding sensitive information. Prioritization is not part of aggregation, as it relates to post-analysis actions, and categorization occurs during analysis, not aggregation. By pseudonymizing, normalizing, and enriching data, SAP Enterprise Threat Detection ensures robust threat detection capabilities, supporting real-time monitoring and compliance with data protection regulations in SAP environments.

NEW QUESTION # 62

What does a status text value of "Old" mean during the maintenance of authorizations for an existing role?

- A. Field values have not been changed.
- B. Field values were unchanged and no new authorization was added.
- C. Field values were changed as a result of the merge process.
- D. The field delivered with content was changed but the old value was retained.

Answer: D

NEW QUESTION # 63

For users with system administration authorization, which additional functions are provided by the SAP Easy Access menu? Note: There are 2 correct answers to this question.

- A. Calling menus for roles and assigning them to users
- B. Creating users
- C. Creating roles
- D. Calling programs

Answer: B,C

Explanation:

In SAP systems, users with system administration authorization have access to additional functions in the SAP Easy Access menu to manage system security and user administration. The menu includes options for creating roles, allowing administrators to use transaction PFCG to define and maintain authorization roles, which are critical for assigning permissions to users based on their job functions. Additionally, the menu provides access to creating users, enabling administrators to use transaction SU01 to set up user master records, including user IDs, passwords, and role assignments. These functions are essential for managing access control and ensuring system security. Calling menus for roles and assigning them to users is not a specific function of the Easy Access menu, as role assignment is typically performed within SU01 or PFCG.

Calling programs is a general user function, not exclusive to administrators. These administrative capabilities in the Easy Access menu streamline security management tasks in SAP environments.

NEW QUESTION # 64

What does a status text value of "Old" mean during the maintenance of authorizations for an existing role?

- A. Field values have not been changed.
- B. Field values were unchanged and no new authorization was added.
- C. Field values were changed as a result of the merge process.
- **D. The field delivered with content was changed but the old value was retained.**

Answer: D

Explanation:

* Context: During role maintenance in SAP, status values indicate changes or actions applied to field values.

* Solution Explanation:

* A status of "Old" means the field value was delivered with content but has since been modified, retaining the old value.

SAP Security References:

* SAP Role Maintenance Guide (Transaction PFCG)

* SAP Authorization Concept Documentation

NEW QUESTION # 65

Which archiving objects are relevant for archiving change documents for user master records? Note:

There are 2 correct answers to this question.

- A. US_PASS
- **B. US_USER**
- **C. US_AUTH**
- D. US_PROF

Answer: B,C

NEW QUESTION # 66

.....

To address the problems of C-SEC-2405 exam candidates who are busy, PassCollection has made the C-SEC-2405 dumps PDF format of real SAP Certified Associate - Security Administrator (C-SEC-2405) exam questions. This format's feature to run on all smart devices saves your time. Because of this, the portability of C-SEC-2405 dumps PDF aids in your preparation regardless of place and time restrictions. The second advantageous feature of the C-SEC-2405 Questions Pdf document is the ability to print SAP Certified Associate - Security Administrator (C-SEC-2405) exam dumps to avoid eye strain due to the usage of smart devices.
