100% Free HPE7-A08 – 100% Free Valid Test Syllabus | HPE Aruba Networking Switching Professional Exam Study Center

The price of Our HPE7-A08 exam questions is affordable and we provide the wonderful service before and after the sale to let you have a good understanding of our HPE7-A08 study materials before your purchase and convenient download procedures in case you want to have a check on the HPE7-A08 test. We have free demo on the web for you to know the content of our HPE7-A08 learning guide. Once you have a try on our HPE7-A08 training prep, you will know that our HPE7-A08 practice engine contains the most detailed information for your HPE7-A08 exam.

HP HPE7-A08 Exam Syllabus Topics:

Topic	Details
Topic 1	• Create the Implementation Plan for the Wired Network Solution: This section measures the skills of Network Designers who focus on understanding the HPE switching portfolio and selecting the right products to match various customer requirements. Candidates must also demonstrate the ability to create detailed and effective implementation plans based on given designs or customer scenarios to ensure successful wired network deployments.
Topic 2	• Manage, Maintain, Optimize, and Monitor the Wired Network Solution: This part measures the skills of Network Operations Engineers in managing and maintaining wired network infrastructures. It includes developing configuration management strategies, interpreting network operational data to make informed decisions, and programmatically auditing or configuring Aruba Networking switches to optimize performance and reliability.
Topic 3	• Troubleshoot the Wired Network Solution: Candidates in this section, typically Network Support Specialists, are tested on identifying common wired network failures such as IP or VLAN mismatches, hardware issues, or port misconfigurations. It also involves analyzing performance problems caused by QoS or configuration errors and formulating effective remediation plans to restore correct network operations.
Topic 4	• Install and Configure the Wired Network Solution: This domain evaluates the abilities of Network Engineers to provision and configure HPE Aruba Networking switches both via Aruba Networking Central and command-line interface. It covers physical switch setup, Layer 2 and Layer 3 configuration and validation, multicast features, security implementations, quality of service (QoS) settings, and integration of Aruba Networking solutions into existing environments.

HPE Aruba Networking Switching Professional Exam Sample Questions (Q133-Q138):

NEW QUESTION # 133

Refer to the partial exhibit from HPE Aruba Networking CX 8325:

If a new CX 8325 is to be deployed, which switch profile should be used to provide gateway and routing services?

- A. Spine profile should be used, which is the factory default
- B. Leaf profile should be selected instead of the factory default
- C. L3-core profile should be selected instead of the factory default
- D. The L3-apg profile should be selected instead of using the factory default

Answer: D

NEW QUESTION # 134

Which CLI command resets all network counters on an Aruba CX switch?

- A. clear counters
- B. reset statistics
- C. flush network metrics
- D. show interfaces reset

Answer: A

Explanation:

The clear counters command resets all traffic and error statistics, allowing accurate troubleshooting of performance problems after making configuration changes.

NEW QUESTION # 135

You are troubleshooting a complex routing issue after a recent change. Your customer has just called and reported that the issue now impacts all users. What should you do next?

- **A. Restore the last-known working configuration.**
- B. Ask the customer to send logs from each user.
- C. Collect a show tech and log a case with TAC.
- D. Explain to the customer what the issue is.

Answer: A

NEW QUESTION # 136

An administrator wants to leverage the Network Analysis Engine (NAE) feature on AOS-CX switches to perform root cause analysis and to assist in quickly identifying problems. Which two AOS-CX databases does the administrator have access to when implementing scripts? (Select two.)

- A. API
- **B. VSX**
- **C. Time-series**
- D. Audit
- E. Configuration

Answer: B,C

NEW QUESTION # 137

Which CLI command verifies the number of MAC addresses learned on a specific port?

- A. show mac-learned 1/1/1
- **B. show port-security interface 1/1/1**
- C. show interface mac
- D. show mac-table interface 1/1/1

Answer: B

Explanation:

The show port-security interface 1/1/1 command displays MAC addresses associated with a port, helping administrators enforce and troubleshoot security policies.

NEW QUESTION # 138

.....

As the tech industry continues to evolve and adapt to new technologies, professionals who hold the HPE Aruba Networking Switching Professional Exam (HPE7-A08) certification are better equipped to navigate these changes and stay ahead of the curve, increasing their value to employers and clients. In today's fast-paced and ever-changing HP sector, having the HP HPE7-A08 Certification has become a necessary requirement for individuals looking to advance their careers and stay competitive in the job market.
