### NEW QUESTION # 158

Ursa Major Solar wants to provide sales console users with an Incredible experience, with the most-used components easily accessible at all times.

What solution can enable reps to see and access these components from anywhere within the app without leaving the pages where the team is working?

- A. Favorites
- B. Home page
- C. Global actions
- D. Utility bar

**Answer: D**

Explanation:

The best solution to enable reps to see and access the most-used components from anywhere within the app without leaving the page they are working on is Utility bar. This is a footer that can be added to any Lightning app and can contain tools such as history, notes, or softphone. Favorites, home page, and global actions are not solutions that provide access to components from anywhere within the app. See [this article] for more information on Utility bar.

#### NEW QUESTION # 161

The VP of sales at AW Computing would like a Roll-Up Summary field on the Account object to aggregate the amount of opportunities related to an Account. The app builder is unable to implement this change.

Why is the app builder unable to fulfill the request?

- A. Roll-Up Summary fields are unavailable on the Account object.
- B. The default currency is not an active currency in the organization,
- C. Currency fields are unable to be referenced in Roll-Up Summary fields.
- D. The organization has Advanced Currency Management enabled

**Answer: D**

Explanation:

The inability to create a Roll-Up Summary field in this context can be attributed to:

B . The organization has Advanced Currency Management enabled. When Advanced Currency Management (ACM) is enabled, it affects how currency data is managed and aggregated, impacting the functionality of roll-up summary fields that involve currency amounts across different records.

To address this limitation, consider using custom reporting or a custom solution like a trigger or a scheduled batch class to manually calculate and update the total.

For more information on limitations with ACM, consult Salesforce's help article on Advanced Currency Management.
