最實用的AD0-E117認證考試的實用考古題匯總

我們NewDumps的Adobe的AD0-E117考試培訓資料是以PDF和軟體格式提供，它包含NewDumps的Adobe的AD0-E117考試的試題及答案，你可能會遇到真實的AD0-E117考試，這些問題堪稱完美，和可行之有效的有效的方法，在任何Adobe的AD0-E117考試中獲得成功，NewDumps Adobe的AD0-E117 全面涵蓋所有教學大綱及複雜問題，NewDumps的Adobe的AD0-E117 考試的問題及答案是真正的考試挑戰，你必須要擦亮你的技能和思維定勢。

Adobe AD0-E117 認證考試是為那些對 Adobe Experience Manager (AEM) 有深刻理解並希望在架構和設計方面增強技能的人而設計的。該考試評估候選人在設計和架構符合業務要求的 AEM 解決方案方面的知識。該認證考試使候選人具備設計、實施和優化 AEM 解決方案所需的必要技能和知識。

最新的 Adobe Experience Manager AD0-E117 免費考試真題 (Q50-Q55):

問題 #50

A large retail customer is building their ecommerce platform on AEM. Several third-party vendors sell products through their site. Those vendors need to review and verify the content close to production before the content goes live and the customer wants to provide them a restricted environment.

Which approach should the Architect recommend?

- A. Use the Preview Capabilities of AEM Author Server
- B. Give third-party vendors access to the Author Server
- **C. Add a Publish (preview) Server and provide access**
- D. Export content as PDF and share with the vendors

答案: C

解題說明:

According to Adobe Experience Manager documentation¹, a publish (preview) server is a publish instance that is used for previewing content before it goes live on the production server. This can be useful for verifying content with third-party vendors or other stakeholders who need restricted access.

問題 #51

A client is migrating the content from a legacy website to an existing AEM implementation. An Architect evaluates the content of the legacy site and determine-that there are approximately 20,000 pages with a common structure, and a few hundred pages that do not follow a pattern. The client wants to complete the migration as soon as possible.

Which approach should the Architect recommend for the content migration?

- A. Use Site importer to import the content into AEM
- B. Migrate all common pages using the ETL procedure with multiple rounds
- **C. Migrate all common pages using the ETL procedure and use manual authoring for the rest**
- D. Recreate the entire content manually with a group of Content Authors

答案: C

解題說明:

"migrating all common pages using the ETL procedure and using manual authoring for the rest can reduce the time and effort required for the content migration".

問題 #52

A customer wants to migrate their AEM environment from an on-premise infrastructure to a public cloud to improve performance. The customer currently hosts many assets (images, videos, documents) in the DAM.

Approximately 10 business users frequently upload new assets and update existing assets. Editors then use these assets on the sites. What should an Architect do as part of this migration?

- A. Move to a shared datastore and enable binary less replication
- B. Set up a horizontally scalable AEM environment on MongoDB
- **C. Run online revision cleanup before moving to the new storage format**
- D. Set up Connected Assets to share the DAM assets in the sites

答案: C

問題 #53

During the implementation of a public-facing website based on AEM as a Cloud Service, the customer raises an additional requirement to have a commenting functionality for end users implemented on the pages.

What should the Architect do to make the design a future proof solution?

- A. Save comments in JCR and leverage reverse replication to synchronize comments via author
- B. Integrate a third-party solution to store comments externally
- **C. Use MongoDB as provided with AEM as a Cloud Service to store the comments**
- D. Save comments in JCR and leverage Sling Distribution to synchronize comments between publishers

答案: C

問題 #54

During development the AEM Publisher server keeps crashing randomly. The deployment included a new static FAQ component that was used in the website's Contact Us page. An Architect investigates to find the root cause for the random failures, and notices the following parameters:

- * The server slows down when requests are sent to the Contact us page
- * The number of requests to the page were very few
- * Heap dump shows a large number of instances of the FAQ component

What is likely causing this issue?

- A. The page was not cached in the Dispatcher.
- B. The JVM garbage collection is not running.
- C. The component triggers a traversal query.
- **D. The component has a cyclic dependency to itself**

答案： D

解題說明：

According to Adobe Experience Manager documentation³, a cyclic dependency occurs when a component includes itself either directly or indirectly through another component. This can cause an infinite loop of rendering and consume excessive memory resources, leading to server crashes. To avoid this issue, components should not include themselves or other components that include them

問題 #55

.....

NewDumps能為你提供一個可靠而全面的關於通過Adobe AD0-E117 認證考試的方案。我們的方案是可以100%保證你通過考試的，並且還為你提供一年的免費更新服務。現在你還可以嘗試在NewDumps的網站上免費下載我們您提供的Adobe AD0-E117 認證考試的測試軟體和部分練習題和答案來。
