They all got benefits from C-S4EWM-2023 certification and now they are C-S4EWM-2023 certification holders. You can also become part of this skilled and qualified community. To do this you just need to pass the SAP C-S4EWM-2023 certification exam. Are you ready for this? Do you want to become a SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management certified? If your answer is positive then we assure you that you are at the right place. Register yourself for SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management (C-S4EWM-2023) certification exam and download the DumpsTorrent C-S4EWM-2023 exam practice questions and start preparation right now.

### SAP C-S4EWM-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Shipping and Receiving: It focuses on configuring Yard Management, SAP Dock Appointment Scheduling, and using the Shipping Cockpit.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Outbound Processes (Wave Management, Cross-docking, Production Integration): This topic covers combining outbound deliveries using wave management, packing and kitting in outbound processes, and staging products for production.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>System Integration, Master Data and Delivery Document Customizing: This focuses on setting up system integration, distributing master data, and customizing delivery documents.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Internal processing (Physical Inventory, Replenishment): This topic involves defining physical inventory processes and setting up and executing replenishment.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Inbound Processes (Value Added Services, Cross-docking, Quality Management): This topic includes executing inbound processes with value added services (VAS) or deconsolidation, and setting up deliveries for cross-docking (CD) or quality inspection (QIE).</li></ul>
Topic 6	<ul style="list-style-type: none"><li>Managing Clean Core: It covers evaluating and applying clean core principles to ERP to maximize business process agility, reduce adaptation efforts, and accelerate innovation.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>Cross Topics (Labor Management, Exception Handling, Batches, Serial Numbers): This topic includes setting up labor management and exception handling, and working with additional product information.</li></ul>

Topic 8	<ul style="list-style-type: none"> <li>Warehouse Structure, Resource Management and SAP EWM Master Data: This topic encompasses defining the warehouse structure and setting up resource management, along with creating SAP EWM master data like storage bins and products, packaging specifications, supply chain units, and business partners.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Warehouse Management (Monitor - Cockpit): This topic involves monitoring warehouse activities using the Warehouse Management Monitor, Warehouse Cockpit, and analytical apps.</li> </ul>

## Pass Guaranteed Quiz SAP - C-S4EWM-2023 - SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management – High-quality Best Vce

We know that you have strong desire for success in your career, now, we recommend you to get the C-S4EWM-2023 exam certification. DumpsTorrent will help you and provide you with the high quality SAP training material. C-S4EWM-2023 questions are selected and edited from the original questions pool and verified by the professional experts. Besides, the updated of C-S4EWM-2023 Pdf Torrent is checked every day by our experts and the new information can be added into the C-S4EWM-2023 exam dumps immediately.

## SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q75-Q80):

### NEW QUESTION # 75

Using embedded EWM, what options do you have for the goods receipt posting for external procurement?

Note: There are 2 correct answers to this question.

- A. Use synchronous goods receipt where you post the GR in EWM.
- B. Use synchronous goods receipt where you post the GR in ERP.
- C. Use the ERP Inbound Delivery to post goods receipt.
- D. Use the EWM Inbound Delivery to post goods receipt.

**Answer: C,D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

In embedded EWM within SAP S/4HANA Cloud, Private Edition, goods receipt (GR) for external procurement can be posted using two primary methods. Option B ("Use the ERP Inbound Delivery to post goods receipt") is correct because the ERP inbound delivery (created in SAP ERP/S/4HANA MM) serves as the reference document, which is then replicated to EWM for warehouse processing. Option C ("Use the EWM Inbound Delivery to post goods receipt") is also correct because the inbound delivery in EWM, derived from the ERP document, is where the actual GR is confirmed and posted back to ERP via integration. Synchronous GR (options A and D) is not a standard feature in embedded EWM for external procurement, as the process relies on asynchronous communication between ERP and EWM via queued remote function calls (qRFC). The GR posting is finalized in ERP based on EWM confirmation, ensuring inventory alignment.

### NEW QUESTION # 76

Which of the following can you include in a storage type search sequence for stock removal? Note: There are 2 correct answers to this question.

- A. A list of storage types
- B. A list of storage sections
- C. A list of storage bin types

- D. A list of storage type groups

**Answer: B,C**

Explanation:

Storage Type Search Sequence for Stock Removal

- \* Storage Sections (B): Subdivisions within a storage type, allowing finer control over stock search.
- \* Storage Bin Types (C): Defines specific bin characteristics, aiding precise stock location.

Excluded Options

- \* Storage Type Groups (A): Relevant for search sequence during putaway, not removal.
- \* Storage Types (D): Included indirectly through sections and bins but not directly in search sequences.

SAP S/4HANA Cloud Private Edition Reference

- \* Refer to Storage Type Search Sequence Setup in SAP EWM Help for detailed steps.

#### NEW QUESTION # 77

A packing profile is used to create pick-HUs. Which options are available? Note: There are 3 correct answers to this question.

- A. Limit the number of items to be packed in the pick handling unit
- B. Create items in the outbound delivery for the packaging material
- C. Split a warehouse task to fill the HU as completely as possible
- D. Consider length, width, and height
- E. Use a simple algorithm, a complex algorithm, or a BAdI

**Answer: A,D,E**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Packing profiles in SAP EWM control pick-HU creation. Option B ("Consider length, width, and height") is correct for dimensional checks, option C ("Use a simple algorithm, a complex algorithm, or a BAdI") is correct as it offers packing logic options, and option D ("Limit the number of items") is correct for capacity control, all configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Packing > Define Packing Profile. Option A (split task) and option E (delivery items) are not standard profile features.

#### NEW QUESTION # 78

You have maintained several process types that should all use the same storage type search sequence for putaway. You want to minimize customizing efforts and create only one entry for these process types. What can you use to achieve this goal?

- A. Stock type group
- B. Putaway control indicator
- C. Storage type group
- D. Process type group

**Answer: D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

To streamline configuration, SAP EWM allows grouping process types. Option A ("Process type group") is correct because it enables multiple process types to share a single storage type search sequence, defined in SPRO: SCM Extended Warehouse Management > Goods Receipt Process > Define Process Type Group.

Options B, C, and D (putaway control indicator, storage type group, stock type group) serve other purposes like putaway rules or stock categorization, not process type grouping for search sequences.

#### NEW QUESTION # 79

Which of the following actions can you perform from the shipping cockpit? Note: There are 2 correct answers to this question.

- A. Assign outbound delivery orders and inbound deliveries to transportation units.
- B. Create waves.
- C. Post goods receipts.

- **D. Create and check in transportation units.**

**Answer: B,D**

Explanation:

The shipping cockpit in SAP Extended Warehouse Management (EWM) is a centralized tool designed for managing and monitoring shipping processes. The following actions can be performed from the shipping cockpit:

- \* Create Waves (A):
- \* Waves are created to group and release outbound delivery orders for picking and further processing.
- \* This action helps streamline the planning and execution of outbound deliveries.
- \* Create and Check In Transportation Units (B):
- \* The shipping cockpit enables the creation and check-in of transportation units (e.g., trucks or containers) for managing goods movement.
- \* This action ensures proper tracking and handling of shipments.

Incorrect Options:

- \* C: Assigning outbound delivery orders and inbound deliveries to transportation units is not directly performed from the shipping cockpit but through other EWM functionalities.
- \* D: Posting goods receipts is related to inbound processes and not typically handled in the shipping cockpit.

References:

- \* SAP S/4HANA Cloud Private Edition Documentation: Shipping Cockpit Overview
