

# Get Unparalleled L3M6 New Study Materials and Fantastic Exam L3M6 Practice

P.S. Free 2025 CIPS L3M6 dumps are available on Google Drive shared by DumpsValid: <https://drive.google.com/open?id=1auAiWLULGUbXZJX6fUsE0rjZr72IW9Pr>

DumpsValid has made these formats so the students don't face issues while preparing for Socially Responsible Warehousing and Distribution (L3M6) certification exam dumps and get success in a single try. The web-based format is normally accessed through browsers. This format doesn't require any extra plugins so users can also use this format to pass CIPS L3M6 test with pretty good marks.

The L3M6 training materials provide you with free demo, and you can have a try in our website. If you are satisfied with the free demo, you just need to add them to your shopping cart, and pay for it, please check the email address carefully, due to we will send the L3M6 Exam Dumps to you by email. Besides, we support online payment with credit card, and the payment tools will change the currency of your country, and there is no necessary for you to exchange by yourself.

## **Exam L3M6 Practice | Free L3M6 Pdf Guide**

Likewise, Web-Based CIPS L3M6 exam questions are supported by all the major browsers like Chrome, Opera, Safari, Firefox, and IE. In the same way, the Web-based Socially Responsible Warehousing and Distribution pdf exam requires no special plugin.

Lastly, the web-based Socially Responsible Warehousing and Distribution (L3M6) practice exam is customizable and requires an active Internet connection.

## CIPS L3M6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Understand the Environmental Impact of Warehousing and Distribution: This section targets Logistics Coordinators and examines how warehousing and distribution contribute to environmental challenges. Topics include air pollution, carbon footprint, noise pollution, accidents, land use, and visual intrusion. It also discusses the environmental costs associated with logistics activities such as greenhouse gas emissions and global warming and strategies to mitigate these impacts. The role of government policies in sustainable logistics is emphasized, including reducing freight intensity, improving utilization rates, promoting greener transport modes, enhancing energy efficiency, and cutting emissions.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Understand Methods for the Storage and Movement of Inventory: This section assesses the expertise of Warehouse Managers in inventory storage and movement methods. It includes principles of warehouse design, focusing on location, layout factors such as flow and space utilization, and flexibility. It also explains various types of warehousing equipment like material handling systems, palletization techniques, packaging standards, and automation technologies that align with environmental standards.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Understand the Environmental Impact of Procurement and Supply: This section evaluates the skills of Supply Chain Analysts in understanding how procurement affects the environment. It explores global challenges such as balancing globalization with green logistics, public awareness, external pressures, and international regulations. The environmental impact of transportation and storage is covered, including air pollution, carbon footprint calculations, noise pollution, accidents, and land use. Additionally, it highlights the government's role in promoting sustainability through policies like greener transport modes, energy efficiency, and emission reduction.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Understand the Concepts of Sustainability and Corporate Social Responsibility (CSR): This section of the exam measures the knowledge of Procurement Specialists and covers the foundational concepts of sustainability and CSR. It explains how sustainability involves meeting present needs without compromising future generations' ability to do the same. The focus extends beyond traditional economic criteria, incorporating environmental and social impacts into procurement decisions. CSR emphasizes extending corporate goals to include social responsibility, promoting good citizenship, and encouraging positive impacts on stakeholders, including social, economic, and cultural diversity.</li></ul>

## CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q85-Q90):

### NEW QUESTION # 85

Decibel levels are for humans, not animals, which can have more sensitive/acute hearing.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

Decibel (dB) levels measure sound intensity primarily for human perception, but animals often have more acute hearing, detecting frequencies and intensities humans cannot. The CIPS L3M6 module notes that while noise regulations (e.g., 85 dB workplace limits) target human health, animals (e.g., dogs hearing up to 45 kHz vs. humans at 20 kHz) are more vulnerable to noise pollution from supply chain activities like transport. This makes the statement true, as decibel standards are human-centric, though environmental impacts on wildlife are also considered in LO2's broader sustainability context.

Reference:

### NEW QUESTION # 86

Not enough visual stimulation can lead to eye strain, distraction, and too much noise.

- A. FALSE
- B. TRUE

**Answer: A**

Explanation:

Insufficient visual stimulation (e.g., bland environments) may cause boredom or fatigue, but not eye strain (from overexertion), distraction (from excess stimuli), or noise (an auditory issue). The CIPS L3M6 module clarifies visual pollution's effects in LO2-excess, not lack, drives stress. The statement is false due to mismatched causation.

### NEW QUESTION # 87

There are three types of material handling systems. Which type includes using technology such as AGVs and loading and unloading machines?

- A. Manual system
- B. Mechanised systems
- C. Automated systems

**Answer: C**

Explanation:

Automated systems use advanced technology like AGVs and automated loading/unloading machines, operating with minimal human intervention. The CIPS L3M6 syllabus distinguishes this from manual and mechanized systems, making it the correct answer.

Reference:

---

### NEW QUESTION # 88

An exceptionally low base price could indicate poor working conditions further down the supply chain and could result in lower quality.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

An exceptionally low base price often signals cost-cutting measures in the supply chain, which can include poor working conditions (e.g., low wages, unsafe environments) and compromises on quality (e.g., substandard materials). The CIPS L3M6 module highlights that sustainable procurement involves assessing such risks, as low prices may reflect unethical practices that contradict CSR principles. This can lead to reputational damage and legal liabilities for organizations.

---

### NEW QUESTION # 89

Organisations should also design for the recovery of waste in addition to the disposal of packaging from domestic and commercial waste.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

Designing for waste recovery (e.g., through recycling or reuse) alongside proper disposal is a key aspect of socially responsible packaging. The CIPS L3M6 syllabus advocates for systems that minimize landfill use and promote circular economy principles, making this statement true.
