NEW QUESTION # 154

A program manager is reviewing the project portfolio and prioritizing each project based on the company's strategic plan. Which of the following should be considered in this evaluation? (Select TWO).

- A. Local legislation
- B. Global environment
- C. Company vision
- D. Brand value
- E. Mission statement
- F. Portfolio budget

Answer: C,E

Explanation:

Explanation

Company vision and mission statement should be considered in the evaluation of the project portfolio based on the company's strategic plan. Company vision is a statement that describes the long-term aspirations and desired future state of the organization. Company mission statement is a statement that defines the core purpose and values of the organization and how it serves its customers and stakeholders. These statements provide direction and guidance for the strategic planning and decision making of the organization. They also help to align the project portfolio with the organizational goals and objectives and ensure that the projects and programs in the portfolio deliver value and benefits to the organization

NEW QUESTION # 155

A third party needs to perform a short-term task for which the duration cannot be accurately estimated and the cost cannot be calculated in advance. Which of the following should the project manager put in place before work begins?

- A. Master service agreement
- B. Statement of work
- C. Cost-plus agreement
- D. Time and materials contract
- E. Fixed-price contract

Answer: D

Explanation:

The project manager should put in place a time and materials contract before work begins for a third party that needs to perform a short-term task for which the duration cannot be accurately estimated and the cost cannot be calculated in advance. A time and materials contract is a type of contract where the buyer pays the seller based on the actual time spent and materials used during the project. A time and materials contract is suitable for projects that have uncertain or variable scope, duration, or cost. A time and materials contract can provide flexibility and adaptability for both parties and allow them to adjust to changing requirements or circumstances.

NEW QUESTION # 156

Following a successful release, a project manager sent a survey to all stakeholders to gain an understanding of opportunity areas for the team. Which of the following can use the survey results as an input?

- A. Performance feedback

- B. Meeting minutes
- C. Daily stand-up
- D. Project momentum

Answer: A

Explanation:

The project manager can use the survey results as an input for performance feedback for the project team members. Performance feedback is a process of providing constructive and timely information on the performance of individuals or teams in relation to project goals and expectations. Performance feedback can help to motivate, improve, and recognize project team members³⁴⁵ The survey results can be used as an input for performance feedback. Performance feedback involves analyzing and evaluating the performance of the project team and project management against the project plan, including identifying areas for improvement. The survey results can help identify these areas for improvement and provide feedback to the project team on their performance.

NEW QUESTION # 157

A project team member wrote a user guide over the past ten days. Given the following scatter diagram.

Which of the following can be formally conducted?

- A. The team member prioritized other tasks over the completion of this task
- **B. There is a negative correlation with time and output**
- C. The team member had performance issues over time.
- D. This is a display of units of outstanding work to predict completion

Answer: B

Explanation:

The scatter diagram shows a clear negative correlation between time (days) and output (pages), meaning as time progresses, the number of pages completed decreases. This is evident from the downward trend of the plotted points on the graph. References = CompTIA Project+ Certification Study Guide, Chapter 3: Project Execution, page 130; CompTIA Project+ Certification Exam Objectives, Domain 3.0: Project Execution, Objective 3.3: Analyze project performance by using appropriate tools and techniques, Sub-objective 3.3.2: Given a scenario, interpret the results of data analysis using appropriate tools and techniques, Knowledge of: Scatter diagrams.
