Thousands of SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite exam aspirants have already passed their SAP C-ACDET-2506 certification exam and they all got help from top-notch and easy-to-use SAP C-ACDET-2506 Exam Questions. You can also use the TestValid C-ACDET-2506 exam questions and earn the badge of SAP C-ACDET-2506 certification easily.

## SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.</li> </ul>

## SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Practice Torrent - C-ACDET-2506 Actual Test & C-ACDET-2506 Free Demo

People are very busy nowadays, so they want to make good use of their lunch time for preparing for their C-ACDET-2506 exam. If you choice our C-ACDET-2506 exam question as your study tool, you will not meet the problem. Because the app of our C-ACDET-2506 exam prep supports practice offline in anytime. If you buy our products, you can also continue your study when you are in an offline state. You will not be affected by the unable state of the whole network. You can choose to use our C-ACDET-2506 Exam Prep in anytime and anywhere

## SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q45-Q50):

### NEW QUESTION # 45

The full SAP Ariba Strategic Sourcing suite baseline (Greenfield baseline scenario) has been applied to the customer Test site. The customer and project team will configure SAP Ariba Sourcing and deploy that to the Production site, then configure and deploy the remaining solutions in stages. What does this mean for subsequent migration activities?

- A. Subsequent migration activities will require a complete reconfiguration of existing solutions.
- B. Both SAP Ariba Sourcing as well as subsequent migration activities would be Brownfield deployments.
- C. Subsequent migration activities follow Bluefield deployment scenario.**
- D. If the baseline applied the full suite, the full suite must be configured and migrated to production at the same time.

### Answer: C

Explanation:

In SAP Ariba deployments, when a full Greenfield baseline has been applied initially-meaning a fresh, full suite setup on the Test site-and the customer deploys a single solution (like Sourcing) to Production first, all subsequent deployments follow a Bluefield scenario. This means that later stages of deployment (e.g., Contracts, Supplier Risk) involve selective migration and incremental configuration changes to Production without rebuilding everything from scratch. Bluefield scenarios specifically accommodate environments where Production may already be live with transactions, requiring careful selective migration to avoid disruption. This contrasts with Brownfield, which typically involves upgrading or reusing existing deployments without full baseline resets. Also, Greenfield deployments do not require all suite components to migrate simultaneously; phased deployments are supported.

This approach ensures minimal risk during deployment and provides flexibility to roll out additional modules progressively. Extract summary:SAP Ariba documentation highlights Bluefield for phased, incremental deployments post Greenfield baseline application to accommodate live production environments.

### NEW QUESTION # 46

Which document must be returned to SAP before a Deployment Lead can be assigned to the project?

- A. Solution Design Matrix
- B. Enablement Workbook

- C. Delivery Engagement Readiness Checklist
- D. Deployment Overview

**Answer: C**

Explanation:

The Delivery Engagement Readiness Checklist is a critical gatekeeper document that confirms all prerequisites and readiness criteria have been met before SAP assigns a Deployment Lead to a project. This checklist ensures project scope, resourcing, access, and other foundational elements are in place to proceed.

Other documents like Deployment Overview and Enablement Workbook are informative or internal project management tools but do not formally trigger Deployment Lead assignment. The Solution Design Matrix is a design artifact and not a staffing gating document.

This process supports structured project governance and resource allocation within SAP.

#### **NEW QUESTION # 47**

You are performing a Brownfield migration for a customer with live transactions in their SAP Ariba Production environment. The customer plans to introduce new required fields for contract workspaces that are associated with flex master data templates and enumeration lists. Based on the correct Brownfield process, what is the correct sequence of activities to avoid system errors or user disruption?

- A.
- B.
- C.
- D.

**Answer: D**

#### **NEW QUESTION # 48**

A standard field is not available in reporting. A Greenfield customer needs to be able to report on the data that will be captured in that standard field. How can this be achieved?

- A. All standard fields are reportable by default.
- B. Under Field Configurations, search for the field in the appropriate class, mark the field Reportable, Save and Publish.
- C. The system makes all fields reportable after a system refresh.
- D. Create a custom field that can be marked Reportable, default the custom field to the standard field value, publish, and then pull the field into reporting

**Answer: D**

#### **NEW QUESTION # 49**

How can you create a field label with italics?

- A. By marking the text in the field and select Ctrl-1
- B. By selecting the option "Italic label"
- C. By using standard HTML formatting like label can be added to the field label
- D. Formatting of a field label is not possible

**Answer: C**

#### **NEW QUESTION # 50**

.....

Our C-ACDET-2506 study materials boast three versions and they include the PDF version, PC version and the APP online version. The clients can use any electronic equipment on it. If only the users' equipment can link with the internet they can use their equipment to learn our C-ACDET-2506 study materials. They can use their cellphones, laptops and tablet computers to learn our C-ACDET-2506 study materials. The great advantage of the APP online version is if only the clients use our C-ACDET-2506

Study Materials in the environment with the internet for the first time on any electronic equipment they can use our C-ACDET-2506 study materials offline later. So the clients can carry about their electronic equipment available on their hands and when they want to use them to learn our C-ACDET-2506 study materials they can take them out at any time and learn offline.
