Tableau Certified Data Analyst Sample Questions (Q163-Q168):

NEW QUESTION # 163

in which three formats can you export a worksheet from the Worksheet menu? Choose three

- A. .html
- B. .png
- C. .csv
- D. .txt
- E. .xlsx
- F. .pptx

Answer: A,B,C

NEW QUESTION # 164

You need to change the values of a dimension without creating a new field.
What should you do?

- A. Rename the fields
- B. Transforms the fields
- C. Create aliases
- D. Create groups

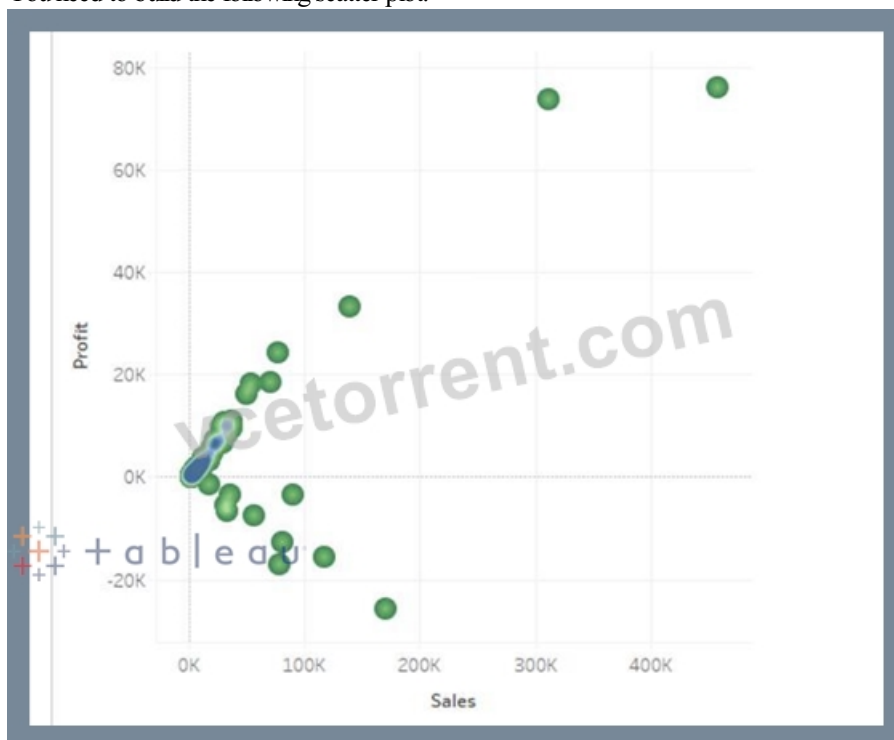

Answer: C

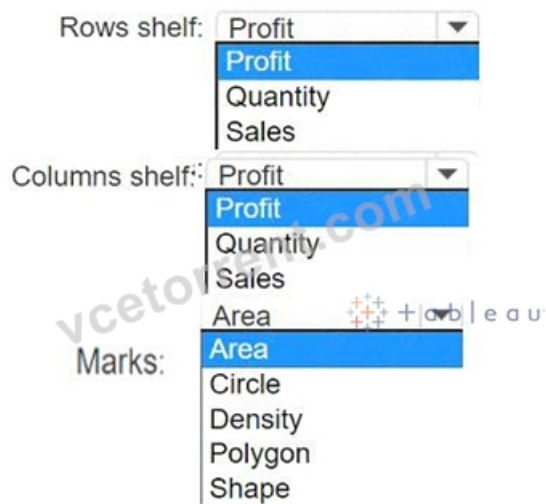

Explanation:

You can create aliases for the members of a dimension by right-clicking the dimension in the Data pane or in the view and selecting Aliases. This changes how the values are displayed in the view, but not the underlying data. For example, you can create an alias for "Central" as "Midwest".

NEW QUESTION # 165

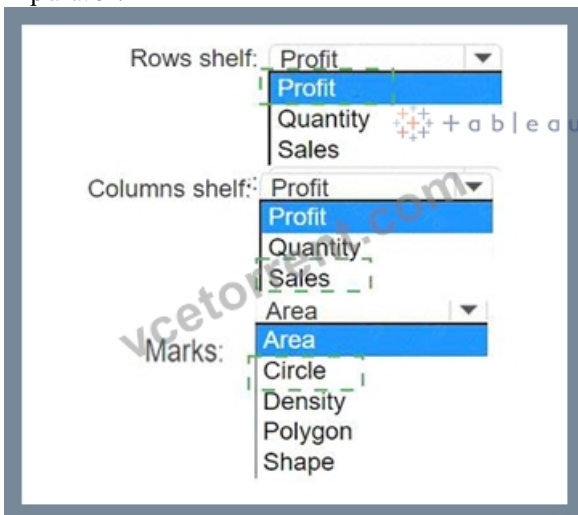

You have a data set that contains three columns named Sales, Profit, and Quantity.
You need to build the following scatter plot.

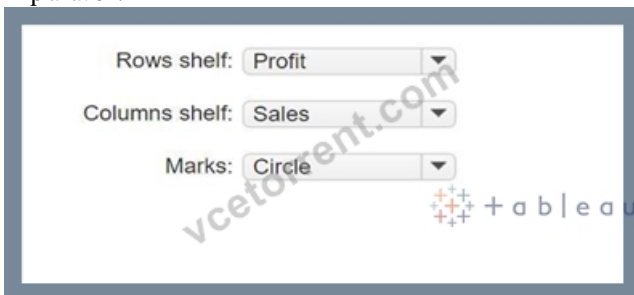

Answer:

Explanation:

Explanation:

To build the scatter plot shown in the image, you need to place the Profit measure on the Rows shelf and the Sales measure on the Columns shelf. This will create a Cartesian chart with Profit as the y-axis and Sales as the x-axis. Then, you need to change the mark type to Circle on the Marks card. This will display the data points as circles that vary in size according to the Quantity measure. You can also add color or shape encoding to the marks to show additional dimensions or measures in the view. References:

Scatter plot in Tableau

NEW QUESTION # 166

You have the following view.

Movie Name	Movie Length	Rank of Movie Length
Borat	2.52	1
Shrek	2.52	1
The Hangover	2.78	3
Die Hard	2.94	4
The Avengers	2.98	5
The Ring	3	6
Toy Story	3.13	7
Airplane!	3.24	8
Neverending Story	3.3	9

You want to filter the view to show only records that have a movie name starting with the word, "The". You must achieve the goal without writing any formulas.

Which type of filter should you use?

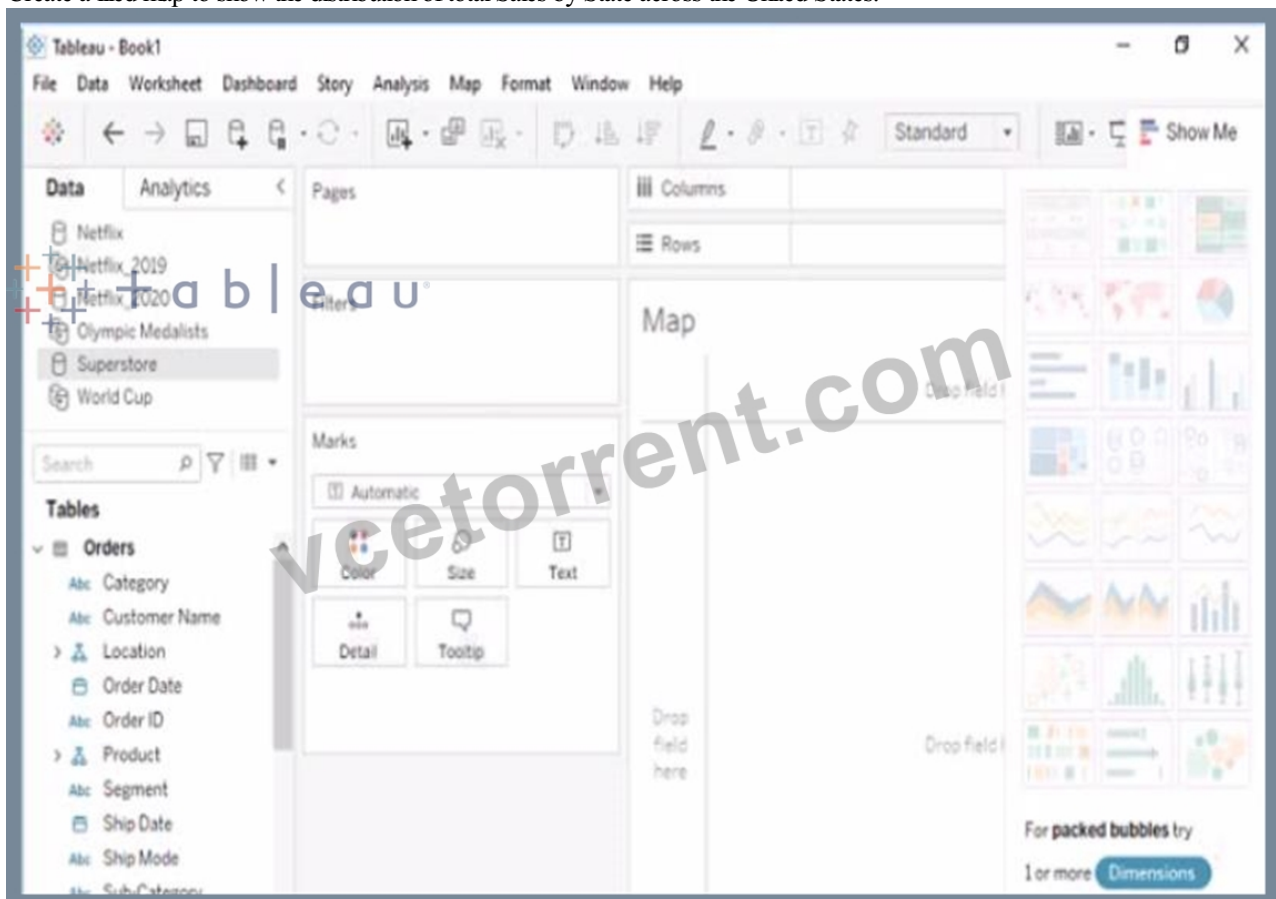

- A. Top
- B. Condition
- C. Wildcard
- D. General

Answer: C

NEW QUESTION # 167

Open the Link to Book1 found on the desktop. Open Map worksheet and use Superstore data source.

Create a filed map to show the distribution of total Sales by State across the United States.

- A. check the steps below in explanation

Answer: A

Explanation:

To create a filled map to show the distribution of total Sales by State across the United States, you need to do the following steps:
