**PRINCE2 P3O Foundation Project Office2013 Exam Sample Questions (Q30-Q35):**

### NEW QUESTION # 30

What technique provides the benefit of checking the quality of the decision-support information being provided to the P3O?

- A. Management dashboards
- **B. Gated reviews**
- C. Business process swimlanes
- D. Capacity planning for resource management

**Answer: B**

Explanation:

Gated reviews provide the benefit of checking the quality of decision-support information, according to the P3O Foundation (2013) manual. Section 7.3.2 states, "Gated reviews offer an independent assessment to verify the quality and reliability of information used for P3O decision-making, ensuring governance standards are met." This contrasts with business process swimlanes (B), which map processes, capacity planning (C), which manages resources, and management dashboards (D), which visualize data. The 2013 edition highlights gated reviews as a key assurance technique, supporting P3O's role in maintaining high-quality decision support. This process enhances strategic alignment and risk management.

Reference: P3O Foundation (2013) manual, Section 7.3.2, AXELOS.

### NEW QUESTION # 31

Which is NOT a strategic planning or portfolio support function?

- **A. Providing a single flexible resource pool**
- B. Prioritizing programmes within the portfolio
- C. Providing oversight, scrutiny and challenge
- D. Aligning programmes with strategic objectives

**Answer: A**

Explanation:

The P3O Foundation (2013) manual lists prioritizing programmes, aligning with objectives, and providing oversight as strategic planning or portfolio support functions, but not providing a flexible resource pool.

Section 2.2.2 states, "Strategic planning and portfolio support functions include prioritizing programmes, aligning with strategic objectives, and providing oversight and challenge." A resource pool (B) is a delivery support function (Section 7.2), not a strategic one. The 2013 edition distinguishes these roles to clarify P3O's multifaceted support, ensuring strategic functions focus on direction and governance, not resource allocation.

Reference: P3O Foundation (2013) manual, Sections 2.2.2 and 7.2, AXELOS.

### NEW QUESTION # 32

Which is a likely source of a threat to achieving the Blueprint?

- A. Programme approach is used to implement a P3O
- B. External consultants advise the programme team
- **C. Programme team fails to use a common language**
- D. Stakeholders are identified and analysed

**Answer: C**

Explanation:

The P3O Foundation (2013) manual identifies a programme team's failure to use a common language as a likely threat to achieving the Blueprint. Section 4.3.4 states, "A lack of common language among the programme team can lead to miscommunication, threatening the successful realization of the Blueprint." This contrasts with stakeholder analysis (B), a programme approach (C), or consultant advice (D), which are positive or neutral factors. The 2013 edition highlights communication as critical to Blueprint success, ensuring alignment during implementation. This threat can derail strategic planning if unaddressed.

Reference: P3O Foundation (2013) manual, Section 4.3.4, AXELOS.

### NEW QUESTION # 33

How does a P3O typically deliver an information portal to the PPM community?

- A. By documenting business process swimlanes
- **B. Through an intranet site showing templates and guidance**
- C. Using programme and project management forums
- D. By appropriate capacity planning for resource management

**Answer: B**

Explanation:

The P3O Foundation (2013) manual specifies that a P3O typically delivers an information portal via an intranet site with templates and guidance. Section 6.2.2 states, "The P3O delivers an information portal to the PPM community through an intranet site, providing access to templates, guidance, and best practices." This differs from process swimlanes (B), forums (C), or capacity planning (D), which serve other purposes. The

2013 edition emphasizes this centralized access to enhance collaboration and standardize PPM practices. This approach ensures efficient knowledge sharing across the organization.

Reference: P3O Foundation (2013) manual, Section 6.2.2, AXELOS.

### NEW QUESTION # 34

Which is a delivery support function?

- **A. Report portfolio performance through management dashboards**
- B. Provide a flexible resource pool
- C. Train and coach PPM staff
- D. Develop standard processes for producing Business Cases

**Answer: A**

Explanation:

The P3O Foundation (2013) manual identifies reporting portfolio performance through management dashboards as a delivery support function. Section 7.2.1 states, "Delivery support functions include reporting portfolio performance using management dashboards to provide real-time insights to stakeholders." This differs from training (B), resource provision (C), or process development (D), which are capacity or strategic functions. The 2013 edition emphasizes this reporting role to support ongoing project and programme delivery, ensuring visibility and control. This enhances operational effectiveness.
