## 100% Pass Quiz 2026 CompTIA 220-1202 – Trustable Exam Topics

Any questions related with our 220-1202 study prep will be responded as soon as possible, and we take good care of each exam candidates' purchase order, sending the updates for you and solve your questions on our 220-1202 exam materials 24/7 with patience and enthusiasm. So do not capitulate to difficulties, because we will resolve your problems of the 220-1202 Training Materials. You will get the most useful help form our service on the 220-1202 training guide.

## CompTIA A+ Certification Exam: Core 2 Sample Questions (Q125-Q130):

### NEW QUESTION # 125

A user logs in to a computer each morning and tries to print a daily report, but it will not print. The help desk resolves the issue each day temporarily. To fix this permanently, which of the following should the technician do? (Select two)

- **A. Start the print spooler service**
- B. Set the print spooler log-on to the user's account
- C. Start the printer extensions and notifications service
- D. Set the print spooler to have no dependencies
- **E. Set the print spooler to Automatic**
- F. Set the print spooler recovery to take no action

**Answer: A,E**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The recurring print issue suggests the print spooler service is not set to start automatically, causing it to stop between sessions.

Ensuring it is set to start automatically and manually starting the service will resolve the issue.

From Mark Soper - Mike Meyers' Lab Manual:

"The print spooler is essential for print services. If it isn't configured to start automatically, users may experience recurring failures."  
"Manually starting the service or setting it to 'Automatic' in the Services panel resolves persistent print availability problems."

#### NEW QUESTION # 126

A user has been adding data to the same spreadsheet for several years. After adding a significant amount of data, they are now unable to open the file. Which of the following should a technician do to resolve the issue?

- A. Upgrade the network connection speed.
- B. Defragment the storage drive.
- C. Revert the spreadsheet to the last restore point.
- **D. Increase the amount of RAM.**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

When a spreadsheet becomes very large, opening and processing it requires more memory (RAM). If the system doesn't have sufficient memory, it may fail to load the file properly. Upgrading or increasing the available RAM can resolve performance and loading issues with very large files.

A: Restore points roll back system settings, not individual file content.

C: Defragmentation optimizes disk performance but won't help with memory issues.

D: Network speed has no effect if the file is stored and opened locally.

Reference:

CompTIA A+ 220-1102 Objective 3.3: Troubleshoot common application and performance issues.

Study Guide Section: Troubleshooting large-file performance and system resource limitations

#### NEW QUESTION # 127

A support specialist needs to decide whether to install a 32-bit or 64-bit OS architecture on a new computer. Which of the following specifications will help the specialist determine which OS architecture to use?

- A. Intel i7 CPU
- B. 500GB HDD
- **C. 16GB RAM**
- D. 1Gbps Ethernet

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The amount of installed RAM is the key factor in determining whether a 64-bit OS is needed. A 32-bit operating system cannot effectively address more than 4GB of RAM. Since this system has 16GB of RAM, a 64-bit OS is required to utilize the full memory.

B: An Intel i7 CPU supports both 32-bit and 64-bit OS installations, so it alone doesn't determine the need.

C: HDD size does not influence OS architecture selection.

D: Ethernet speed is a network consideration and not related to OS architecture.

Reference:

CompTIA A+ 220-1102 Objective 1.4: Given a scenario, choose the appropriate Microsoft OS installation methods and configurations.

Study Guide Section: 32-bit vs. 64-bit system requirements and memory limitations

#### NEW QUESTION # 128

A help desk technician recently installed an SSH client on a workstation in order to access remote servers. What does this enable?

- A. To utilize an SSO connection
- B. To encrypt and decrypt protected messages

- C. To securely establish a console session
- D. To facilitate device log reviews

**Answer: C**

Explanation:

SSH (Secure Shell) allows encrypted console sessions to access and administer remote servers.

From Quentin Docter - Complete Study Guide:

"Secure Shell (SSH) provides an encrypted console session to manage Linux, UNIX, or network devices securely over TCP port 22."

### NEW QUESTION # 129

Which of the following is the best way to distribute custom images to 800 devices that include four device vendor classes with two types of user groups?

- A. Use a local image deployment tool for each device
- B. Use xcopy to clone the hard drives from one to another
- C. Use a network-based remote installation tool
- D. Use robocopy to move the files to each device

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In enterprise environments, network-based deployment solutions (such as Windows Deployment Services or SCCM) allow administrators to push images across the network to hundreds of devices efficiently. These tools support hardware-specific drivers (for different vendor classes) and can accommodate user-group configurations using task sequences or answer files.

A: and B (xcopy and robocopy) are file-level tools and not designed for full OS image deployment.

C: Using local tools per device is inefficient for large-scale rollouts (800 devices).

D: Network-based deployment is the industry standard for this scale.

Reference:

CompTIA A+ 220-1102 Objective 1.4: Given a scenario, use appropriate Microsoft operating system installation methods.

Study Guide Section: Deployment methods (including PXE boot, image deployment)

### NEW QUESTION # 130

.....

The clients can consult our online customer service before and after they buy our 220-1202 useful test guide. We provide considerate customer service to the clients. Before the clients buy our 220-1202 cram training materials they can consult our online customer service personnel about the products' version and price and then decide whether to buy them or not. After the clients buy the 220-1202 Study Tool they can consult our online customer service about how to use them and the problems which occur during the process of using. We will help you pass the 220-1202 exam in the shortest time.
