We are also offering 100% money back guarantee to the customers in case they don't achieve passing scores in the Salesforce ADM-201 in the first attempt.

What Topics Are Covered in ADM-201 Exam?

This Salesforce Administrator certification exam evaluates the candidate's knowledge and competency in a long list of technical domains such as:

- **Data Management** — This segment tests whether candidates know what to consider before transferring, updating, and massively removing pieces of data. It also checks how well candidates can identify data management tools, describe the benefits of data tools for validation, and know the different backup options available.
- **Common & Custom Objects** — For this topic, candidates must be able to define the standard architecture of objects, know how to edit fields and layouts of pages for custom and standard objects while realizing the impact of removing fields, and decide how to design and designate layouts of pages, types of records, and processes for various businesses for common and custom items.
- **App Exchange** — In this final portion, candidates must show they know when to and when not to deploy AppExchange applications.
- **Desktop and Modern Administration** — For this domain, examinees need to talk about what the Salesforce mobile application can do and also be familiar with the options available when installing and syncing the Salesforce lightning for outlook.
- **Security Features & Access** — This objective involves describing all the security controls deployed by an organization, adopting the right security measures that are based on the characteristics of the Salesforce sharing model, determining the right way to use custom profiles or permissions taking into account the large numbers of profile settings, and describing how templates for communication, dashboards as well as various reports can be secured and organized with the aid of folders.
- **Organizational Setup** — This first domain examines the candidate's ability to explain info available in the context of a company (for instance, fiscal year, working hours, managing currency, default issues) and to differentiate between the multiple UI aspects that an admin monitors (e.g., both UI & search settings, views list, layouts of homepages) while knowing the implications those features have.
- **Workflow as well as Process Automation** — Here, candidates need to choose the perfect automation solution given the process or workflow and have an understanding of the capabilities of the processes for approval.
- **Management of Activities and Collaboration** — In this domain, candidates need to detail the benefits of activity management and talk about the aspects of Chatter like feed, security features, and the following.
- **Sales & Marketing Apps** — Here, examinees need to identify the requirements and impacts of the sales, use opportunity tools to point out the right sales productivity options, know when to use different products alongside Books for Pricing, be aware of the power of automation tools & campaign maintenance, and know what can be done using the Salesforce content.

- **Reports on Analytics and Dashboards** — This objective evaluates whether candidates know the tools accessible when making a report, how the sharing structure influences reports, the choices to be made while dealing with dashboards, and the uses of custom kinds of reports.

What Career Opportunities Can Certified Specialists Get?

With this certification in your resume you can, of course, become a Salesforce administrator and earn an average salary of \$68,033 per annum as PayScale claims. However, with the Salesforce Certified Administrator certification under your belt, many more job roles are open to you such as:

- Marketing Manager;
- Implementation Specialist;
- Data Analyst;

What's more, these are all high paying positions. According to PayScale.com, Data Analysts can earn anywhere from \$44,000 to \$85,000 per year, while the income of an Implementation Specialist can be as high as \$79,000 per annum. The yearly salary for Business Analysts is around \$69,051, whereas that of Project Managers is \$95,848. Marketing Managers can make \$69,329 per annum and Sales Managers can receive an average annual income of \$61,355.
