CASPO-001 Certified Agile Scrum Product Owner Practice Exam

1. Which of the following statements best reflects an Agile principle from the Agile Manifesto?

- A) Following a rigid plan no matter what
- B) Customer collaboration over contract negotiation
- C) Comprehensive documentation over working software
- D) Strict adherence to initial requirements

Answer: B

Explanation: The Agile Manifesto values customer collaboration over contract negotiation, emphasizing ongoing customer engagement and feedback.

2. What is the primary focus of Agile methodologies?

- A) Maximizing documentation
- B) Delivering value incrementally
- C) Minimizing team interactions
- D) Extending project timelines

Answer: B

Explanation: Agile methodologies focus on delivering value incrementally through iterative progress and continuous feedback.

3. Which of the following best describes Scrum within the Agile framework?

- A) A sequential process for project management
- B) A prescriptive methodology with fixed roles and events
- C) An iterative framework that includes roles, events, and artifacts
- D) A tool for creating Gantt charts

Answer: C

Explanation: Scrum is an iterative framework that defines specific roles, events, and artifacts to help teams work in short cycles.

4. What distinguishes Scrum from traditional project management approaches?

- A) Fixed scope and predetermined deadlines
- B) Emphasis on documentation over working software
- C) Incremental delivery and adaptive planning
- D) Centralized command and control

Answer: C

Explanation: Scrum emphasizes incremental delivery and adaptive planning, contrasting with the fixed scope and detailed upfront planning of traditional project management.

5. Which role is responsible for maximizing the value of the product in Scrum?

- A) Scrum Master
- B) Product Owner
- C) Development Team
- D) Project Manager

Answer: B

Explanation: The Product Owner is charged with maximizing the product's value by prioritizing work based on stakeholder and customer needs.

edge in your job search and advance your career in the tech industry. However, to pass the GAQM CASPO-001 Exam you have to prepare well. For the quick GAQM CASPO-001 exam preparation the CASPO-001 Questions is the right choice.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q15-Q20):

NEW QUESTION # 15

What pre-conditions must be fulfilled in order to allow Sprint Planning to begin? (Choose the best answer)

- A. Formal budget approval to conduct another Sprint
- B. A fully refined Product Backlog
- C. A clear and non-negotiable Sprint Goal
- D. Enough "Ready" Product Backlog to fill the Sprint
- E. There are no such pre-conditions
- F. A clear but negotiable business objective for the Sprint

Answer: E

Explanation:

Scrum imposes no formal pre-conditions for Sprint Planning beyond the Sprint starting. The Scrum Guide states: "Sprint Planning initiates the Sprint by laying out the work to be performed for the Sprint."

- * A: A fully refined backlog isn't required; refinement is ongoing.
- * B: Budget approval isn't a Scrum concept.
- * C, D: The Sprint Goal is defined during, not before, Sprint Planning.
- * E: Some "Ready" items help, but it's not mandatory; planning can refine items.

NEW QUESTION # 16

Which phrase best describes a Product Owner? (Choose the best answer)

- A. Team manager
- B. Requirements engineer
- C. Value optimizer
- D. Go-between between Developers and customers

Answer: C

Explanation:

The Scrum Guide defines the Product Owner as "accountable for maximizing the value of the product resulting from the work of the Scrum Team." Option B (Value optimizer) encapsulates this core focus on value delivery. Option A (Requirements engineer) is too narrow-while they manage requirements, their role transcends engineering to strategic vision. Option C (Team manager) is incorrect-they don't manage the team; the Scrum Master supports team self-management. Option D (Go-between) understates their authority; they actively shape the product, not just relay information. Thus, B is the best description.

NEW QUESTION # 17

Who is responsible for maximizing the value of the product? (Choose the best answer)

- A. Developers
- B. Senior Executives
- C. Product Owner
- D. Scrum Master

Answer: C

Explanation:

The Product Owner has explicit accountability for product value. The Scrum Guide states: "The Product Owner is accountable for maximizing the value of the product resulting from the work of the Scrum Team."

- * A: The Scrum Master ensures Scrum effectiveness, not value.
- * B: Correct-value maximization is their role.

NEW QUESTION # 18

Who updates work remaining during the Sprint? (Choose the best answer)

- A. Product Owner
- B. Senior Executives
- **C. Developers**
- D. Scrum Master

Answer: C

Explanation:

The Developers own the Sprint Backlog and update it as work progresses. The Scrum Guide states: "The Sprint Backlog is a plan by and for the Developers... As new work is required, the Developers add it to the Sprint Backlog. As work is performed or completed, the estimated remaining work is updated."

* A: The Scrum Master facilitates, not updates.

* B: Correct-the Developers manage it.

NEW QUESTION # 19

What two phrases best describe the relationship of the Product Owner and the Developers? (Choose the best two answers)

- A. The Product Owner should be with the Developers full-time to grow a deep understanding of the technology being used.
- **B. They collaborate often so the Product Owner can make informed decisions in balancing effort and value of Product Backlog items.**
- C. They should share no more than the Sprint Planning and the Sprint Review meeting.
- **D. They collaborate often so the Developers build Increments keeping end-user and stakeholder concerns in mind.**
- E. They should work apart as much as possible in order to keep the concerns of business and technology separated.

Answer: B,D

Explanation:

The Product Owner and Developers must collaborate closely to maximize value, as per the Scrum Guide.

* B: Collaboration enables the Product Owner to balance effort (Developer input) and value (their priority), aligning with: "The Product Owner may influence the Developers by helping them understand and select trade-offs."

* D: Frequent collaboration ensures the Developers understand stakeholder needs, supporting the creation of a valuable Increment: "The Developers are required to conform to the Definition of Done and to deliver an Increment that meets the Sprint Goal."

* A: Separation contradicts Scrum's emphasis on teamwork; the Scrum Team is cohesive, not siloed.

* C: Full-time co-location isn't required; the Product Owner focuses on value, not technical mastery.

NEW QUESTION # 20
