Certification Practice materials provide you with a wonderful opportunity to get your dream certification with confidence and ensure your success by your first attempt.

CompTIA A+ Certification Exam: Core 2 Sample Questions (Q73-Q78):

NEW QUESTION # 73

After using a third-party disk optimization software package, a technician restarts a laptop and receives the message "No operating system found." The technician verifies that the BIOS properly recognizes the SSD.

Which of the following should the technician do next?

- A. Isolate the system from the corporate network
- B. Replace the CMOS battery
- C. Update BitLocker settings in the BIOS
- **D. Boot from installation media and repair the MBR**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Disk optimization tools can sometimes corrupt the Master Boot Record (MBR). If BIOS sees the drive but can't boot, repairing the MBR using installation media is the correct next step.

From All-in-One Exam Guide:

"When BIOS recognizes the drive but no OS is found, the issue is often with the boot record. Use installation media to access recovery tools and repair the MBR or boot loader."

NEW QUESTION # 74

Which of the following filesystem types does the Linux OS use?

- A. APFS
- B. NTFS
- C. exFAT
- **D. ext4**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The ext4 (Fourth Extended Filesystem) is the most widely used default filesystem in modern Linux distributions. It is designed for high performance, scalability, and reliability, and is supported by all mainstream Linux kernels.

A: exFAT is used for cross-platform external drives, not native Linux systems.

B: APFS is Apple's proprietary filesystem for macOS and iOS.

D: NTFS is the default filesystem for Windows, not Linux.

Reference:

CompTIA A+ 220-1102 Objective 1.9: Identify common features and tools of the Linux client/desktop OS.

Study Guide Section: Filesystem types in Linux - ext3, ext4, and their characteristics

NEW QUESTION # 75

A company executive is currently attending a major music festival with a large number of attendees and is having trouble accessing a work email account. The email application is not downloading emails and also appears to become stuck during connection attempts.

Which of the following is most likely causing the disruption?

- A. The phone has no storage space available.
- B. The festival organizer prohibits internet usage during the event and has blocked the internet signal
- C. Company firewalls are configured to block remote access to email resources.
- **D. Too many devices in the same area are trying to connect to the mobile network.**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

At large events such as music festivals, cellular towers may become congested due to the high volume of users attempting to connect simultaneously. This congestion causes slow or failed data connections, which explains the email application being unable to sync or connect. This is a common real-world mobile connectivity issue in crowded areas.

A: Lack of storage would prevent saving attachments, not prevent connection attempts.

B: Company firewalls usually don't affect mobile access unless specific device restrictions are enforced.

D: Organizers do not have the ability to block the internet signal; only carriers manage mobile bandwidth.

Reference:

CompTIA A+ 220-1102 Objective 3.3: Troubleshoot mobile OS and connectivity issues.

Study Guide Section: Mobile network limitations - signal congestion and bandwidth issues

NEW QUESTION # 76

Which of the following prevents forced entry into a building?

- A. Video surveillance
- B. Motion-activated lighting
- C. PIV card
- **D. Bollard**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

A bollard is a sturdy physical barrier—often a steel or concrete post—designed to prevent vehicles or unauthorized individuals from ramming into or entering secure areas of a building. It provides physical security and is commonly used outside entrances to prevent forced entry.

A: PIV (Personal Identity Verification) cards are used for identity access control, not physical blocking.

B: Motion lighting may deter activity but doesn't physically prevent entry.

C: Surveillance records activity but cannot stop a forced entry.

Reference:

CompTIA A+ 220-1102 Objective 2.4: Compare and contrast physical security measures.

Study Guide Section: Physical security devices - barriers, bollards, and deterrents

NEW QUESTION # 77

A technician needs to install an operating system on a large number of workstations. Which of the following is the fastest method?

- A. Physical media
- B. Manual installation
- C. Mountable ISO
- **D. Image deployment**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Image deployment is the fastest and most efficient method for installing operating systems on multiple machines. It involves creating a pre-configured image of an OS and deploying it across systems using tools like Windows Deployment Services (WDS) or third-party imaging solutions. This method saves time and ensures consistency across all devices.

A: Physical media is slow and not scalable.

B: Mountable ISOs are useful but still require manual installation.

C: Manual installation is time-consuming and not suitable for large-scale deployment.

Reference:

CompTIA A+ 220-1102 Objective 1.4: Given a scenario, use appropriate Microsoft operating system installation methods.

Study Guide Section: Deployment methods - image deployment, automation

NEW QUESTION # 78

.....

Our 220-1202 study braindumps can be very good to meet user demand in this respect, allow the user to read and write in a good environment continuously consolidate what they learned. Our 220-1202 prep guide has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit 220-1202 Exam Questions. It points to the exam heart to solve your difficulty. So high quality materials can help you to pass your exam effectively, make you feel easy, to achieve your goal.
