Salesforce Health Cloud is a cloud-based application designed for healthcare providers and payers to streamline their patient engagement, care management, and population health initiatives. The Salesforce Health-Cloud-Accredited-Professional Exam is a certification offered by Salesforce to validate professionals' knowledge and skills in implementing, configuring, and managing Salesforce Health Cloud solutions.

Salesforce Health Cloud Accredited Professional certification is beneficial for individuals looking to advance their career in the healthcare industry. It demonstrates to employers and clients that the certified professional has the skills and knowledge required to effectively use Health Cloud to manage patient care. Salesforce Health Cloud Accredited Professional certification also provides a competitive edge for individuals seeking new job opportunities in the healthcare industry.

## Efficient Latest Braindumps Health-Cloud-Accredited-Professional Ppt - Pass Health-Cloud-Accredited-Professional Exam

I believe that after you try our products, you will love it soon.

### Salesforce Health Cloud Accredited Professional Sample Questions (Q86-Q91):

#### NEW QUESTION # 86

A new user story requires an OmniScript to update an existing field on a custom SObject.

Which two components should a consultant use to satisfy the requirement?

Choose 2 answers

- A. SOQL Query
- B. API Actions
- C. DataRaptors
- D. Integration Procedures

**Answer: C,D**

#### NEW QUESTION # 87

How should a consultant recommend modeling a physician's locations of service, when the physician practices at clinics?

- A. Healthcare Practitioner Facility
- B. Account Contact Relationship
- C. Healthcare Provider Relationship
- D. Healthcare Taxonomy

**Answer: A**

Explanation:

The Healthcare Practitioner Facility object is used to model a physician's locations of service, such as clinics or hospitals. It stores information about the facility name, address, phone number, and type.

#### NEW QUESTION # 88

A Salesforce Admin wants to create tasks within a Care Plan that is related to a specific problem or goal. Which three different locations in the Health Cloud console can be used to create tasks related to a specific problem or goal within a Care Plan? (Choose three.)

- A. Patient List
- B. Care Plan page
- C. Timeline Tab
- D. Care Team
- E. Household Tab

**Answer: A,B,C**

Explanation:

An administrator can create tasks within a Care Plan that is related to a specific problem or goal from the Timeline Tab, the Care Plan page, or the Household Tab in the Health Cloud console. The Timeline Tab shows a chronological view of all the tasks, events, and notes related to a patient or member. The Care Plan page shows the details of a specific care plan, including the tasks, problems,

goals, and interventions. The Household Tab shows a list of household members and their relationships with the patient or member<sup>3</sup>. The Care Team and the Patient List are not used to create tasks within a Care Plan.

#### NEW QUESTION # 89

In which two ways can Makana health service administrator prevent unauthorized users accessing the data?(choose two)

- A. Install shield and enable mask.
- **B. use field level security setting, record access setting and object permission.**
- **C. Encrypt the data using shield**
- D. optimize data using mask
- E. create sharing sets

**Answer: B,C**

Explanation:

Encrypting the data using shield (A) and using field level security setting, record access setting and object permission (E) are two ways to prevent unauthorized users from accessing the data. Installing shield and enabling mask (B) is not enough to protect the data, as masking only obscures the data in reports and dashboards, but does not prevent access to the underlying data. Creating sharing sets and optimizing data using mask (D) are not relevant to data security.

#### NEW QUESTION # 90

Which type of files can be uploaded as Consent Documents in secure folders of Health Cloud for a Care Program? (Choose two)

- A. Opt out consent documents
- **B. Authorization consent forms**
- C. Password protected files
- **D. Files that are smaller than 2 - Simple Application 5MB**
- E. Copy-protected PDF files

**Answer: B,D**

Explanation:

According to the Salesforce documentation<sup>1</sup>, consent documents are files that capture the enrollee's consent to participate in a care program. Consent documents can be uploaded as PDF, DOC, DOCX, or JPG files in secure folders of Health Cloud for a care program. The file size limit for consent documents is 2 MB<sup>1</sup>. Therefore, options C and D are correct. Option A is incorrect, because copy-protected PDF files cannot be uploaded as consent documents. Option B is incorrect, because opt out consent documents are not used to enroll in a care program, but to withdraw from it. Option E is incorrect, because password protected files cannot be uploaded as consent documents.

#### NEW QUESTION # 91

.....

What companies need most now is the talents with comprehensive strength. How to prove your strength? It's time to get an internationally certified Health-Cloud-Accredited-Professional certificate! Our Health-Cloud-Accredited-Professional exam questions are definitely the leader in this industry. In many ways, our Health-Cloud-Accredited-Professional Real Exam has their own unique advantages.
