## C\_SEC\_2405 Exam Passing Score - Practice C\_SEC\_2405 Test Engine

Now is not the time to be afraid to take any more difficult SAP Certified Associate - Security Administrator C\_SEC\_2405 certification exams. Our C\_SEC\_2405 learning quiz can relieve you of the issue within limited time. Our website provides excellent C\_SEC\_2405 learning guidance, practical questions and answers, and questions for your choice which are your real strength. You can take the SAP C\_SEC\_2405 Training Materials and pass it without any difficulty.

## SAP Certified Associate - Security Administrator Sample Questions (Q61-Q66):

### NEW QUESTION # 61

For users with system administration authorization, which additional functions are provided by the SAP Easy Access menu? Note: There are 2 correct answers to this question.

- A. Creating users
- B. Calling menus for roles and assigning them to users
- C. Creating roles

- D. Calling programs

**Answer: A,C**

Explanation:

In SAP systems, users with system administration authorization have access to additional functions in the SAP Easy Access menu to manage system security and user administration. The menu includes options for creating roles, allowing administrators to use transaction PFCG to define and maintain authorization roles, which are critical for assigning permissions to users based on their job functions. Additionally, the menu provides access to creating users, enabling administrators to use transaction SU01 to set up user master records, including user IDs, passwords, and role assignments. These functions are essential for managing access control and ensuring system security. Calling menus for roles and assigning them to users is not a specific function of the Easy Access menu, as role assignment is typically performed within SU01 or PFCG.

Calling programs is a general user function, not exclusive to administrators. These administrative capabilities in the Easy Access menu streamline security management tasks in SAP environments.

### NEW QUESTION # 62

An authorization based on what object is required for trusted system access to an SAP Fiori back-end server?

- A. S\_START
- B. S\_RFC
- C. S\_SERVICE
- **D. S\_RFCACL**

**Answer: D**

Explanation:

The S\_RFCACL authorization object is essential for trusted system access to an SAP Fiori back-end server. It controls Remote Function Call (RFC) access by verifying trust relationships and ensuring secure communication between systems.

Key Fields in S\_RFCACL:

- \* ACTVT: Specifies the activity, such as execution or maintenance of RFC connections.
- \* RFC\_SYSID: Identifies the trusted system by its System ID (SID).
- \* RFC\_CLIENT: Specifies the client number in the trusted system.

SAP Security References:

- \* SAP Note on S\_RFCACL and Trusted System Configuration
- \* SAP Help Portal: Trusted RFC Connection Setup

### NEW QUESTION # 63

Which tool can you use to modify the entities schema content across multiple repositories?

- A. SAP BTP Account Explorer
- B. SAP Business Application Studio
- C. SAP Cloud Identity Services Transformation Editor
- **D. SAP Cloud Identity Services Schemas app**

**Answer: D**

Explanation:

- \* Context: Modifying entities schema content across multiple repositories is crucial for customizing identity services.

\* Solution Description:

- \* The Schemas app in SAP Cloud Identity Services is specifically designed for managing schema content.

SAP Security References:

- \* SAP Cloud Identity Services Documentation
- \* SAP Schemas App User Guide

### NEW QUESTION # 64

Which of the following allow you to control the assignment of table authorization groups? Note: There are 2 correct answers to this question.

- A. SSM\_CUST
- B. V\_DDAT\_54
- C. V\_BRG\_54
- D. PRGN\_CUST

**Answer: C,D**

Explanation:

Table authorization groups control access to specific database tables, and their assignment can be managed through the following:

- \* PRGN\_CUST (A):Used to configure specific customization settings in SAP, including the assignment of table authorization groups.
- \* V\_BRG\_54 (C):Provides access to maintain and view table authorization group assignments, aiding in security management.

SAP Security References:

- \* SAP Help Portal: Role and Authorization Maintenance
- \* SAP Table Authorization Group Configuration Guide

### NEW QUESTION # 65

Which cloud-based SAP solution helps organizations control their data across various cloud platforms and on- premise data sources?

- A. SAP Identity Access Governance
- B. SAP Information Steward
- C. SAP Privacy Governance
- D. SAP Data Custodian

**Answer: D**

Explanation:

SAP Data Custodian is a cloud-based solution designed to help organizations manage and protect their data across multiple cloud platforms and on-premise data sources. It ensures data sovereignty, compliance, and security by providing real-time insights into data residency, transparency, and access policies. Below is a detailed breakdown of its functionality:

- \* Data Residency Insights:SAP Data Custodian offers visibility into where data resides, enabling organizations to adhere to local regulations and compliance requirements regarding data storage.
- \* Access Control and Monitoring:The solution provides tools to define, manage, and monitor data access policies. It ensures that only authorized individuals and systems can access sensitive information.
- \* Multi-cloud and On-premise Support:SAP Data Custodian integrates seamlessly with various cloud platforms (e.g., AWS, Azure, Google Cloud) and on-premise environments, making it versatile for hybrid IT landscapes.
- \* Compliance Reporting:Built-in compliance features allow organizations to generate reports that demonstrate adherence to regulations like GDPR, CCPA, and industry-specific standards.
- \* Advanced Security Features:The solution offers encryption, key management, and risk assessment functionalities, enhancing the overall security posture of the organization.

SAP Security References:

- \* SAP Official Documentation: SAP Help Portal for Data Custodian
- \* SAP White Paper on Cloud Data Sovereignty
- \* SAP Data Custodian Overview Guide

For more detailed implementation guidelines, refer to the SAP Data Custodian documentation available through the SAP Marketplace or the SAP Help Portal.

### NEW QUESTION # 66

.....
