Now our JN0-481 actual test guide can make you the whole relax down, with all the troubles left behind. Our JN0-481 exam questions are compiled to meet all of your requirements. The comprehensive coverage would be beneficial for you to pass the exam. Only need to spend about 20-30 hours practicing our JN0-481 study files can you be fully prepared for the exam. With deeply understand of core knowledge JN0-481 actual test guide, you can overcome all the difficulties in the way. So our JN0-481 exam questions would be an advisable choice for you.

PassLeader provides with actual Juniper JN0-481 exam dumps in PDF format. You can easily download and use JN0-481 PDF dumps on laptops, tablets, and smartphones. Our real JN0-481 dumps PDF is useful for applicants who don't have enough time to prepare for the examination. If you are a busy individual, you can use JN0-481 Pdf Dumps on the go and save time.

Try PassLeader Juniper JN0-481 Practice Test Software

In today's society, everyone wants to find a good job and gain a higher social status. As we all know, the internationally recognized JN0-481 certification means that you have a good grasp of knowledge of certain areas and it can demonstrate your ability. This is a fair principle. But obtaining this JN0-481 certificate is not an easy task, especially for those who are busy every day. However, if you use our JN0-481 Exam Torrent, we will provide you with a comprehensive service to overcome your difficulties and effectively improve your ability. If you can take the time to learn about our JN0-481 quiz prep, I believe you will be interested in our products. Our learning materials are practically tested, choosing our JN0-481 exam guide, you will get unexpected surprise.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q36-Q41):

NEW QUESTION # 36
Which two statements ate correct about the information shown in the exhibit? (Choose two.)

- A. Four physical interfaces exist in a LAG facing the leaf pair.
- B. The physical ports are not part of the LAG.

- C. The system is fully managed by Juniper Apstra.
- D. The device shown is a generic system.

Answer: A,D

Explanation:
A generic system is a device that is not managed by Juniper Apstra and does not have a specific role or type assigned to it. A generic system can be used to represent a server, a firewall, a load balancer, or any other device that is not part of the fabric. In the exhibit, the device shown is a generic system, as indicated by its role, system type, and management level. Therefore, the correct answer is B. The device shown is a generic system. A LAG is a link aggregation group that bundles multiple physical interfaces into a single logical interface. A LAG can provide increased bandwidth, redundancy, and load balancing for the network traffic. In the exhibit, the device shown has four physical interfaces that are part of a LAG, as indicated by their description and li_type. The LAG is facing the leaf pair, which are the two switches that connect to the device.

NEW QUESTION # 37
Which of the following two statements are correct?

- A. VXLAN encapsulation discards VLAN IDs
- B. VXLAN encapsulation discards VNIs
- C. VXLAN is a Layer 2 encapsulation protocol
- D. VXLAN is a Layer 3 encapsulation protocol

Answer: A,C

NEW QUESTION # 38
In the Juniper Apstra design phase, which object dictates port count, port speed, and how the ports would be used?

- A. logical devices
- B. rack type
- C. network devices
- D. interface map

Answer: D

Explanation:
Interface maps are objects that map interfaces between logical devices and physical hardware devices in the Juniper Apstra design phase. They dictate port count, port speed, and how the ports would be used for achieving the intended network configuration rendering. Interface maps also allow you to select device ports, transformations, and interfaces, provision breakout ports, and disable unused ports.

NEW QUESTION # 39
Referring to the exhibit, what needs to change in the IP fabric to make it a valid IP fabric?

- A. The connection between the two spine nodes must be removed.
- B. The IP fabric connections must be increased to a speed greater than 10 Gbps.
- C. The connection between the two spine nodes must be increased to 40 Gbps.
- D. The IP fabric must consist of only one device model throughout the fabric.

Answer: A

Explanation:
To make the IP fabric a valid IP fabric, the connection between the two spine nodes must be removed. This is because an IP fabric is a network topology that uses a spine-leaf architecture, where the spine devices are only connected to the leaf devices, and the leaf devices are only connected to the spine devices. This creates a non-blocking, high-performance, and scalable network that supports Layer 3 routing protocols such as BGP or OSPF. The connection between the two spine nodes in the exhibit violates the spine-leaf design principle and introduces unnecessary complexity and potential loops in the network.

NEW QUESTION # 40

The 10.100.0.0/16 route is being advertised into your BGP IP fabric. ECMP load balancing has been properly enabled on all devices.

In this scenario, how many routes will the leaf device in AS 65000 receive for the 10.100.0.0/16 prefix?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

The leaf device in AS 65000 will receive three routes for the 10.100.0.0/16 prefix, one from each spine device in AS 65001, AS 65002, and AS 65003. Since ECMP load balancing is enabled, the leaf device will install all three routes in its routing table and distribute the traffic among them.

NEW QUESTION # 41

......

In order to make your exam easier for every candidate, our JN0-481 exam prep is capable of making you test history and review performance, and then you can find your obstacles and overcome them. In addition, once you have used this type of JN0-481 exam question online for one time, next time you can practice in an offline environment. The JN0-481 test torrent also offer a variety of learning modes for users to choose from, which can be used for multiple clients of computers and mobile phones to study online, as well as to print and print data for offline consolidation. Therefore, for your convenience, more choices are provided for you, we are pleased to suggest you to choose our JN0-481 Exam Question for your exam.

JN0-481 Vce Files: https://www.passleader.top/Juniper/JN0-481-exam-braindumps.html

It has high accuracy of JN0-481 questions and answers, since the experienced experts are in the high position in this field, Up to now, there are seldom competitors can catch up with the quality of our JN0-481 test quiz materials, so according to the advantages mentioned above, you can know why we are so saleable and popular among the customers, As for the safe environment and effective product, why don't you have a try for our JN0-481 question torrent, never let you down!

See the section Alternatives to Silverlight, later in this chapter, Part V: Analog Prototype Filters, It has high accuracy of JN0-481 questions and answers, since the experienced experts are in the high position in this field.

Exam JN0-481 Dump – Reliable Vce Files Providers for Juniper JN0-481: Data Center, Specialist (JNCIS-DC)

Up to now, there are seldom competitors can catch up with the quality of our JN0-481 Test Quiz materials, so according to the advantages mentioned above, you can know why we are so saleable and popular among the customers.

As for the safe environment and effective product, why don't you have a try for our JN0-481 question torrent, never let you down, With the JN0-481 exam questions you will get everything that you need to learn, prepare and pass the challenging Juniper JN0-481 exam with good scores.

The most key consideration is the quality of JN0-481 actual test.
