Pass Guaranteed Useful UiPath-SAIAv1 - Test UiPath Specialized AI Associate Exam (2023.10) Online

Our UiPath-SAIAv1 exam prep has already become a famous brand all over the world in this field since we have engaged in compiling the UiPath-SAIAv1 practice materials for more than ten years and have got a fruitful outcome. You are welcome to download the free demos to have a general idea about our UiPath-SAIAv1 study questions. Since different people have different preferences, we have prepared three kinds of different versions of our UiPath-SAIAv1 training guide: PDF, Online App and software.

UiPath Specialized AI Associate Exam (2023.10) Sample Questions (Q64-Q69):

NEW QUESTION # 64

What function in the train.py file is responsible for persisting the trained model?

- A. `__init__(self)`
- B. `evaluate(self, evaluation_directory)`
- C. `save(self)`
- D. `train(self, trainmg_directory)`

Answer: C

Explanation:

In the context of a machine learning pipeline, specifically within the train.py file in UiPath AI models, the function responsible for persisting the trained model is typically named `save(self)`. This function is invoked after the model has been trained, and it ensures that the model's state, weights, and configurations are saved to disk or another persistent storage medium. The saved model can then be reused for inference or further fine-tuning in future executions.

NEW QUESTION # 65

Which of the following time periods can be selected when viewing Trends in UiPath Communications Mining?

Which of the following time periods can be selected when viewing Trends in UiPath Communications Mining?

- A. Daily, Monthly, Quarterly, Yearly.
- B. Daily, Bi-weekly, Quarterly, Yearly.
- C. Daily, Bi-weekly, Monthly, Yearly.
- D. Daily, Weekly, Monthly, Yearly.

Answer: D

Explanation:

According to the UiPath Communications Mining documentation, the Trends tab in the Reports page displays charts for verbatim volume, label volume, and sentiment over a selected time period. Users can choose the time period for the data in the filter bar, and the time sequencing of the chart (i.e. daily, weekly, etc.) in the top right dropdown menu. The available options for the time sequencing are Daily, Weekly, Monthly, and Yearly. These options allow users to see how the trends change over different time intervals and identify patterns or anomalies.

NEW QUESTION # 66

How do you choose the appropriate document processing methodology?

- A. Based on the document structure and data points to be extracted.
- B. Based on the document type and length.
- C. Based on the text language and the number of pages.
- D. Based on the number of fields to be extracted.

Answer: A

Explanation:

Reference: [UiPath Document Understanding](#)

NEW QUESTION # 67

What is a mandatory requirement before using the One Click Classification functionality?

- A. The Document Understanding project must have at least five Document Types defined.
- B. The Document Understanding project must be linked to Action Center.
- **C. The Document Understanding project must be linked to AI Center.**
- D. The Document Understanding project must be linked to AI Fabric.

Answer: C

Explanation:

Reference: UiPath Document Understanding and AI Center

NEW QUESTION # 68

What are all the ways to deploy AI Center?

- A. In cloud availability, on-premises air-gapped, on-premises online, hybrid mode (cloud AI Center + Orchestrator on-premise). and Automation Suite.
- **B. In cloud availability, on-premises air-gapped, on-premises online, hybrid mode (AI Center on-premise + Orchestrator on-premise). and Automation Suite.**
- C. In cloud availability, on-premises air-gapped, on-premises online, and hybrid mode {cloud AI Center + Orchestrator on-premise).
- D. In cloud availability, on-premises, hybrid mode (AI Center on-premise + cloud Orchestrator), and Automation Suite.

Answer: B

Explanation:

UiPath AI Center can be deployed in multiple ways to meet different organizational needs and infrastructures.

The available deployment options include:

Cloud availability: Using UiPath's cloud services.

On-premises air-gapped: A fully isolated, offline environment for organizations with strict security requirements.

On-premises online: Deployed on-premise but with internet connectivity.

Hybrid mode: Combining on-premises AI Center with on-premises Orchestrator for flexibility.

Automation Suite: A comprehensive deployment of UiPath tools, including AI Center.

For more details, refer to:

UiPath AI Center Deployment Models: Deployment Options

NEW QUESTION # 69

.....

One of the biggest highlights of the UiPath-SAIAv1 exam materials is the availability of three versions: PDF, app/online, and software/pc, each with its own advantages: The PDF version of UiPath-SAIAv1 exam materials has a free demo available for download. You can print exam materials out and read it just like you read a paper. The online version of UiPath-SAIAv1 Exam Materials is based on web browser usage design and can be used by any browser device. At the same time, the first time it is opened on the Internet, it can be used offline next time. You can practice anytime, anywhere.
