Salesforce Certified Service cloud consultant Sample Questions (Q36-Q41):

NEW QUESTION # 36
UC's service center needs to provide support for a new product line. The product manager would like to be notified whenever a customer reports a new defect. Which solution should a consultant recommend to meet this requirement?

(choose 1 answer)

- A. Use aworkflow rule to send an email to the product manager
- B. Use an escalation rule to move cases into the product manager queue
- C. Use Chatter case feed and case teams to monitor cases
- D. Use an assignment rule to assign new cases to the product manager

Answer: A

NEW QUESTION # 37

Universal containers want to identify potential delays in the customer support process. Which metric should the contact center management analyze? (Choose 1)

- A. Average case stage duration.
- B. Open cases by reason.
- C. Case volume by channel.
- D. Cases created by type.

Answer: A

NEW QUESTION # 38

Universal Containers is changing their case management system to Salesforce. All active accounts, contacts, open cases, and closed cases for the past five years must be migrated to Salesforce for go-live.
Which approach should the Consultant use for data migration?

- A. Plan, Prepare, Validate, Execute, Text
- B. Prepare, Plan, Text, Execute, Validate
- C. Prepare, Plan, Validate, Execute, Text
- D. Plan, Prepare, Test, Execute, Validate

Answer: D

NEW QUESTION # 39

Cloud Kicks provides regular and special support to customers. When a special case is created, a dedicated account manager needs Read-Only access and a support specialist needs Read and Write access.
Which feature will provide the required level of access?

- A. View All for Case
- B. Case teams
- C. Manager groups

Answer: B

Explanation:
To provide the required access levels for a dedicated account manager and a support specialist on special cases, utilizing Case Teams is the most effective solution. Case Teams allow for the customization of roles and access levels for each team member, ensuring that the account manager has Read-Only access while the support specialist has Read and Write access.

NEW QUESTION # 40

A company is planning for the migration of an existing external knowledge base into Salesforce Knowledge.
Which set of factors should be considered when selecting the articles to migrate?

- A. Last modified date and total number of article views in the last year
- B. Last modified date and terms searched frequently in the last year
- C. Original creation date and total number of article views in the last year

Answer: A

Explanation:
When migrating an external knowledge base into Salesforce Knowledge, considering the last modified date and total number of article views in the last year is essential. These factors help identify the most relevant and frequently used content, ensuring that the migrated knowledge base is up-to-date and meets the users' needs.
The last modified date indicates the currency of the information, suggesting that the content is still relevant and maintained. The total number of views serves as an indicator of the article's usefulness and popularity among users. Focusing on these factors during the migration process ensures that the most valuable and current content is prioritized, enhancing the effectiveness of the Salesforce Knowledge base.

NEW QUESTION # 41
