Reliable PEGACPSA24V1 Dumps Ppt & Printable PEGACPSA24V1 PDF

As we always want to do better in this career, our research center has formed a group of professional experts responsible for researching new technology of the PEGACPSA24V1 study materials. The technology of the PEGACPSA24V1 practice prep will be innovated every once in a while. As you can see, we never stop innovating new version of the PEGACPSA24V1 Exam Questions. We really need your strong support. We always adopt the kind and useful advices of our loyal customers who wrote to us and gave us their opinions on their study.

Pegasystems Certified Pega System Architect 24 Sample Questions (Q176-Q181):

NEW QUESTION # 176

Which UI layout allows displaying multiple sections within a case view?

- A. Dynamic Layout
- B. Work Queue
- C. SLA Goal
- D. Repeat Grid

Answer: A

Explanation:

A Dynamic Layout enables flexible arrangement of UI components within a case view. It allows responsive design, adjusting to different screen sizes and device types. This improves usability and consistency in complex forms. It is commonly used for interactive dashboards and multi-step forms.

NEW QUESTION # 177

Which feature in Pega allows a case to pause until a specific event occurs?

- A. Stage Skip
- B. SLA Escalation
- C. Wait Step
- D. Work Queue Routing

Answer: C

Explanation:

A Wait Step pauses case processing until a specific event or condition is met. It can wait for a time delay, a data update, or an external system response. This ensures synchronization between case steps when dependent data is required. Wait Steps help manage complex workflows efficiently.

NEW QUESTION # 178

Which tool allows debugging issues related to data flow and property values?

- A. SLA Deadline Monitor
- B. Clipboard Tool
- C. Case Lifecycle Tracker
- D. Work Queue Analyzer

Answer: B

Explanation:

The Clipboard Tool provides a real-time view of application data and property values, helping developers debug incorrect data flow and assignments. This ensures that data is processed correctly. SLA monitors, work queues, and case trackers do not provide data debugging capabilities.

NEW QUESTION # 179

Which feature allows dynamically adding and removing rows in a Repeat Grid?

- A. SLA Goal Timer
- B. Case Status Tracker
- C. Editable Mode
- D. Work Queue Mapping

Answer: C

Explanation:

Enabling Editable Mode in a Repeat Grid allows users to add, modify, and delete rows dynamically. This feature is useful for line items in invoices, address lists, and form-based data entry. SLA goal timers and work queue mappings do not control grid row updates.

NEW QUESTION # 180

Which two factors influence SLA urgency calculations? (Choose Two)

- A. The assignment's start time
- B. The time elapsed since case creation
- C. The assigned operator's workload

- D. The case's complexity rating

Answer: A,B

Explanation:

SLA urgency increases over time based on the assignment's start time and how long it has been pending. If a case remains unaddressed beyond its goal or deadline, urgency rises, triggering escalations. Workload and complexity do not directly impact SLA urgency. Higher urgency ensures priority handling of critical cases.

NEW QUESTION # 181

.....

We are impassioned, thoughtful team. So our PEGACPSA24V1 exam torrents will never put you under great stress but solve your problems with efficiency. Otherwise if you fail to pass the exam unfortunately with our PEGACPSA24V1 test braindumps, we will return your money fully or switch other versions for you. So by using our PEGACPSA24V1 exam torrents made by excellent experts, the learning process can be speeded up to one week. They have taken the different situation of customers into consideration and designed practical PEGACPSA24V1 Test Braindumps for helping customers save time. As elites in this area they are far more proficient than normal practice materials' editors, you can trust them totally.
