And our C1000-196 exam braindumps won't let you down!

IBM DataPower Gateway v10.x Administrator - Professional Sample Questions (Q80-Q85):

NEW QUESTION # 80

Scenario: You have configured a DataPower appliance with multiple network interfaces, but one interface is not showing as "up" in the status.

What are the first two steps you should take to resolve this? (Choose two)

- A. Verify that the network cable is properly connected to the interface
- B. Ensure that the interface is properly configured with an IP address and subnet mask
- C. Reset the appliance to reinitialize all network interfaces
- D. Disable and re-enable the network interface in the web GUI

Answer: A,B

NEW QUESTION # 81

Which of the following is the correct approach to configure a static IP address for a DataPower appliance?

- A. Set the IP address and subnet mask in the appliance's web GUI under network settings
- B. Assign the IP address through a DHCP server
- C. Configure the static IP address only for internal interfaces and leave external interfaces dynamic
- D. Use the CLI to configure the IP address and DNS settings

Answer: A

NEW QUESTION # 82

Scenario: You are setting up a new DataPower appliance in a critical environment, and you need to ensure that you can recover configurations quickly in case of a failure.

What steps should you take to ensure effective recovery of the appliance's configurations? (Choose two)

- A. Use the appliance's system diagnostic tool to generate a detailed report of the current configuration
- B. Perform regular backups and store them in a secure, offsite location
- C. Configure automated backups to an external storage device connected directly to the appliance
- D. Test the backup and restore procedure to ensure recovery works as expected

Answer: B,D

NEW QUESTION # 83

What is the primary function of managing system resources in different form factors of DataPower appliances?

- A. To provide different levels of power redundancy and network speed options for specific workloads
- B. To ensure the appliance can handle both high-traffic internal and external communication
- C. To configure the firmware for each appliance model
- D. To adjust the form factor's power consumption for energy efficiency

Answer: A

NEW QUESTION # 84

Scenario: While configuring a DataPower appliance, you need to ensure it can reach the internal and external networks securely. Which two actions should you prioritize to confirm the configuration is correct? (Choose two)

- A. Verify that the firewall on the appliance allows traffic from internal and external networks
- B. Ensure that both internal and external network interfaces are part of the same subnet
- C. Configure both internal and external network interfaces with appropriate static IP addresses
- D. Test the network connectivity from the internal network to the external services

Answer: A,C

NEW QUESTION # 85

.....
