## Top D-PVM-OE-01 Latest Exam Discount | Reliable EMC D-PVM-OE-01: Dell Technologies PowerMax Operate 100% Pass

There have many shortcomings of the traditional learning methods. If you choose our D-PVM-OE-01 test training, the intelligent system will automatically monitor your study all the time. Once you study our D-PVM-OE-01 certification materials, the system begins to record your exercises. Also, the windows software will automatically generate a learning report when you finish your practices of the D-PVM-OE-01 Real Exam dumps, which helps you to adjust your learning plan. It is crucial that you have formed a correct review method. The role of our D-PVM-OE-01 test training is optimizing and monitoring your study. Sometimes you have no idea about your problems. So you need our D-PVM-OE-01 real exam dumps to promote your practices.

## EMC Dell Technologies PowerMax Operate Sample Questions (Q80-Q85):

### NEW QUESTION # 80

A company is setting up a multi-tenant environment where multiple departments share the same storage array with SID 1762. The IT department requires 2 TB of storage to be available on the ESXi1 host. Use

"ESXi1\_SG" for the storage group name, create a port group with Dir- Ports "OR-1C:0 and OR-2C:0," and leave all other settings at their default.

Using the simulator, provision the storage required with a single volume using auto-provisioning groups.

### Answer:

Explanation:

See the explanation for step by step solution.

Explanation:

We need to provision 2 TB of storage to the ESXi1 host on a PowerMax array (SID 1762) using Unisphere, in a multi-tenant environment. We'll use auto-provisioning with the following specifics:

- \* Storage Group Name:ESXi1\_SG
- \* Port Group:(A new port group with Directors OR-1C:0 and OR-2C:0)
- \* Volume Size:2 TB (single volume)
- \* Other Settings:Default

Here are the step-by-step instructions, tailored for the Unisphere simulator as described in the question:

Steps:

1. Launch the Simulator and Navigate to Storage Groups
  - \* Open Unisphere for PowerMax in your web browser.
  - \* You should already be logged in to the simulator, with the PowerMax array with SID 1762.
  - \* In the left-hand navigation pane, click onStorage>Storage Groups.
2. Initiate Storage Group Creation
  - \* Click theCreatebutton (likely a plus "+" icon) in the Storage Groups section to start the Create Storage Group wizard.
3. Name the Storage Group
  - \* In the "Create Storage Group" wizard:
  - \* Storage Group Name:Enter ESXi1\_SG.
  - \* Enable FAST/Service LevelDo not check this option, as we are leaving all other settings at their default.
  - \* ClickNextorContinue(the exact wording might vary).
4. Add Volumes
  - \* Ensure"Create new volumes"is selected.
  - \* Number of Volumes:Enter 1.
  - \* Volume Size:
  - \* Enter 2.
  - \* Select TB from the dropdown for the unit.
  - \* ClickNext.

#### 5. Create the Port Group

\* You should now be on the "Connectivity" or "Host" step, where you will add a new port group.

\* Select "Create Port Group"

\* Port Group Name: Give the new port group a name. You can use something descriptive like "ESXi1\_PG," or any name that follows your organization's naming conventions.

\* Select Ports:

\* Find and select the following Directors and ports from the list of available ports:

\* OR-1C:0

\* OR-2C:0

\* Note: The simulator may not allow you to highlight the exact director ports as in a production environment. It will likely display all directors and ports under the selected array. Just ensure they are selected as part of the port group.

\* ClickNext.

#### 6. Add host to the Masking View

\* Select "Add Host"

\* Select "Create New Host"

\* Host Name: ESXi1

\* Initiators: You don't have specific initiators to add in this simulation, so you can skip this part or add any from the available options. This is because we are working within a simulated environment.

\* ClickNext

#### 7. Review and Create

\* You'll be presented with a summary page that shows:

\* Storage Group: ESXi1\_SG

\* Volume: 1 x 2 TB volume

\* Port Group: (The new port group you created with OR-1C:0 and OR-2C:0)

\* Host: ESXi1

\* Carefully review all the settings to make sure they are correct.

\* ClickRun NoworFinish(or similar wording) to create the storage group, volume, port group, and masking view.

#### 8. Verification (Optional)

\* After the operation completes, you can verify the results:

\* Go back to theStorage Groupslist. You should see the ESXi1\_SG storage group.

\* Click on ESXi1\_SG to view its details. You should see the 2 TB volume and the associated host (ESXi1) and port group.

\* You can also navigate toHosts>Port Groupsto verify that the new port group was created correctly.

\* Finally, you can navigate toHosts>Masking Viewsto verify that a masking view was created correctly.

### NEW QUESTION # 81

Which emulations can be added through the SYMCLI?

- A. RE, RF, and SE
- B. IM, DX, and RF
- C. EDS, FA, and SE
- D. RF, SE, and DX

**Answer: A**

### NEW QUESTION # 82

Which Solutions Enabler daemon is responsible forGatekeepermanagement?

- A. storsrvd
- B. storslpd
- C. storapid
- D. storgnsd

**Answer: C**

### NEW QUESTION # 83

A systems administrator no longer needs the remote replica of a local device. Which step can be performed first in order to perform the deletetpair function?

- A. Suspend the SRDF link
- B. Change the type of the group to "regular"
- C. Change the pair state to "NR"
- D. Split the SRDF link

**Answer: A**

#### NEW QUESTION # 84

What is the performance metric for the read-to-write ratio of workloads on a specific logical block address?

- A. Data spanning
- B. Prefetch
- C. Workload clustering
- D. Workload type

**Answer: D**

#### NEW QUESTION # 85

.....

Finding 60 exam preparation material that suits your learning preferences, timetable, and objectives is essential to prepare successfully for the test. You can prepare for the EMC D-PVM-OE-01 test in a short time and attain the Dell Technologies PowerMax Operate certification exam with the aid of our updated and valid exam questions. We emphasize quality over quantity, so we provide you with EMC D-PVM-OE-01 Actual Exam questions to help you succeed without overwhelming you.
