The world of data privacy is becoming increasingly important in the digital age we live in today. With the vast amounts of data being generated and stored, it is crucial to have professionals who can ensure that data is kept secure and protected. The ISACA CDPSE exam is one such certification that equips professionals with the necessary skills and knowledge to become a certified data privacy solutions engineer.

The CDPSE exam covers a wide range of topics related to data privacy solutions engineering, including privacy governance, privacy architecture, data lifecycle management, privacy operations, and data protection. CDPSE exam consists of 150 multiple-choice questions that are designed to test the candidate's understanding of the key concepts and best practices in the field of data privacy solutions engineering. To be eligible for the CDPSE Certification, candidates must have at least five years of experience in privacy or data protection, with a minimum of three years of experience in data privacy solutions engineering.

The CDPSE certification is ideal for professionals who work in data privacy and security, including privacy officers, data protection officers, security analysts, risk managers, and compliance officers. It is also suitable for individuals who are responsible for designing and implementing data privacy solutions in their organizations. By earning this certification, professionals can enhance their skills and knowledge in the field of data privacy, and demonstrate their commitment to maintaining the highest standards of privacy and security in their organizations.

In addition, CDPSE exam materials contain both questions and answers, and you can have a quickly check after payment. CDPSE training materials cover most of knowledge points for the exam, and you can master the major knowledge points for the exam as well as improve your professional ability in the process of learning. We have online and offline chat service staff for CDPSE Training Materials, and they possess the professional knowledge, if you have any questions, you can consult us.

ISACA Certified Data Privacy Solutions Engineer Sample Questions (Q106-Q111):

NEW QUESTION # 106

The purpose of consent tagging is to:

- A. Log and track consent from a user visiting a website
- **B. Track and manage individuals' consent preferences**
- C. Ensure users have given consent to use cookies
- D. Request consent from a user visiting a website

Answer: B

Explanation:

Consent tagging is a metadata-driven process that associates consent preferences with an individual's data, enabling organizations to manage consent dynamically across systems. It is not limited to cookies (A), one-time logging (C), or initial requests (D).

"Consent tagging links an individual's data with their recorded consent choices for compliant processing."

NEW QUESTION # 107

When evaluating cloud-based services for backup, which of the following is MOST important to consider from a privacy regulation standpoint?

- A. Volume of data stored
- B. Data classification labeling
- C. Privacy training for backup users
- **D. Data residing in another country**

Answer: D

NEW QUESTION # 108

The BEST way for a multinational organization to ensure the comprehensiveness of its data privacy policy is to perform an annual review of changes to privacy regulations in.

- A. all data sectors in which the business operates
- B. the region where the business IS incorporated.
- C. all countries with privacy regulations.
- **D. all jurisdictions where corporate data is processed.**

Answer: D

Explanation:

A multinational organization that operates across different countries and regions should perform an annual review of changes to privacy regulations in all jurisdictions where its corporate data is processed. This is because different jurisdictions may have different privacy laws and requirements that apply to the collection, use, storage, transfer, and disposal of personal data. For example, the EU General Data Protection Regulation (GDPR) applies to any organization that processes personal data of individuals in the EU, regardless of where the organization is located or where the data is processed. Therefore, the organization should keep track of the changes to privacy regulations in all relevant jurisdictions and update its data privacy policy accordingly to ensure compliance and avoid penalties or lawsuits.

NEW QUESTION # 109

A global organization is planning to implement a customer relationship management (CRM) system to be used in offices based in multiple countries. Which of the following is the MOST important data protection consideration for this project?

- A. National data privacy legislative and regulatory requirements in each relevant jurisdiction
- **B. Identity and access management mechanisms to restrict access based on need to know**
- C. Encryption algorithms for securing customer personal data at rest and in transit
- D. Industry best practice related to information security standards in each relevant jurisdiction

Answer: B

NEW QUESTION # 110

What is the PRIMARY means by which an organization communicates customer rights as it relates to the use of their personal

information?

- A. Gaining consent when information is collected
- **B. Publishing a privacy notice**
- C. Mailing rights documentation to customers
- D. Distributing a privacy rights policy

Answer: B

Explanation:

The primary means by which an organization communicates customer rights as it relates to the use of their personal information is publishing a privacy notice. A privacy notice is a document that informs the customers about how the organization collects, uses, shares, and protects their personal information, and what rights and choices they have regarding their data⁴. A privacy notice is a legal requirement under many data protection laws and regulations, such as the General Data Protection Regulation (GDPR), the California Consumer Privacy Act (CCPA), or the Personal Information Protection and Electronic Documents Act (PIPEDA)⁵. A privacy notice is also a good practice to demonstrate the organization's commitment to transparency, accountability, and customer trust. Reference:

ISACA Glossary of Terms

Article 13 and 14 of the GDPR

[Section 1798.100 of the CCPA]

[SCHEDULE 1, PRINCIPLE 4.8 OF THE PIPEDA]

[ISACA CDPSE Review Manual, Chapter 1, Section 1.3.2]
