ITDumpsKR의SAP C_S4CPB_2508 인증시험덤프는 자주 업데이트 되고, 오래 되고 더 이상 사용 하지 않는 문제들은 바로 삭제해버리며 새로운 최신 문제들을 추가 합니다. 이는 응시자가 확실하고도 빠르게SAP C_S4CPB_2508덤프를 마스터하고SAP C_S4CPB_2508시험을 패스할수 있도록 하는 또 하나의 보장입니다. 매력만점SAP C_S4CPB_2508덤프 강력 추천합니다.

최신 SAP Certified Associate C_S4CPB_2508 무료샘플문제 (Q19-Q24):

질문 # 19

Which solution is designed to help customers understand their environmental, social, and governance (ESG) data?

- A. SAP Responsible Design and Production
- B. SAP Green Token
- C. SAP Sustainability Footprint Management
- **D. SAP Sustainability Control Tower**

정답: D

설명:

SAP Sustainability Control Tower is a cloud-based solution that enables customers to record, report, and act on their ESG data. It provides a comprehensive and consistent view of the ESG performance across the enterprise and the value chain. It also supports automated, auditable, and compliant reporting based on global standards and frameworks. SAP Sustainability Control Tower helps customers to embed sustainability into their core business processes and make balanced decisions that support their sustainability goals. 질문 # 20

What are some characteristics of public cloud? Note: There are 2 correct answers to this question.

- **A. Lower total cost of ownership**
- **B. Multi-tenant server**
- C. Software installation on customer site
- D. Perpetual license

정답: A,B

설명:

A public cloud is a type of cloud computing in which a third-party service provider makes computing resources available to users over the public Internet. Some characteristics of public cloud are:

* Multi-tenant server: Public cloud uses shared infrastructure, where multiple users or organizations can access the same resources, such as compute, storage, or applications. The data and applications of each user are isolated and secured from others. This allows for efficient utilization of resources and scalability.

* Lower total cost of ownership: Public cloud reduces the upfront and operational costs of IT, as users do not need to purchase, install, or maintain hardware or software. Users only pay for the resources they use, and can benefit from the economies of scale and continuous innovation of the cloud service provider.

질문 # 21

What activities are applied to the entire system and cannot be changed after confirmation in SAP Central Business Configuration?
Note: There are 2 correct answers to this question

- A. Configuration activities
- B. Fiscal year variant
- C. Scoping
- D. Group currency

정답: B,D

설명:

Fiscal year variant and group currency are activities that are applied to the entire system and cannot be changed after confirmation in SAP Central Business Configuration. These activities are part of the system provisioning step, which is the first step in the implementation process. Once the system provisioning is completed and confirmed, the system is locked for these activities and any changes would require a new system provisioning. Scoping and configuration activities, on the other hand, are not applied to the entire system and can be changed later on in the project experience step, which is the second step in the implementation process. Scoping and configuration activities allow the user to adapt the preconfiguration content to their company's needs and extend the configuration for areas not equipped with preconfiguration content. 질문 # 22

What can you do with the SAP for Me mobile app? Note: There are 2 correct answers to this question.

- A. Get full transparency into your SAP product portfolio
- B. Download learning content from SAP Learning Hub
- C. Access the SAP ONE Support Launchpad
- D. Interact with SAP easily

정답: A,D

설명:

The SAP for Me mobile app allows you to easily interact with SAP anywhere and anytime. You can review and reply to SAP support cases, start a chat with an expert, monitor your SAP cloud service status, receive notifications about important events, and more. The app also provides you with full transparency into your SAP product portfolio, including your licenses, systems, users, orders, contracts, and invoices. You can view the details of each product and service, as well as access relevant resources and tools. 질문 # 23

You want to restrict end user activities for an application.
Where would you look up the business catalog(s) that grant access to the app?

- A. In the Configure Your Solution app
- B. In the Define Your Scope app
- C. In the SAP Fiori Apps Reference Library
- D. In the App Finder app

정답: C

설명:

The SAP Fiori Apps Reference Library is a comprehensive online library of all available SAP Fiori apps. It provides information about the app features, technical data, configuration, and implementation. You can use the SAP Fiori Apps Reference Library to look up the business catalog(s) that grant access to an app by following these steps:

- * Go to the SAP Fiori Apps Reference Library website and log in with your SAP credentials.
- * In the search bar, enter the name or ID of the app you want to restrict access to, and click the search icon.
- * In the search results, click on the app tile to open the app details page.
