Besides, in the process of ing, you professional ability will also be improved. We offer you free update for 365 days if you buying 350-701 Exam Dumps from us. And the latest version will be sent to your email automatically.

Cisco 350-701 is a certification exam that aims to validate the skills and knowledge of professionals in implementing and operating Cisco Security Core Technologies. 350-701 exam covers various topics related to network security, such as network infrastructure security, identity management, secure access, VPN, endpoint protection, and secure network management. Implementing and Operating Cisco Security Core Technologies certification exam targets network engineers, network administrators, security analysts,

and other IT professionals who are responsible for managing and securing their organization's networks.

Understanding functional and technical aspects of Implementing and Operating Cisco Security Core Technologies (SCOR 350-701) Content Security

The following will be discussed in **CISCO 350-701 Exam Dumps**:

- Describe web proxy identity and authentication including transparent user identification
- Compare the components, capabilities, and benefits of local and cloud-based email and web solutions (ESA, CES, WSA)
- Configure and verify web security controls on Cisco Umbrella (identities, URL content settings, destination lists, and reporting)
- Implement traffic redirection and capture methods

Cisco Implementing and Operating Cisco Security Core Technologies Sample Questions (Q208-Q213):

NEW QUESTION # 208

An engineer is deploying Cisco Advanced Malware Protection (AMP) for Endpoints and wants to create a policy that prevents users from executing file named abc424952615.exe without quarantining that file. What type of Outbreak Control list must the SHA.-256 hash value for the file be added to in order to accomplish this?

- A. Isolation
- B. Simple Custom Detection
- C. Advanced Custom Detection
- **D. Blocked Application**

Answer: D

NEW QUESTION # 209

What is the function of the crypto is a kmp key cisc406397954 address 0.0.0.0 0.0.0.0 command when establishing an IPsec VPN tunnel?

- **A. It configures the pre-shared authentication key**
- B. It configures the local address for the VPN server.
- C. It prevents all IP addresses from connecting to the VPN server.
- D. It defines what data is going to be encrypted via the VPN

Answer: A

NEW QUESTION # 210

How does Cisco Umbrella archive logs to an enterprise owned storage?

- A. by sending logs via syslog to an on-premises or cloud-based syslog server
- **B. by being configured to send logs to a self-managed AWS S3 bucket**
- C. by the system administrator downloading the logs from the Cisco Umbrella web portal
- D. by using the Application Programming Interface to fetch the logs

Answer: B

Explanation:

Explanation The Cisco Umbrella Multi-Org console has the ability to upload, store, and archive traffic activity logs from your organizations' Umbrella dashboards to the cloud through Amazon S3. CSV formatted Umbrella logs are compressed (gzip) and uploaded every ten minutes so that there's a minimum of delay between traffic from the organization's Umbrella dashboard being logged and then being available to download from an S3 bucket. By having your organizations' logs uploaded to an S3 bucket, you can then download logs automatically to keep in perpetuity in backup storage.
