NEW QUESTION # 302

You are modifying a model-driven app. You set up a customer table in Microsoft Power Platform to retrieve user data. You set up a form with the following columns for users to enter their data. The form includes the following columns:

The form must do the following:

* The Country/region column must automatically populate with US when English is chosen as a language. If the user selects Other for this column, the column must remain blank so that user can enter a value.

* The Passport expiration date column must appear only if the user selects Yes in the Passport ownership column.

You need to configure the app with the least amount of effort.

What should you configure? To answer, drag the appropriate solution component to the correct requirements.

Each solution component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:
