Adobe Journey Optimizer Business Practitioner Professional Sample Questions (Q26-Q31):

NEW QUESTION # 26

A data steward is responsible for ensuring that sensitive customer address data (street, city, state, zip) ingested into a new schema complies with company policy. The policy states this data cannot be used for profiling or personalization without specific consent. What is the most appropriate action for the steward to take in the schema editor to support this data governance policy?

- A. Remove the fields from the schema and store them in a separate system.
- **B. Apply a Data Usage Label (e.g., C5 - No Profiling) to the relevant fields in the schema.**
- C. Encrypt the fields in the schema.
- D. Set the entire schema to be read-only.

Answer: B

NEW QUESTION # 27

A junior marketing associate needs to create a promotional email. A core requirement is that the email must strictly follow the company's brand guidelines, which are embedded in a standard layout including a specific header, footer, and brand colors. What is the best starting point for the associate to create this new email and ensure brand consistency?

- A. Import an HTML file containing the required layout.
- B. Create a new email from scratch and manually apply the brand styles.
- **C. Use a pre-existing Content Template that has been designed with the standard brand layout.**
- D. Create a new Campaign and add an email action.

Answer: C

NEW QUESTION # 28

An email developer is building a highly personalized email that must display a list of recommended products for a customer. The product data (name, image URL, price) is available as a 'listString' (an array of objects) on the customer's profile. When the developer tries to drag the product name field from the personalization picker into the email, it is disabled. Why is this happening and what must be done to render the list?

- A. The field is disabled because the email template does not support list rendering.
- **B. The field is disabled because 'listString' fields can only be used in the advanced expression editor and require a "for each" loop to iterate through the items.**
- C. The field is disabled because the developer does not have the correct permissions to use list-type fields.
- D. The field is disabled because lists cannot be used for personalization. The data must be flattened into separate attributes first.

Answer: B

NEW QUESTION # 29

A channel manager for email is defining how a specific promotional offer should appear when delivered in an email message. What information is configured within the email "representation" of an offer?

- A. The collection that the offer belongs to.
- B. The eligibility rules for who can see the offer.
- **C. The specific content, such as the image URL, click-through URL, and text, that will be rendered in the email.**
- D. The priority score of the offer compared to other offers.

Answer: C

NEW QUESTION # 30

A data analyst is troubleshooting a journey where profiles are successfully entering from a "SignUp" event, but no emails are being sent. The journey log shows that every profile flows directly to the "timeout or error" path of the Email activity. The email surface is valid, and the test profiles have email addresses.

Upon inspecting the "SignUp" event payload being sent to the platform, what is a likely cause of this error?

- **A. The event payload includes personalization attributes (e.g., `firstName`) that are empty or null.**
- B. The event's primary identity is an ECID, but no email address is included anywhere in the event payload.
- C. The event is being sent via batch ingestion instead of streaming.
- D. The event payload is missing the `testProfile` flag.

Answer: A
