

100% Pass 2026 Nutanix Pass-Sure Download NCP-CN Free Dumps

DOWNLOAD the newest ITdumpsfree NCP-CN PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1nnDlvtVIA0brpqdL8WmYWrGfWOVpSdWN>

As you know, we are now facing very great competitive pressure. We need to have more strength to get what we want, and NCP-CN exam dumps may give you these things. After you use our study materials, you can get NCP-CN certification, which will better show your ability, among many competitors, you will be very prominent. Using NCP-CN Exam Prep is an important step for you to improve your soft power. I hope that you can spend a little time understanding what our study materials have to attract customers compared to other products in the industry.

Nutanix NCP-CN Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Manage Building an NKP Cluster: This section evaluates the skills of Kubernetes administrators and platform engineers in customizing and deploying NKP clusters. Candidates must show proficiency in tailoring cluster configurations to meet specific requirements and deploying Kommander, the management platform, while applying the appropriate licenses to enable cluster features and management capabilities.
Topic 2	<ul style="list-style-type: none"> • Conduct NKP Fleet Management: This section tests the abilities of platform administrators and cloud operations engineers in managing multiple clusters as a fleet. It focuses on configuring workspaces to organize clusters, deploying workload clusters within these workspaces, and attaching or detaching clusters as needed. Additionally, candidates must be able to configure projects for workload segmentation and manage platform applications that support the overall NKP environment.
Topic 3	<ul style="list-style-type: none"> • Perform Day 2 Operations: This part assesses the expertise of site reliability engineers and cluster operators in ongoing cluster management tasks after deployment. It includes configuring authentication and authorization mechanisms, setting up logging systems, and implementing cluster backup and recovery procedures. Candidates also need to demonstrate skills in monitoring cluster performance and health, configuring autoscaling to handle workload changes, and performing lifecycle management functions such as upgrades and maintenance.
Topic 4	<ul style="list-style-type: none"> • Prepare the Environment for an NKP Deployment: This section of the exam measures the skills of infrastructure engineers and cloud administrators and covers the initial setup tasks needed for NKP deployment. Candidates must demonstrate the ability to seed a private container registry, create a bootstrap Kubernetes cluster, and determine license tiers suitable for clusters. They also need to prepare a bastion host for secure access, build machine images or prepare nodes for deployment, and gather all necessary information to build a cluster on the target cloud or on-premises provider.

Frequent NCP-CN Updates - NCP-CN Pdf Dumps

Our NCP-CN exam torrent is famous for instant download, and we will send the downloading link and password to you within ten minutes after purchasing. You can start your learning immediately, and if you don't receive NCP-CN exam torrent, just contact us, we will solve this problem for you. What's more, with the skilled professionals to compile the NCP-CN Exam Dumps, quality and accuracy can be guaranteed. Therefore, you can use the NCP-CN exam dumps of us with ease. We have online and offline chat service stuff, if any questions bother you, just consult us.

Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q104-Q109):

NEW QUESTION # 104

Which procedure should a Platform Engineer follow for setting up user authentication into an NKP cluster?

- A. Disable native NKP authentication, enable Traefik, and create a connector to the user base's identity provider.
- B. Create a MetalLB connector to the user base's identity provider.
- **C. Create a Dex connector to the user base's identity provider.**
- D. Enable Gatekeeper and create a connector to the user base's identity provider.

Answer: C

Explanation:

The NKPA course covers user authentication for NKP clusters as part of Day 2 operations, emphasizing integration with external identity providers (IdPs) to manage user access securely. NKP uses Dex, an OpenID Connect (OIDC) identity provider, to facilitate authentication by acting as a connector between the Kubernetes cluster and external IdPs, such as LDAP, SAML, or OAuth-based systems.

The course explains that to set up user authentication, a Platform Engineer must configure a Dex connector to the user base's identity provider. Dex integrates with the Kubernetes API server to enable OIDC-based authentication, allowing users to log in using their IdP credentials. The Nutanix Cloud Native (NCP-CN) 6.10 Study Guide states: "NKP supports user authentication through Dex, which provides OIDC integration with external identity providers, enabling single sign-on (SSO) for cluster access." The process involves deploying Dex as a platform application, configuring the IdP connector (e.g., specifying client IDs, secrets, and endpoints), and updating the Kubernetes API server to use OIDC authentication.

Incorrect Options:

* A. Enable Gatekeeper and create a connector to the user base's identity provider: Gatekeeper is a Kubernetes policy engine used for enforcing admission control policies, not for authentication. The NKPA course does not associate Gatekeeper with user authentication.

* B. Disable native NKP authentication, enable Traefik, and create a connector to the user base's identity provider: Traefik is an ingress controller for managing external traffic, not authentication.

Disabling native authentication is unnecessary, as NKP supports OIDC alongside native methods. The NKPA course does not mention Traefik in the context of authentication.

* C. Create a MetalLB connector to the user base's identity provider: MetalLB is a load balancer for bare-metal Kubernetes clusters, not an authentication component. This option is irrelevant, as per the NKPA course.

```

The Platform Engineer needs to expand an NKP Pro demo cluster due to workload capacity constraints. The demo cluster has 150 vCPUs available to it from a licensing standpoint. Each worker node has 8 vCPUs and each control plane node has 4 vCPUs. Which two options are valid for expanding the demo cluster and remaining compliant with licensing? (Choose two.)

- A. Expand the original worker nodepool by up to 8 nodes.
- B. Create a new worker nodepool consisting of 10 nodes with 8 vCPUs per node.
- C. Add 6 additional control planes.
- D. Expand the original worker nodepool by up to 4 nodes and create a new worker nodepool consisting of 6 nodes with 4 vCPUs/node.

Answer: A,D

NEW QUESTION # 106

A company has enabled auto-scaling within an NKP cluster. What is the behavior for auto-scaling?

- A. CPU is hot-added or hot-removed from a node.
- B. Nodes will be CAPI-created or CAPI-deleted as needed by the cluster.
- C. Memory is hot-added or hot-removed from a node.
- D. The Power-On Status/Mode of a node is changed to meet load conditions.

Answer: B

NEW QUESTION # 107

The bastion host is currently set up with Rocky Linux and the engineer will need to configure it to meet the requirements for the air-gapped cluster.

Which first step should the engineer take to configure the bastion host?

- A. Install the pre-requisites yum-utils, bzip2, and wget.
- B. Configure the bastion VM with a public IP address.
- C. Set up a connection on the bastion host so that it can pull images from Docker Hub.
- D. Create a bootstrap cluster.

Answer: A

NEW QUESTION # 108

A Platform Engineer is looking to backup and restore persistent volumes and other cluster resources. Which two NKP licenses include backup and restore functionality? (Choose two.)

- A. NKP Pro
- B. NKP Starter
- C. NKP Essential
- D. NKP Ultimate

Answer: A,D

NEW QUESTION # 109

.....

Unfortunately, many candidates do not pass the NCP-CN exam because they rely on outdated Nutanix NCP-CN exam preparation material. Failure leads to anxiety and money loss. You can avoid this situation with ITdumpsfree that provides you with the most reliable and actual Nutanix NCP-CN with their real answers for NCP-CN exam preparation.
