Our NSE5_FSM-6.3 qualification test help improve your technical skills and more importantly, helping you build up confidence to fight for a bright future in tough working environment. Our professional experts devote plenty of time and energy to developing the NSE5_FSM-6.3 study tool. You can trust us and let us be your honest cooperator in your future development. Here are several advantages about our NSE5_FSM-6.3 Exam for your reference. We sincere suggest you to spare some time to have a glance over the following items on our web for our NSE5_FSM-6.3 exam questions.

Fortinet NSE5_FSM-6.3 certification is ideal for IT professionals who want to demonstrate their expertise in Fortinet FortiSIEM technology and gain recognition in the industry. It is also a valuable credential for IT professionals who want to advance their careers in network and security management.

Fortinet NSE5_FSM-6.3 certification exam is a vendor-neutral exam that is recognized globally. NSE5_FSM-6.3 exam is designed to test the candidate's knowledge and skills in using Fortinet's FortiSIEM 6.3 platform, which is a leading security information and event management solution. Successful candidates will gain recognition for their skills and knowledge in using Fortinet's security solutions, which can enhance their career prospects and increase their earning potential.

Fortinet NSE5_FSM-6.3 Exam is an important certification for IT professionals who work with FortiSIEM and want to demonstrate their expertise and knowledge in network security. By passing NSE5_FSM-6.3 exam, they can gain a competitive advantage in the job market and advance their careers in the IT industry.

NSE5_FSM-6.3 questions and answers

It is a truth well-known to all around the world that no pains and no gains. There is another proverb that the more you plough the more you gain. When you pass the NSE5_FSM-6.3 exam which is well recognized wherever you are in any field, then acquire the NSE5_FSM-6.3 certificate, the door of your new career will be open for you and your future is bright and hopeful. Our NSE5_FSM-6.3 guide torrent will be your best assistant to help you gain your NSE5_FSM-6.3 certificate.

Fortinet NSE 5 - FortiSIEM 6.3 Sample Questions (Q66-Q71):

NEW QUESTION # 66
The FortiSIEM administrator is examining events for two devices to investigate an issue However, the administrator is not getting any results from their search.
Based on the selected fillers shown in the exhibit, why is the search returning no results?

- A. The wrong boolean operator is selected in the Next column
- B. An invalid IP subnet is typed in the Value column

- C. The wrong option is selected in the Operator column
- D. Parenthesis are missing

Answer: A

NEW QUESTION # 67
Which FortiSIEM components are capable of performing device discovery?

- A. Worker
- B. FortiSIEM Linux agent
- C. FortiSIEM Windows agent
- D. Collector

Answer: A

Explanation:
* Device Discovery in FortiSIEM: Device discovery is the process by which FortiSIEM identifies and adds devices to its management scope.
* Role of Collectors: Collectors are responsible for gathering data from network devices, including discovering new devices in the network.
Functionality: Collectors use protocols such as SNMP, WMI, and others to discover devices and gather their details.
* Capability: While agents (Windows and Linux) primarily gather data from their host systems, the collectors actively discover devices across the network.
* Reference: FortiSIEM 6.3 User Guide, Device Discovery section, which details the role of collectors in discovering network devices.

NEW QUESTION # 68
A customer is experiencing slow performance while executing long, adhoc analytic searches Which FortiSIEM component can make the searches run faster?

- A. Storage worker
- B. Query worker
- C. Correlation worker
- D. Event worker

Answer: B

Explanation:
Component Roles in FortiSIEM: Different components in FortiSIEM have specific roles and responsibilities, which contribute to the overall performance and functionality of the system.
Query Worker: The query worker component is specifically designed to handle and optimize search queries within FortiSIEM.
* Function: It processes search requests and executes analytic searches efficiently, handling large volumes of data to provide quick results.
* Optimization: By improving the efficiency of query execution, the query worker can significantly speed up long, ad hoc analytic searches, addressing performance issues.
Performance Impact: Utilizing the query worker ensures that searches are handled by a component optimized for such tasks, reducing the load on other components and improving overall system performance.
References: FortiSIEM 6.3 User Guide, System Components section, which describes the roles of different workers, including the query worker, and their impact on system performance.

NEW QUESTION # 69
Refer to the exhibit.

A FortiSIEM is continuously receiving syslog events from a FortiGate firewall The FortiSlfcM administrator is trying to search the raw event logs for the last two hours that contain the keyword tcp . However, the administrator is getting no results from the search. Based on the selected filters shown in the exhibit, why are there no search results?

- A. The keyword is case sensitive Instead of typing TCP in the Value field. the administrator should type tcp.
- B. The administrator selected - in the Operator column That a the wrong operator.
- C. The administrator selected AND in the Next drop-down list. This is the wrong boolean operator.
- D. In the Time section, the administrator selected the Relative Last option, and in the drop-down lists, selected 2 and Hours as the lime period The time period should be 24 hours.

Answer: A

Explanation:
Case Sensitivity in Searches: In FortiSIEM, search queries, including those for raw event logs, are case sensitive. This means that keywords must be entered exactly as they appear in the logs.
Keyword Mismatch: The exhibit shows the keyword "TCP" in the Value field. If the actual events use "tcp" (lowercase), the search will return no results because of the case mismatch.
Correct Keyword: To match the keyword correctly, the administrator should enter "tcp" in the Value field.
References: FortiSIEM 6.3 User Guide, Search and Filtering section, which discusses the importance of case sensitivity in search queries.

NEW QUESTION # 70
Consider the storage of anomaly baseline date that is calculated for different parameters. Which database is used for storing this data?

- A. CMDB
- B. Profile DB
- C. Event DB
- D. SVNDB

Answer: A

Explanation:
Anomaly Baseline Data: Anomaly baseline data refers to the statistical profiles and baselines calculated for various parameters to detect deviations indicative of potential security incidents.
Profile DB: The Profile DB is specifically designed to store such baseline data in FortiSIEM.
* Purpose: It maintains statistical profiles for different monitored parameters to facilitate anomaly detection.
* Usage: This data is used by FortiSIEM to compare real-time metrics against the established baselines to identify anomalies.
References: FortiSIEM 6.3 User Guide, Database Architecture section, which describes the different databases used in FortiSIEM and their purposes, including the Profile DB for storing anomaly baseline data.

NEW QUESTION # 71

......

When we are in some kind of learning web site, often feel dazzling, because web page design is not reasonable, put too much information all rush, it will appear desultorily. Absorbing the lessons of the NSE5_FSM-6.3 study materials, will be all kinds of qualification examination classify layout, at the same time on the front page of the NSE5_FSM-6.3 study materials have clear test module classification, so clear page design greatly convenient for the users, can let users in a very short period of time to find what they want to study, and then targeted to study. Saving the precious time users already so, also makes the NSE5_FSM-6.3 Study Materials look more rich, powerful strengthened the practicability of the products, to meet the needs of more users, to make the NSE5_FSM-6.3 study materials stand out in many similar products.
