It's universally acknowledged that in order to obtain a good job in the society, we must need to improve the ability of the job. If you want a job, some may have the requirements for the certificate, the a certificate for the 2V0-32.24 exam is inevitable. Our product provide you the practice materials for the 2V0-32.24exam , the materials are revised by the experienced experts of the industry with high-quality. Besides the price of our product is also reasonable, no mattter the studets or the employees can afford it. Free update and pass guarantee and money back guarantee is available of our product. Choose us we will help you pass your next Certification 2V0-32.24 Exam fast.

## VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.</li> </ul>

## Actual VMware 2V0-32.24 Exam Questions And Correct Solution

For candidates who need to practice the 2V0-32.24 exam dumps for the exam, know the new changes of the exam center is quite necessary, it will provide you the references for the exam. We will provide you free update for 365 days after purchasing the product of us, so you will know the latest version of 2V0-32.24 Exam Dumps. What's more, our system will send the latest version to your email box automatically. You just need to receive the version.

### VMware Cloud Operations 8.x Professional V2 Sample Questions (Q13-Q18):

#### NEW QUESTION # 13

A vRealize Log Insight (vRLI) administrator wants to search archived logs for certain events. What are the required steps to provide the administrator the ability to search the log messages?

- A. SSH into the vRLI appliance, mount the archiving NFS share then import the archive using CLI.**
- B. SSH into the NFS server, mount the archiving partition, then import the archive using CLI to vRLI appliance.
- C. SSH into the vRLI appliance, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.
- D. SSH into the NFS server, install vRLI tools, then import the archive using CLI from NFS share to the vRLI appliance.

#### Answer: A

Explanation:

To allow the administrator to search archived logs in vRealize Log Insight (vRLI), the logs stored in an NFS share must be imported into the vRLI appliance. The correct steps involve SSHing into the vRLI appliance, mounting the NFS share where the archived logs are stored, and then using the CLI to import the archived logs into the vRLI appliance for searching. This is the standard method for handling archived log files in vRLI.

#### NEW QUESTION # 14

Which VMware product provides continuous performance optimization, efficient capacity and cost management, intelligent remediation, and integrated compliance as a subscription based service?

- A. vRealize Log Insight
- B. vRealize Log Insight Cloud
- C. vRealize Operations
- D. vRealize Operations Cloud**

#### Answer: D

Explanation:

vRealize Operations Cloud is a subscription-based service that delivers continuous performance optimization, efficient capacity and cost management, intelligent remediation, and integrated compliance. It leverages the cloud to provide these features, which allow organizations to manage and optimize their environments more effectively and with flexibility.

#### NEW QUESTION # 15

An administrator is tasked with installing vRealize Log Insight using vRealize Suite Lifecycle Manager (vRSLCM). They have been

instructed to use DHCP for the deployment.  
Which statement about this scenario is correct?

- A. A default gateway does not need to be supplied for the deployment
- B. Static IP addresses are required for any product deployment in vRSLCM
- C. **DHCP addresses are only supported for vRealize Log Insight worker nodes**
- D. DHCP addresses are only supported for the cluster virtual IP address (VIP)

**Answer: C**

Explanation:

In vRealize Suite Lifecycle Manager (vRSLCM), DHCP addresses can be used for vRealize Log Insight worker nodes. However, static IP addresses are typically recommended for the management and master nodes to ensure stability and consistency in the deployment. DHCP addresses are not recommended for the primary or management nodes because they might change after a reboot, causing issues with connectivity and accessibility.

#### **NEW QUESTION # 16**

An administrator has been tasked with deploying vRealize Operations using vRealize Suite Lifecycle Manager (vRSLCM).  
Which two options are steps in the process? (Choose two.)

- A. Download the PAK file for the vSAN Management Pack.
- B. **Verify that you obtained the vRealize Suite or vRealize Operations license with a quantity that fulfills the requirements of this design.**
- C. **Verify that the vRealize Operations product binary is available in vRealize Suite Lifecycle Manager.**
- D. Verify that the destination vSphere Cluster Datastore resides on an all flash vSAN.
- E. Verify that the vRealize Suite or vRealize Operations license is Advanced Edition or Enterprise Edition.

**Answer: B,C**

Explanation:

Verify that the vRealize Operations product binary is available in vRealize Suite Lifecycle Manager: Before deploying vRealize Operations through vRSLCM, you must ensure that the vRealize Operations binary is available in vRSLCM for deployment.

Verify that you obtained the vRealize Suite or vRealize Operations license with a quantity that fulfills the requirements of this design: It's essential to ensure that the appropriate license for vRealize Operations is available and meets the required capacity for the deployment.

#### **NEW QUESTION # 17**

An administrator has been tasked to configure vRealize Operations to securely forward vRealize Operations logs to a centralized syslog server. The logs should be forwarded in their original format.  
What would be the resulting Protocol and Port configuration?

- A. Port: 9000 - Protocol: cfapi
- B. **Port: 6514 - Protocol: syslog**
- C. Port: 514 - Protocol: syslog
- D. Port: 9543 - Protocol: cfapi

**Answer: B**

Explanation:

To securely forward vRealize Operations logs to a centralized syslog server, the syslog protocol over port 6514 is used. Port 6514 is the default port for secure syslog (Syslog over TLS), ensuring that logs are transmitted in their original format while being encrypted for security.

#### **NEW QUESTION # 18**

.....

PrepPDF is committed to offering the real and valid VMware Cloud Operations 8.x Professional V2 2V0-32.24 exam questions in three easy-to-use and compatible formats. These formats are VMware PDF Questions files, desktop practice test software, and

web-based 2V0-32.24 practice test software. All these three 2V0-32.24 exam dumps formats contain the real and updated 2V0-32.24 Practice Test questions and are verified by qualified 2V0-32.24 exam experts. So you do not need to get worried about it choose the right PrepPDF 2V0-32.24 exam questions formats and start this journey without wasting further time.
