P-BPTA-2408 Cheap Dumps & P-BPTA-2408 Reasonable Exam Price

You can enjoy free update for 365 days if you buying P-BPTA-2408 study guide of us, that is to say, in the following year you can obtain the latest information for the exam timely. And the update version for P-BPTA-2408 exam dumps will be sent to your email automatically. You just need to receive and exchange your learning ways in accordance with the new changes. In addition, P-BPTA-2408 Study Materials are compiled by experienced experts, and they are quite familiar with the exam center, therefore the quality can be guaranteed. We also have online and offline chat service, if you have any questions about P-BPTA-2408 exam dumps, you can consult us.

SAP Certified Professional - Solution Architect - SAP BTP Sample Questions (Q17-Q22):

NEW QUESTION # 17

You are a solution architect on a brownfield project where an SAP ECC 6.0 system is being migrated to SAP S/4HANA Cloud public edition. Two mission-critical legacy applications must be migrated to the new system. There is some debate on the project team as to the appropriate programming model to use:

* Application 1 was originally written using classic ABAP. The underlying SAP tables that the application originally relied on have been removed and the data now exists in a new simplified table in SAP S/4HANA Cloud public edition (to which table extensions are not permitted). Additional data needed for the application resides in SAP Ariba. Remote interfaces exist for both to select the data.

* Application 2 was originally written using Java and relied upon tables from the SAP ECC 6.0 system as well as SAP PLM 4.0. The PLM system will be retired; however, the SAP S/4HANA Cloud public edition instance has all the data needed for the application. No remote interfaces exist to select the data.

Which of the following approaches should the customer use? Note: There are 2 correct answers to this question.

- A. Rewrite application 2 using the Cloud Application Programming Model
- B. Rewrite application 2 using the ABAP RESTful Application Programming Model
- C. Rewrite application 1 using the Cloud Application Programming Model
- D. Rewrite application 1 using the ABAP RESTful Application Programming Model

Answer: A,D

NEW QUESTION # 18

A project lead has the following requirements for a new design:

* When there is a deficit in the quantity of materials to be delivered by the supplier in a purchase order, an event will be triggered in S/4HANA Cloud by a periodic background job.

* The business event will be sent to SAP Event Mesh. A custom process will then be started in an on-premise system.

* The IT staff will have to set up several different scenarios using different on-premise systems.

The project lead wants an SAP BTP solution that provides guided workflows with assignable tasks to members of the IT staff to help them set up the scenarios.

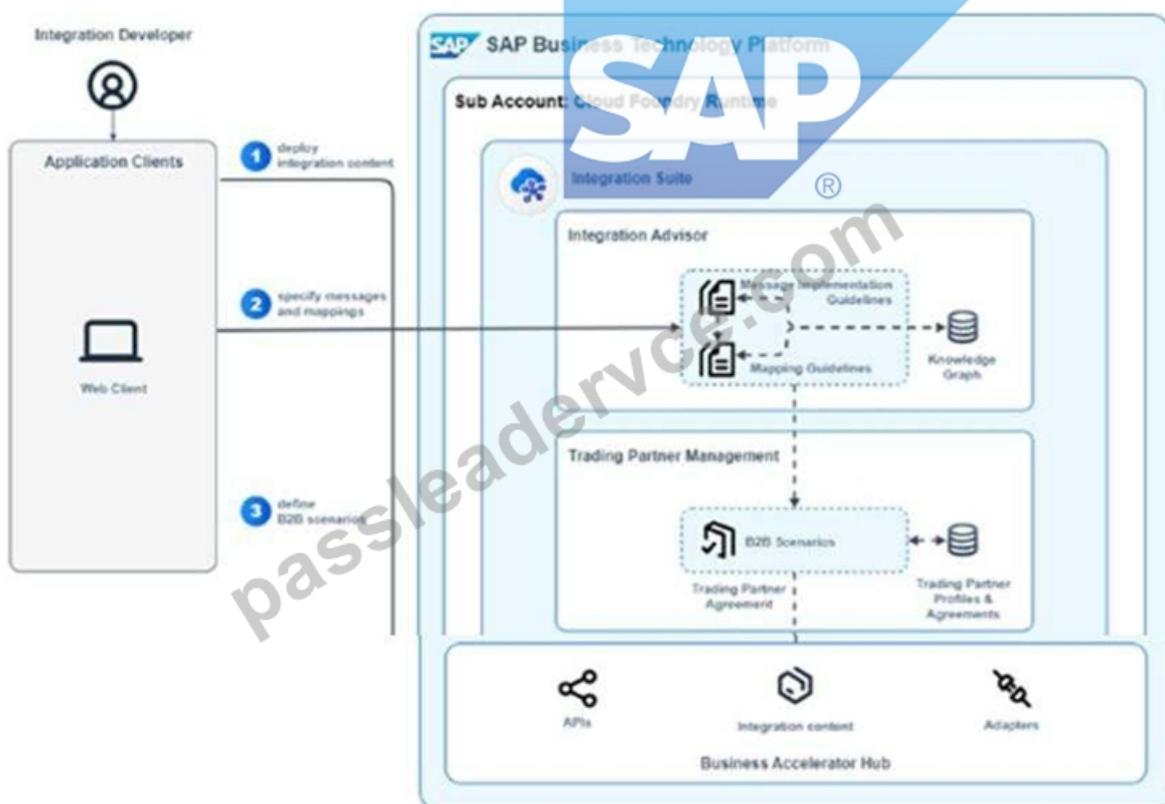

As the solution architect, which of the following do you recommend?

- A. Intelligent Situation Automation
- B. SAP Build Process Automation
- C. SAP Automation Pilot
- D. Cloud Integration Automation Service

Answer: D

NEW QUESTION # 19

In which phase of the SAP Integration Solution Advisory Methodology is a technology mapping of customer use cases and SAP BTP integration services produced (for an example of a solution architecture blueprint, see the attached diagram)?

- A. Define integration best practices
- B. Design your hybrid integration platform
- C. Enable a practice of empowerment
- D. Assess your integration strategy

Answer: B

NEW QUESTION # 20

A company is struggling with organizing and managing the immense amount of data generated by the business. They have been told about several possible solutions that SAP BTP offers; however, they are confused about which solutions they should use.

A large amount of their historical and current data is in comma-separated values (CSV) and JavaScript Object Notation (JSON) documents.

These documents need to be stored for reporting purposes. The client prefers to use the latest SAP solutions.

Which SAP BTP solution would you recommend?

- A. SAP Datasphere
- **B. SAP HANA Cloud, data lake**
- C. SAP HANA Cloud
- D. SAP Data Warehouse Cloud

Answer: B

NEW QUESTION # 21

Which of the following are process steps in serving up a model in SAP AI Core? Note: There are 2 correct answers to this question.

- **A. Create an AI Launchpad instance**
- **B. Make an inference**
- C. Prepare the data
- D. Register the Input Dataset

Answer: A,B

NEW QUESTION # 22

.....
