## CV0-004 Valid Test Questions - CV0-004 Free Download

On the other hand, those who do not score well can again try reading all the CompTIA Cloud+ (CV0-004) Certification Exam (CV0-004) dumps questions and then give the CV0-004 exam. This will help them polish their skills and clear all their doubts. Also, you must note down your CompTIA Cloud+ (CV0-004) Certification Exam (CV0-004) practice test score every time you try the CompTIA Exam Questions. It will help you keep a record of your study and how well you are doing in them.

## CompTIA Cloud+ (CV0-004) Certification Exam Sample Questions (Q433-Q438):

### NEW QUESTION # 433

An administrator is creating a cron job that shuts down the virtual machines at night to save on costs. Which of the following is the best way to achieve this task?

- A. 

```
for X in list_vms() do
  if [ $(describe_vm_status $X) == running ]
    shutdown_vm $X
  else
    echo "vm $X is stopped"
done
```

```
for X in list_vms() do
  if [ describe_vm_status(X) == running ]
    shutdown_vm(X)
  else
    echo "vm $X stopped"
```

- B. done

```
for X in list_vms() do
  if [ describe_vm_status(X) == running ]
    shutdown_vm(X)
  else
    echo "vm $X stopped"
done
```

- C.

```
for X in list_vms() do
  if [ describe_vm_status(X) == running ]
    shutdown_vm(X)
  else
    echo "vm $X is stopped"
done
```

- D.

**Answer: B**

Explanation:

Option C is the correct script for shutting down virtual machines that are currently running. It iterates through a list of VMs, checks if the status of each VM is 'running', and if so, proceeds to shut down the VM. The script then prints a message stating that the VM has been stopped. This approach ensures that only VMs that are actively running are targeted for shutdown, optimizing resource utilization and cost savings.

#### NEW QUESTION # 434

A cloud solutions architect needs to deploy a simple, public-facing website with the following requirements:

- Cost-effective
- Highly available
- Self-healing
- Secure

Which of the following will be the most appropriate template to use?

```
virtual_machine:
  name: website
  size: small, medium, large
  firewall:
    - website-firewall
      management-access
  lifeCycle: spot

firewall:
  name: website-firewall
  rules:
    - 1:
      direction: inbound
      port: 443
      source: 0.0.0.0/0

firewall:
  name: management-access
  rules:
    - 1:
      direction: inbound
      port: 22
      source: 192.168.0.0/24
```

• A.

```
virtual_machine:
  name: website
  size: small, medium
  firewall:
    - website-firewall
      management-access
  autoscaling: enabled
    min: 2
    max: 2
  lifeCycle: spot

firewall:
  name: website-firewall
  rules:
    - 1:
      direction: inbound
      port: 443
      source: 0.0.0.0/0

firewall:
  name: management-access
  rules:
    - 1:
      direction: inbound
      port: 22
      source: 192.168.0.0/24
```

• B.

```
virtual_machine:
  name: website
  size: small
  firewall:
    - website-firewall
  autoscaling: enabled
    min: 2
    max: 2

firewall:
  name: website-firewall
  rules:
    - 1:
      direction: inbound
      source: 0.0.0.0/0
      port: 22-443
```

• C.

```

virtual_machine:
  name: website
  size: small
  firewall:
    - website-firewall
      management-access
  replicas: 2
  lifeCycle: on-Demand
  autoscaling: disabled

firewall:
  name: website-firewall
  rules:
    - 1:
      direction: inbound
      port: 443
      source: 0.0.0.0/0

firewall:
  name: management-access
  rules:
    - 1:
      direction: inbound
      port: 22
      source: 192.168.0.0/24

```

- D.

**Answer: D**

Explanation:

Cost-effective: The template specifies spot instances, which are cheaper than on-demand instances.

Highly available: Autoscaling is enabled with a minimum of 2 instances, ensuring redundancy.

Self-healing: Autoscaling ensures instances are replaced if they fail.

Secure: The firewall rules allow HTTPS (port 443) from any source for public access while restricting SSH (port 22) to only 192.168.0.0/24, preventing unrestricted administrative access.

This template aligns best with the requirements of a public-facing, secure, self-healing, and cost-effective website deployment.

#### NEW QUESTION # 435

Which of the following network types allows the addition of new features through the use of network function virtualization?

- A. Local area network
- B. Storage area network
- C. Wide area network
- D. Software-defined network

**Answer: D**

Explanation:

A Software-Defined Network (SDN) is a network approach that allows the addition of new features through software configurations rather than hardware updates, making use of network function virtualization (NFV). NFV decouples network functions from proprietary hardware appliances, so they can run in software, which aligns with the flexibility offered by SDN.

### NEW QUESTION # 436

A certain user subset is seeing the error message 500 Internal Server Error on a newly launched distributed web application. The developers are unable to troubleshoot this issue because of limited visibility into the application's operations. Which of the following should the developers do first to effectively troubleshoot the issue?

- A. Generate graphs and dashboards that show the rate of error.
- B. Implement incident response management.
- C. Modify the application code to display proper log files.
- **D. Provision log aggregation software.**

**Answer: D**

Explanation:

Log aggregation software centralizes logs from multiple components of a distributed application into a single system, providing visibility into application behavior and errors across services and servers. This allows developers to efficiently collect and analyze logs needed to identify the cause of the 500 Internal Server Error.

### NEW QUESTION # 437

Which of the following best describes a system that keeps all different versions of a software separate from each other while giving access to all of the versions?

- A. Code documentation
- B. Code control
- **C. Code versioning**
- D. Code repository

**Answer: C**

Explanation:

A system that keeps all different versions of software separate from each other while providing access to all of the versions is best described by Code versioning. Code versioning systems, such as Git, allow developers to keep track of changes, revert to previous states, and manage multiple versions of codebases.

### NEW QUESTION # 438

.....

Nowadays the competition in the job market is fiercer than any time in the past. If you want to find a good job, you must own good competences and skillful major knowledge. So owning the CV0-004 certification is necessary for you because we will provide the best study materials to you. Our CV0-004 Exam Torrent is of high quality and efficient, and it can help you pass the test successfully.

**CV0-004 Valid Test Questions:** <https://www.dumpsfree.com/CV0-004-valid-exam.html>

And if you buy all of the three versions, the price is quite preferential and you can enjoy all of the CV0-004 study experiences. Of course, passing the exam and get the CV0-004 certificate is just a piece of cake, DumpsFree CV0-004 Valid Test Questions practice questions are available online so anyone can take help from it, The answers of DumpsFree's exercises is 100% correct and they can help you pass CompTIA certification CV0-004 exam successfully.

Vijay Srinivas Agneeswaran, Unfortunately, most CV0-004 people spend more time planning their annual vacations than working on their financial futures, And if you buy all of the three versions, the price is quite preferential and you can enjoy all of the CV0-004 study experiences.

## High Pass-rate Exams CV0-004 Torrent & The Best Torrent to help you pass CompTIA CV0-004

Of course, passing the exam and get the CV0-004 certificate is just a piece of cake, DumpsFree practice questions are available online so anyone can take help from it.

The answers of DumpsFree's exercises is 100% correct and they can help you pass CompTIA certification CV0-004 exam successfully, Only in a few minutes, your ordered CV0-004 exam questions are sent to you, and whenever you have any question on the CV0-004 practice guide, you can contact with our service at 24/7.
