## Exam Confluent CCDAK Study Guide & Test CCDAK Prep

If you choose our CCDAK study torrent, you can make the most of your free time, without using up all your time preparing for your exam. We believe that using our CCDAK exam prep will help customers make good use of their fragmentation time to study and improve their efficiency of learning. It will be easier for you to pass your exam and get your certification in a short time. If you decide to use our CCDAK Test Torrent, we are assured that we recognize the importance of protecting your privacy and safeguarding the confidentiality of the information you provide to us. We hope you will use our CCDAK exam prep with a happy mood, and you don't need to worry about your information will be leaked out.

## Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q52-Q57):

### NEW QUESTION # 52

Which actions will trigger partition rebalance for a consumer group? (select three)

- A. Add a new consumer to consumer group
- B. A consumer in a consumer group shuts down
- C. Increase partitions of a topic
- D. Remove a broker from the cluster

**Answer: A,B,C**

Explanation:

Add a broker to the cluster

Explanation:

Rebalance occurs when a new consumer is added, removed or consumer dies or partitions increased.

### NEW QUESTION # 53

Which two producer exceptions are examples of the class RetriableException? (Select two.)

- A. LeaderNotAvailableException
- B. RecordTooLargeException
- C. NotEnoughReplicasException
- D. AuthorizationException

**Answer: A,C**

Explanation:

RetriableException is a subclass of KafkaException, indicating transient issues that might succeed if retried.

Examples include:

LeaderNotAvailableException: Happens when metadata is not yet propagated or leader election is in progress.

NotEnoughReplicasException: Happens when the number of in-sync replicas is insufficient. This can be transient if replicas come back online.

From the Apache Kafka Java Client documentation:

"These exceptions (like LeaderNotAvailableException, NotEnoughReplicasException) are transient and the client will retry them automatically depending on retry configuration." RecordTooLargeException and AuthorizationException are non-retriable as they indicate client-side or permission errors.

Reference: Apache Kafka Java Client API > org.apache.kafka.common.errors

### NEW QUESTION # 54

A customer has many consumer applications that process messages from a Kafka topic. Each consumer application can only process 50 MB/s. Your customer wants to achieve a target throughput of 1 GB/s. What is the minimum number of partitions will you suggest to the customer for that particular topic?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

Explanation:

each consumer can process only 50 MB/s, so we need at least 20 consumers consuming one partition so that  $50 * 20 = 1000$  MB target is achieved.

### NEW QUESTION # 55

A bank uses a Kafka cluster for credit card payments. What should be the value of the property `unclean.leader.election.enable`?

- A. TRUE
- B. FALSE

**Answer: B**

Explanation:

Setting `unclean.leader.election.enable` to true means we allow out-of-sync replicas to become leaders, we will lose messages when this occurs, effectively losing credit card payments and making our customers very angry.

#### NEW QUESTION # 56

Which of the following is NOT a supported serialization format in KSQLDB?

- A. Avro
- B. Delimited
- C. BSON
- D. Protobuf

**Answer: C**

#### NEW QUESTION # 57

.....

To help you learn with the newest content for the CCDAK preparation materials, our experts check the updates status every day, and their diligent works as well as professional attitude bring high quality for our CCDAK practice materials. You may doubtful if you are newbie for our CCDAK training engine, free demos are provided for your reference. The free demo of CCDAK exam questions contains a few of the real practice questions, and you will love it as long as you download and check it.
