1Z0-1081-24 Vce Free & Reliable 1Z0-1081-24 Braindumps

Most of the materials on the market do not have a free trial function. Even some of the physical books are sealed up and cannot be read before purchase. As a result, many students have bought materials that are not suitable for them and have wasted a lot of money. Especially for those students who are headaches when reading a book, 1Z0-1081-24 study tool is their gospel. Because doing exercises will make it easier for one person to concentrate, and at the same time, in the process of conducting a mock examination to test yourself, seeing the improvement of yourself will makes you feel very fulfilled and have a stronger interest in learning. 1Z0-1081-24 Guide Torrent makes your learning process not boring at all.

Oracle Financial Consolidation and Close 2024 Implementation Professional Sample Questions (Q95-Q100):

NEW QUESTION # 95

You want to display a single value in a financial dashboard from a single cell in a form. Which type of chart would you select?

- A. Gauge
- **B. Tile**
- C. Line
- D. Bar

Answer: B

Explanation:

To display a single value in a financial dashboard from a single cell in a form, you would select a Tile chart. A Tile chart is a type of chart that shows a single value with an optional label and icon. You can use a Tile chart to highlight a key performance indicator or a summary metric from your data. The other types of charts, such as Bar, Gauge, and Line, are not suitable for displaying a single value from a single cell. They are used to display multiple values or comparisons across different dimensions or categories. Oracle Financial Consolidation and Close 2023 Implementation Essentials Study Guide, page 53; [Oracle Financial Consolidation and Close Cloud Service Administrator's Guide], page 4-10.

NEW QUESTION # 96

Which customization can you perform on the Navigation Flows page?

- A. Add or Hide cards.
- B. Set a default POV by user group.
- C. Select a color scheme.
- D. Select a data form to display at start up based on user group.

Answer: A

Explanation:

The customization that you can perform on the Navigation Flows page is to add or hide cards. Cards are the icons that link to different features or functions of the application. You can customize which cards are visible or hidden for each user group by using the Navigation Flows page. The other options are not customizations that you can perform on the Navigation Flows page. You cannot set a default POV by user group, select a color scheme, or select a data form to display at start up based on user group from this page. Oracle Financial Consolidation and Close 2023 Implementation Essentials Exam Study Guide, page 19; [Oracle Financial Consolidation and Close Cloud Service User's Guide], page 2-5.

NEW QUESTION # 97

In Data Integration, for what purpose do you use Workbench?

- A. To configure data load options
- B. To define dimension mapping
- C. To edit the data load file format
- D. To review mapping of source to target members

Answer: D

Explanation:

The purpose of using Workbench in Data Integration is to review mapping of source to target members. Workbench allows you to view and edit how source data members are mapped to target application members. You can also validate, test, and run integrations from Workbench. The other options are not purposes of using Workbench in Data Integration. To edit the data load file format, you use File Format Editor. To define dimension mapping, you use Dimension Mapping Editor. To configure data load options, you use Application Details dialog box. Oracle Financial Consolidation and Close 2023 Implementation Essentials Exam Study Guide, page 41; Oracle Financial Consolidation and Close Cloud Service User's Guide, page 9-4.

NEW QUESTION # 98

On what days during the month does Oracle apply patch updates to fix bugs, apply code optimizations, and add new features?

- A. the second and fourth Friday of each month; second Friday for TEST and fourth Friday for PROD
- B. the third Friday of each month to apply to both TEST and PROD simultaneously
- C. the first and third Friday of each month; first Friday for TEST and third Friday for PROD
- D. the first and third Monday of each month; first Monday for TEST and third Monday for PROD

Answer: C

NEW QUESTION # 99

Which four items are included in the Currency dimension? (Choose four.)

- A. Reporting Currencies
- B. Entity Currency
- C. Parent Currency
- D. Input Currencies
- E. Journal Input Currencies
- F. Default Currency

Answer: A,B,D,E

Explanation:

The four items that are included in the Currency dimension are:

Input Currencies: These are the currencies that are used to enter data into the application. They are based on the default currency of each entity.

Journal Input Currencies: These are the currencies that are used to enter journals into the application. They are based on the default currency of each entity or reporting currency.

Entity Currency: This is a dynamic member that represents the default currency of each entity. It is used to display data in the entity's currency without translation.

Reporting Currencies: These are the currencies that are used to translate data into different currencies for reporting purposes. They are defined by the administrator and can be based on any currency.

The other options are not included in the Currency dimension. Parent Currency is a member of the Consolidation dimension, not the Currency dimension. It is used to display data in the parent entity's currency after translation. Default Currency is a property of the Entity dimension, not a member of the Currency dimension. It is used to specify the input currency for each entity.
