

AAPC-CPC試験内容から American Academy of Professional Coders: Certified Professional Coderまで,最も簡単な合格方法

American Academy of Professional Coders
AAPC

AAPC Certified Professional Coder (CPC®)
AAPC CPC Medical Coding + Medical Billing Training
AAPC CPC Certification Exam

Course Title and Number: AAPC CPC Certification Exams
Exam Title: Midterm, Finals, Certification and Assessment
Exam Date: Exam 2025- 2026
Instructor: [Insert Instructor's Name]
Student Name: [Insert Student's Name]
Student ID: [Insert Student ID]

Examination
Time: - ____ Hours: ____ Minutes

Instructions:

1. Read each question carefully and Answer All Questions
2. Use the provided answer sheet to mark your responses.
3. Please Ensure all you answer each question below and click Submit when you have completed the Exam.
4. This test has a time limit, The test will save and submit automatically when the time expires
5. This is Exam which will assess your knowledge on the course Learning Resources.

Good Luck.....!

Professional Coder

当社Medical Testsでは、AAPC-CPC試験問題についてより幅広い選択肢をお客様に提供することを常に重視しています。今、私たちは約束を実現しました。私たちのウェブサイトは、ほぼすべての種類の公式テストと一般的な証明書をカバーするAAPC-CPC学習教材を提供します。したがって、JpshikenのAAPC-CPCトレーニングガイドのウェブサイトに必要なものを簡単に見つけることができます。ウェブサイトのすべてのAAPC-CPC学習資料は専門的かつ正確であり、学習のプレッシャーを大幅に軽減し、夢のAmerican Academy of Professional Coders: Certified Professional CoderのAAPC-CPC認定を取得するのに役立ちます。

Medical Tests American Academy of Professional Coders: Certified Professional Coder 認定 AAPC-CPC 試験問題 (Q100-Q105):

質問 # 100

Code the following physician's note:

A 14-year-old established patient is seen with mother to evaluate five 2 cm superficial lacerations to the left wrist. Patient admits to suicidal thoughts.

Lacerations were treated with Steri-Strips. Patient and mother counseled on suicide prevention and told to follow up with psych.

- A. 12004, S61.512A, T14.91XA
- B. 99214, S61.512A, T14.91XA
- C. 12004, S61.512A, R45.851
- **D. 99213, S61.512A, R45.8S1**

正解: D

解説:

When the injury is treated with Steri-Strips or bandages, it should be reported with an E/M code and not a procedure code. Within the medical decision making, the number and complexity of problems addressed is low, the amount of data reviewed or analyzed is straightforward, and the risk of complications and/or morbidity or mortality of patient management from the injuries is low. Therefore, the E/M is a 99213 because the medical decision-making is low. A suicide attempt would not be coded because the documentation is not specific as to whether the lacerations were an attempt at suicide.

質問 # 101

A 59-year-old male patient presents for a routine colonoscopy. During the procedure, a polyp is discovered. What is the proper ICD- 10-CM coding for this encounter?

- A. Z12.11
- **B. Z12.11, K63.5**
- C. K63.5, Z12.11
- D. K63.5

正解: B

解説:

Because the reason for the visit was a routine colonoscopy, the "encounter for screening for malignant neoplasm of colon" (Z12.11) would be the first-listed code. ICD-IO-CM guidelines advise that if there is a finding during a screening, the finding may be used as an additional code. In this example, the colon polyp (K63.5) is a physical finding and would be listed as the secondary diagnosis.

質問 # 102

A patient is having difficulties breast-feeding and receives a lactation consultation by a certified lactation consultant under the general supervision of a mid-level practitioner. How should this service be reported?

- **A. 0**
- B. 1
- C. 2
- D. 3

正解: A

解説:

CPT 98960 is used by nonphysician healthcare professionals who provide education to patients that enable them to self-manage established conditions. CPT 99078 could also be used to report lactation services, but these are specifically rendered in a group setting. CPT 98966 is used for healthcare management via the telephone, and CPT 99211 is not considered the most appropriate descriptor for services rendered in this instance.

質問 # 103

A provider documents that he spent 20 minutes with a patient. Based on this, an E/M can be chosen solely based on time.

- A. True
- B. False

正解: A

解説:

The statement is true. According to AMA time documented is considered the minimum time the physician or other qualified health care professional spent on face-to-face and non-face-to-face services. This includes time spent reviewing the patient's medical record, consulting other healthcare professionals, or ordering prescriptions, tests, and/or other services.

質問 # 104

A patient is admitted for chemical burns caused by a leaky car battery. The physician diagnoses the patient with second- and third-degree burns on the right hand and second- degree burns on the left hand. The physician follows up with the patient 3 days later and performs a detailed examination. His findings include an infection that has developed on the right hand as a result of the burn. The patient is started on antibiotics. Code this encounter.

- A. 99231, L08.9, T23.701S, T23.662A T54.2XIS
- B. 99232, L08.9, T23.201S, T23.361S, T23.301S, T23.202A T54.2X4A
- C. 99232, T23.701A, T23.662A T54.2XIA, L08.9
- D. 99231, T23.201A, T23.361A T23.301A, T23.202A T54.2X4A L08.9

正解: C

解説:

The physician's level of medical decision-making was moderate in complexity due to the acute, complicated injury/ illness, the minimal amount and complexity of data reviewed, and the issuance of a prescription drug. Because the patient has already been receiving care in a hospital setting for 3 days, the visit would be considered subsequent hospital care, making the level of inpatient service a 99232 and eliminating answers B and D. A burn caused by a chemical would be considered a corrosion because it is not caused by heat, electricity, and/or radiation, thus eliminating the remaining choice of A. Additionally, when multiple burns on the same anatomic location and laterality are being treated, identify and code only the highest degree of burn recorded in the diagnosis. In this case, only the third-degree burns on the right hand and the second-degree burns on the left hand would be reported. Although the skin infection is a sequela, the seventh character in the corrosion code would remain "A" and sequenced first to indicate that the patient is still receiving active treatment for the reason of admission.

質問 # 105
