First-hand Google Cloud-Digital-Leader Reliable Exam Answers - Google Cloud Digital Leader Reliable Test Braindumps

If you study with our Cloud-Digital-Leader exam questions, you will have a 99% chance to pass the exam. Of course, you don't have to buy any other study materials. Our Cloud-Digital-Leader exam questions can satisfy all your learning needs. During this time, you must really be learning. If you just put Cloud-Digital-Leader Real Exam in front of them and didn't look at them, then we have no way. Our Cloud-Digital-Leader exam questions want to work with you to help you achieve your dreams.

Google Cloud Digital Leader Sample Questions (Q357-Q362):

NEW QUESTION # 357
Which of the following is / are true for Preemptible Instances.

- A. Google Cloud Free Tier credits for compute engine do not apply to preemptible in-stances.
- B. Preemptible Instances have no Service Level Agreement (Compute Engine SLA).
- C. Preemptible instances can't live migrate to a regular VM instance, or be set to au-tomatically restart when there is a maintenance event.
- D. All of the above.

Answer: D

Explanation:
Explanation
Preemptible instances function like normal instances but have the following limitations:
-> Compute Engine might stop preemptible instances at any time due to system events. The probability that Compute Engine will stop a preemptible instance for a system event is generally low, but might vary from day to day and from zone to zone depending on current conditions.
-> Compute Engine always stops preemptible instances after they run for 24 hours. Certain actions reset this
24-hour counter.
-> Preemptible instances are finite Compute Engine resources, so they might not always be available.
-> Preemptible instances can't live migrate to a regular VM instance, or be set to automatically restart when there is a maintenance event.
-> Due to the above limitations, preemptible instances are not covered by any Service Level Agreement (and, for clarity, are excluded from the Compute Engine SLA).
-> The Google Cloud Free Tier credits for Compute Engine do not apply to preemptible instances.

NEW QUESTION # 358
An organization wants to control what types of network traffic are allowed to enter and leave its network and access its applications. Which security measure should the organization use?

- A. Privileged access
- B. 2-Step Verification
- C. Firewall rules
- D. Encryption keys

Answer: C

Explanation:
The correct answer is C. Firewall rules. Here's why:
* Context of the Question: The organization wants to control what types of network traffic are allowed to enter and leave its network and access its applications.
* Google Cloud Product Relevance:
* Firewall rules are security settings used to control the flow of traffic to and from instances or resources in a network. They define which traffic is allowed or denied based on parameters such as IP address, protocol, and port.
* Firewall rules are essential for protecting applications from unauthorized access and for ensuring that only trusted traffic is permitted.
* Why Not Other Options:
* A. Encryption keys: Encryption keys are used for data protection and encryption but do not control network traffic.
* B. 2-Step Verification: This enhances account security by requiring a second form of authentication but does not control network traffic.
* D. Privileged access: This refers to managing access rights for administrative tasks and is not related to controlling network traffic.
Google Cloud Digital Leader References:
* Refer to Google Cloud VPC firewall documentation to understand how firewall rules are used to control network traffic.

NEW QUESTION # 359

You are working with the head of the IT team and planning the move of computing systems. The questionnaire indicates that they have a reporting application that runs almost 24 hours every day of the week.

When there is extra load, it queues up the processing and executes tasks when there is less demand. Which of these compute options would you recommend for them?

- A. Use a serverless option - Cloud Functions
- B. Use a serverless option - App Engine Standard for Flex
- C. Serverless option - Cloud Run
- D. Use a server-based option - Compute Engine.

Answer: A

Explanation:
- Because Compute Engine VMs are the preferred compute option as they are long-running.

NEW QUESTION # 360

What is the purpose of an application programming interface (API)?

- A. To provide a set of instructions that allow computer programs to communicate with each other
- B. To connect networks from different cloud providers
- C. To provide cloud plugins for integrated development environments
- D. To manage multiple containerized workloads

Answer: A

NEW QUESTION # 361

Your organization needs to categorize objects in a large group of static images using machine learning. Which Google Cloud product or service should your organization use?

- A. Cloud Vision API
- B. AutoML Tables
- C. BigQuery ML
- D. AutoML Video Intelligence

Answer: B

NEW QUESTION # 362

......

The Cloud-Digital-Leader authorized training exams provided by Prep4pass helps you to clear about your strengths and weaknesses before you take the exam. You can get exam scores after each practice test with Cloud-Digital-Leader test engine, which allow you to self-check your knowledge of the key topical concepts. The frequently updated of Cloud-Digital-Leader Latest Torrent can ensure you get the newest and latest study material. You will build confidence to make your actual test a little bit easier with Cloud-Digital-Leader practice vce.

Cloud-Digital-Leader Reliable Test Braindumps: https://www.prep4pass.com/Cloud-Digital-Leader_exam-braindumps.html

Good Cloud-Digital-Leader Prep4pass exam preparation is the key to acing exam and we know that, It makes the Google Cloud-Digital-Leader online practice exam a perfect tool for those who do not want to go through complicated software installation on their device, Google Cloud-Digital-Leader Reliable Exam Answers You can download them from your Member's Area, Below are features of our Google Cloud-Digital-Leader dumps VCE file.

This includes several related techniques: Cloud-Digital-Leader Soundproofing reduces sound leakage through walls, windows, and doors in your work environment, Once this selection is made, you Cloud-Digital-Leader Reliable Exam Answers can review the song listing and save the Playlist by tapping on the Save button.
