enthusiasm, which can be a valuable asset in your whole life. It must be your best tool to pass your exam and achieve your target.

SAP Certified Associate - Integration Developer Sample Questions (Q52-Q57):

NEW QUESTION # 52

You have set up a basic authentication policy, but the API proxy returns an HTTP status of 401. What could be a reason?

- A. In the AssignMessage policy, the Assign To tag has the type="response"
- B. In the AssignMessage policy, the Assign To tag has the type="postFlow"
- C. In the AssignMessage policy, the Assign To tag has the type="preFlow"
- D. In the AssignMessage policy, the Assign To tag has the type="request"

Answer: D

Explanation:

In API Management (SAP Integration Suite), when implementing Basic Authentication policies:

If the AssignMessage policy does not correctly assign credentials to the request message, authentication will fail.

This results in HTTP 401 Unauthorized.

Other tags like preFlow, postFlow, response are policy flow phases, but the credentials must be applied to the request for proper authentication.

Thus, the root cause is when the Assign To = request is missing/misconfigured.

NEW QUESTION # 53

Which combination of event-driven architecture (EDA) patterns is supported by SAP Event Mesh?

- A. Request/Reply and Message Queuing event-driven architecture patterns
- B. Publish/Subscribe and Event Sourcing event-driven architecture patterns
- C. Choreography and Orchestration event-driven architecture patterns
- D. Publish/Subscribe and Point-to-Point event-driven architecture patterns

Answer: D

Explanation:

SAP Event Mesh supports:

Publish/Subscribe # A single event published by a producer can be consumed by multiple subscribers.

Point-to-Point (Queue-based) # Messages sent directly from producer to consumer via queues.

Other options are incorrect:

Event Sourcing is not part of SAP Event Mesh capabilities.

Request/Reply is synchronous, not the main EDA pattern.

Choreography/Orchestration are higher-level process design concepts, not the eventing patterns.

NEW QUESTION # 54

In the SAP Integration Suite, where can you change the virtual host name?

- A. Settings APIs
- B. Configure ? APIs
- C. Design APIs
- D. Discover - APIs

Answer: A

Explanation:

In the SAP Integration Suite, you can change the virtual host name in the Settings APIs. The Settings APIs allow you to configure various aspects of your API provider, such as the virtual host name, the base path, the authentication method, and the CORS settings. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 55

You are creating an API proxy. Which of the following is a valid path prefix?

- A. /sap/opo/odata
- B. /soap/opu/odata
- C. /sap/odu/odata
- D. /sap/opu/odata

Answer: D

Explanation:

In SAP systems (e.g., S/4HANA, SAP Gateway), OData services follow a standard URL path:

/sap/opu/odata # The valid and official prefix for OData services.

Example: /sap/opu/odata/sap/API_BUSINESS_PARTNER

Other options:

/sap/opo/odata and /sap/odu/odata # Typographical variations, not valid.

/soap/opu/odata # Incorrect, since OData is not SOAP-based.

Thus, the valid prefix is /sap/opu/odata.

NEW QUESTION # 56

What are some aspects of "holistic integration" of the SAP Integration Suite? Note: 3 answers are correct.

- A. Process Integration
- B. Cloud Integration
- C. Data Integration
- D. Event Integration
- E. Domain Integration

Answer: A,C,D

Explanation:

Some aspects of "holistic integration" of the SAP Integration Suite are process integration, event integration, and data integration.

Process integration refers to the orchestration and automation of business processes across different systems and applications. Event integration refers to the communication and coordination of events between different sources and consumers. Data integration refers to the extraction, transformation, and loading of data between different sources and targets. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 57

.....

The companies do not want to lose them and they offer a good package to convince the candidate to become a part of their organization. So, to fit in the game, you must go for the Dumpkiller SAP C-CPI-2506 Practice Exam that will show you where you stand and how hard you need to work to get the SAP Certified Associate - Integration Developer (C-CPI-2506) certification exam.
