

The Best UiPath UiPath-TAEPv1 Exam Questions

What's more, part of that Itcerttest UiPath-TAEPv1 dumps now are free: https://drive.google.com/open?id=1aDSnt0fCo8Kt-Gg6_BecCXH9cQTXanei

Every one, please pay attention to Itcerttest platform. UiPath UiPath-TAEPv1 exam training is completely designed for the UiPath-TAEPv1 examination with the high-quality and best accuracy. The questions of the UiPath-TAEPv1 almost mirror the actual test and cover all most the main contents. Besides, the cost of the UiPath-TAEPv1 Exam PDF is reasonable and affordable. With the help of the UiPath UiPath-TAEPv1 study material, your study will be efficiency. 100% pass is a little case for you.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 2	<ul style="list-style-type: none">• UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.
Topic 3	<ul style="list-style-type: none">• UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing• exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:
Topic 4	<ul style="list-style-type: none">• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 5	<ul style="list-style-type: none">• UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.

Topic 6	<ul style="list-style-type: none"> • Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 7	<ul style="list-style-type: none"> • UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.

100% Pass 2026 UiPath UiPath-TAEPv1 –Efficient Reliable Exam Tips

Itcerttest can provide professional and high quality products. It is the industry leader in providing IT certification information. To selecte Itcerttest is to choose success. Itcerttest's UiPath UiPath-TAEPv1 Exam Training materials is your magic weapon to success. With it, you will pass the exam and achieve excellent results, towards your ideal place.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q11-Q16):

NEW QUESTION # 11

What is the BDD test case template used for in UiPath?

- A. To structure the test around If-Then-Else statements.
- **B. To structure the test around Given-When-Then containers.**
- C. To handle Global Exception Handlers in behaviour driven development approach.
- D. To create test cases based on If-Then-Else containers.

Answer: B

Explanation:

The BDD (Behavior-Driven Development) test case template in UiPath is used to structure tests using the Given-When-Then format, which clearly separates setup, action, and expected outcome. This makes test cases more readable and aligned with business scenarios.

NEW QUESTION # 12

What factors influence the calculation of coverage in the Descriptor Coverage feature in UiPath?

- A. The total number of selectors available in the Object Repository.
- B. The total number of selectors in a test case execution.
- **C. The number of times a selector has been successfully executed.**
- D. The number of selectors that have been manually verified.

Answer: C

Explanation:

In Descriptor Coverage, the calculation is influenced by the number of times a selector has been successfully executed during test case runs. It helps evaluate how thoroughly the UI elements defined in the Object Repository are being tested.

NEW QUESTION # 13

What does the UiPath CLI allow to do?

- A. Build Studio projects that are not compatible with Orchestrator.
- B. Run on both Windows and Linux devices without any restrictions.
- C. Execute certain pre-defined tasks for RPA package management and testing.
- D. Run only Windows - Legacy projects.

Answer: C

Explanation:

The UiPath CLI allows users to execute predefined tasks related to RPA package management and testing, such as packing projects, running tests, deploying packages, and converting test results-making it a key tool for CI/CD integration.

NEW QUESTION # 14

Given a Verify activity that has the ContinueOnFailure property set to False, what will the outcome be if the verification performed fails?

- A. Test case execution is stopped and an exception is thrown.
- B. Test case execution is stopped and the applications used are closed gracefully.
- C. Test case execution continues and any subsequent verification is skipped.
- D. Test case execution is stopped and any subsequent verification is failed.

Answer: A

Explanation:

If a Verify activity has ContinueOnFailure set to False and the verification fails, the test case execution stops immediately and an exception is thrown. This ensures that failures are treated as critical and halt further execution.

NEW QUESTION # 15

How can the results of a test case be overridden in Test Manager?

- A. Navigate to Test Results, open a test result, open a test case log and then select Tasks > Override result.
- B. Navigate to Test Results, click on Test Manager settings and then select Override test results feature.
- C. Select the test case from the Results tab and click on Override result.
- D. Go to Test Results, select a test case and then use the Override tool in the toolbar.

Answer: A

Explanation:

To override the results of a test case in Test Manager, navigate to Test Results, open a specific test result, then open the related test case log and select Tasks > Override result. This allows manual correction of results if needed for traceability or reporting accuracy.

NEW QUESTION # 16

.....

All those versions are paramount versions. PDF version of UiPath-TAEPv1 practice materials - it is legible to read and remember, and support customers' printing request, so you can have a print and practice in papers. Software version of UiPath-TAEPv1 practice materials - It support simulation test system, and times of setup has no restriction. Remember this version support Windows system users only. App online version of UiPath-TAEPv1 practice materials - Be suitable to all kinds of equipment or digital devices. Be supportive to offline exercise on the condition that you practice it without mobile data.
