

1Z0-1042-25 Exam Quick Prep | 1Z0-1042-25 Valid Real Test

BONUS!!! Download part of Prep4cram 1Z0-1042-25 dumps for free: <https://drive.google.com/open?id=1fKzdcNBXUjiYK-iZq1LDbFgoithLltg>

If you are preparing for the exam in order to get the related 1Z0-1042-25 certification, here comes a piece of good news for you. The 1Z0-1042-25 guide torrent is compiled by our company now has been praised as the secret weapon for candidates who want to pass the 1Z0-1042-25 Exam as well as getting the related certification, so you are so lucky to click into this website where you can get your secret weapon. Our reputation for compiling the best 1Z0-1042-25 training materials has created a sound base for our future business.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.
Topic 2	<ul style="list-style-type: none">• Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 3	<ul style="list-style-type: none">• Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.

Topic 4	<ul style="list-style-type: none"> Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
Topic 5	<ul style="list-style-type: none"> Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.

1Z0-1042-25 Valid Real Test | 1Z0-1042-25 Reliable Exam Blueprint

The Prep4cram 1Z0-1042-25 PDF file contains the real, valid, and updated Oracle 1Z0-1042-25 exam practice questions. These are the real 1Z0-1042-25 exam questions that surely will appear in the upcoming exam and by preparing with them you can easily pass the final exam. The 1Z0-1042-25 PDF Questions file is easy to use and install. You can use the 1Z0-1042-25 PDF practice questions on your laptop, desktop, tabs, or even on your smartphone and start 1Z0-1042-25 exam preparation right now.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q16-Q21):

NEW QUESTION # 16

You have an Oracle Integration (OIC) synchronous integration flow that updates external systems with several invocations. However, several of your OIC integration clients are reporting that they are experiencing timeouts waiting for the response confirmation from this processing. Which is a legitimate strategy to mitigate this issue?

- A. Change the design implementation strategy to an asynchronous flow that provides a separate notification to clients when the processing is complete.
- B. Increase the blocking timeout within the OIC integration settings to allow for extended time.
- C. Change the implementation logic to invoke multiple fine-grained external API calls within a single loop.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

Timeouts:

B:True-async flow resolves client wait issues.

NEW QUESTION # 17

Oracle Integration Cloud (OIC) provides the file server feature which is an embedded SFTP server that enables organizations to focus on building integrations without the need to host and maintain a separate SFTP server. Which statement is NOT valid concerning the OIC File Server feature?

- A. To write files to the OIC File Server from an internal OIC integration flow, a REST adapter connection resource must be used.
- B. Access to the OIC File Server management REST APIs is limited to users with the ServiceAdministrator role.
- C. The OIC File Server is a feature that is disabled by default in a newly provisioned OIC instance.
- D. Any external SFTP client can access file server if an OIC administrator has configured specific folder access permissions for that client.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

OIC File Server is an embedded SFTP solution:

A:True-admins configure access for external clients.

B:False-internal flows use File Adapter, not REST, to write files.

C:True-ServiceAdministrator role restricts API access.

NEW QUESTION # 18

When leveraging the Oracle Integration (OIC) Connectivity Agent for high availability on-premises environments, which two are valid considerations?

- A. Since the File Adapter is not supported in high-availability environments, you must use an Agent Group that uses only one installed active Agent.
- **B. You cannot have more than two Agent instances per Agent group. Attempting to include a third Agent instance in the same group during installation results in an error.**
- C. You should install the connectivity agents on the same host as the target application, and then specify different Agent group identifiers for each Agent during its installation.
- **D. You must have the OIC ServiceDeployer role or higher permissions to download and install the OIC Connectivity Agent.**
- E. Each host on which the agent is installed must be configured on separate subnets and assigned to the same OIC Agent group.

Answer: B,D

Explanation:

Comprehensive and Detailed Explanation:

HA Agent:

E, B:True-two-agent limit, role requirement.

NEW QUESTION # 19

You are tasked with testing an integration that uses a REST trigger in Oracle Integration Cloud (OIC). You have successfully configured the REST adapter, and now you want to verify that the integration functions correctly. What should you do to test the integration?

- **A. Use the Test button in the integration designer to create a request, validate the response, and review the execution logs.**
- B. Export the integration as a .jar file and run it in a local development environment.
- C. Manually trigger the integration by sending an email to a specified email address with the required REST parameters.
- D. Perform a SQL query on the associated database to ensure that the expected data is present.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

Testing a REST-triggered integration in OIC involves:

Option C:TheTest buttonin the integration designer allows you to simulate a REST request, view the response, and check logs- the standard testing method.

Option A:Email isn't a valid trigger mechanism for REST integrations.

Option B:OIC integrations are exported as IAR files, not .jar, and testing occurs in the cloud, not locally.

NEW QUESTION # 20

Your design of an asynchronous Oracle Integration Cloud (OIC) integration flow includes the requirement for additional processing logic that is conditionally based on the results returned to the integration instance from earlier external service invocations. You decide to leverage the Switch action to facilitate this implementation.

Which is a valid consideration concerning the configuration and capabilities of the Switch action?

- A. Data objects returned from actions within a branch of a switch action are not visible in the main flow of the integration after the switch action.
- B. Nested switch actions are not supported, and you may need to create more complex conditional expressions, if necessary.
- **C. XPath version 2.0 functions can be used to create more complex conditional expressions for a branch.**
- D. The Switch action must include an otherwise branch.

Answer: C

Explanation:

XPath version 2.0 functions can be used within the Switch action to create more complex conditional expressions for defining branches in Oracle Integration Cloud.

NEW QUESTION # 21

.....

The reality is often cruel. What do we take to compete with other people? More useful certifications like 1Z0-1042-25 certificate? In this era of surging talent, why should we stand out among the tens of thousands of graduates and be hired by the company? Only if you pass the exam can you get a better promotion. And if you want to pass it more efficiently, we must be the best partner for you. Because we are professional 1Z0-1042-25 question torrent provider, we are worth trusting; because we make great efforts, we do better. Here are many reasons to choose us.
