APMG-International ISO-IEC-27001-Foundation Dumps Collection, ISO-IEC-27001-Foundation Exam Pass Guide

A second format is a ISO-IEC-27001-Foundation web-based practice exam that can take for self-assessment. However, it differs from desktop-based ISO-IEC-27001-Foundation practice exam software as it can be taken via any browser, including Chrome, Firefox, Safari, and Opera. This APMG-International ISO-IEC-27001-Foundation web-based practice exam does not require any other plugins. You can take this ISO-IEC-27001-Foundation self-assessment test on Windows, iOS, Linux, Mac, and Android. It also includes all of the functionalities of desktop ISO-IEC-27001-Foundation software and will assist you in passing the ISO-IEC-

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q47-Q52):

NEW QUESTION # 47

Identify the missing word(s) in the following sentence.

When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. apply competent resources to
- B. communicate
- C. improve the effectiveness of
- D. evaluate the effectiveness of

Answer: D

Explanation:

Clause 6.1.1 (Planning) states:

"The organization shall plan:

d) actions to address these risks and opportunities; and

e) how to:

* integrate and implement the actions into its ISMS processes; and

* evaluate the effectiveness of these actions."

This confirms the missing words are "evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 48

Which item is required to be considered when defining the scope and boundaries of the information security management system?

- A. The regular activities necessary to maintain and improve the ISMS
- B. The dependencies between activities performed by the organization
- C. The level of quality to which the ISMS must adhere
- D. The lessons learned from the information security experiences of other organizations

Answer: B

Explanation:

Clause 4.3 (Determining the scope of the ISMS) requires consideration of:

"the external and internal issues referred to in 4.1; the requirements referred to in 4.2; and interfaces and dependencies between activities performed by the organization, and those that are performed by other organizations." This confirms that dependencies between activities are a required factor when defining scope. Options B (quality levels), C (lessons learned), and D (regular activities for improvement) are not scope requirements, though they may be relevant in planning or improvement processes.

Thus, the verified answer is A: Dependencies between activities performed by the organization.

NEW QUESTION # 49

When are the information security policies required to be reviewed, according to the Policies for information security control?

- A. According to a schedule defined by the Certification Body
- B. Annually
- C. Every six months
- D. At planned intervals and if significant changes occur

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) specifies:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to

and acknowledged by relevant personnel and relevant interested parties, and reviewed at planned intervals and if significant changes occur." This clearly identifies the review frequency requirement: planned intervals and whenever there are significant changes. Options A and B (six-monthly or annually) are not prescribed by ISO - timing is left to the organization. Option C is also wrong, since Certification Bodies do not dictate policy review schedules. Therefore, the verified correct answer is D.

NEW QUESTION # 50

Which aspect of ISO/IEC 27001 requires that contractors know about the organization's information security policies?

- A. Competence
- **B. Awareness**
- C. Communication
- D. Nonconformity and corrective action

Answer: B

Explanation:

Clause 7.3 (Awareness) requires:

"Persons doing work under the organization's control shall be aware of: (a) the information security policy; (b) their contribution to the effectiveness of the ISMS, including the benefits of improved information security performance; (c) the implications of not conforming with the ISMS requirements." This applies not only to employees but also contractors and external parties under the organization's control.

Competence (B) requires having skills, training, and experience, while Communication (C) covers defining communication processes (Clause 7.4). Nonconformity and corrective action (A) is part of Clause 10 (Improvement).

Therefore, the specific requirement that ensures contractors are made aware of the information security policies is found in Clause 7.3 Awareness. Correct answer: D.

NEW QUESTION # 51

Which of the following statements about the differences between an internal audit and a certification audit is true?

An internal audit is conducted at planned intervals and a certification audit is conducted annually. An internal audit is known as a 1st party audit and a certification audit is known as a 3rd party audit.

- A. Only 1 is true
- **B. Only 2 is true**
- C. Both 1 and 2 are true
- D. Neither 1 or 2 is true

Answer: B

Explanation:

ISO/IEC 27001 Clause 9.2 requires internal audits to be conducted at planned intervals, but it does not specify an annual frequency. Certification audits, under ISO/IEC 17021 rules, typically occur on a 3-year cycle with annual surveillance, not strictly "annually."

This makes statement 1 inaccurate.

Audit types are defined in ISO/IEC 19011:

First-party audits: conducted internally by or on behalf of the organization (internal audits).

Third-party audits: conducted by independent external certification bodies.

Thus, statement 2 is correct. Therefore, the accurate choice is B: Only 2 is true.

NEW QUESTION # 52

.....

Our technician will check the update of ISO-IEC-27001-Foundation exam questions every day, and we can guarantee that you can get a free update service from the date of purchase. Once you have any questions and doubts about the ISO-IEC-27001-Foundation exam questions we will provide you with our customer service before or after the sale, you can contact us if you have question or doubt about our ISO-IEC-27001-Foundation Exam Materials and the professional personnel can help you solve your issue about using ISO-IEC-27001-Foundation study materials.
