주제	소개
주제 1	<ul style="list-style-type: none"> Understand the impact of ESG (Environmental, Social, and Governance) considerations on ethical and sustainable supply chains: This section of the exam measures the skills of Procurement Managers and covers how ESG principles are applied to secure ethical and sustainable supply chains. It looks at the role of environmental, social, and governance factors in procurement decisions, alongside risks and benefits of ESG adoption. Learners also explore issues such as modern slavery, bribery, and human rights, as well as the importance of diversity, inclusion, and stakeholder management. The section highlights how globalization, culture, and labour practices shape supply strategies and examines potential conflicts that may arise when balancing ESG priorities with business demands.

주제 2	<ul style="list-style-type: none"> Understand the importance of compliance with ESG (Environmental, Social, and Governance) factors to achieve ethical and sustainable procurement and supply arrangements: This section of the exam measures skills of Supply Chain Specialists and covers methods to ensure compliance with ESG standards in procurement. It includes the use of supply chain mapping, risk management, stakeholder engagement, and contractual terms to secure sustainable practices. Candidates also learn how to monitor supplier performance, handle non-compliance, and utilize third-party auditors to maintain ethical standards. Relationship management strategies, corrective actions, and escalation processes are emphasized as part of ensuring suppliers meet ESG expectations.
주제 3	<ul style="list-style-type: none"> Understand initiatives and standards related to ESG (Environmental, Social, and Governance) that support ethical and sustainable procurement and supply: This section of the exam measures the skills of Procurement Leaders and covers the global frameworks and standards that shape ethical supply practices. It explores international labour standards set by organizations such as the UN and ILO, and labour codes like the Ethical Trading Initiative and SA800. Candidates also examine external environmental frameworks, industry accreditations, and their role in meeting ESG goals. Finally, this section addresses fair trade principles, organizations such as WFTO and Fairtrade International, and the need to align internal governance with global standards.

질문 # 43

Seinfeld County Council has entered into a contract with a horticultural services provider. The contract contains a Community Benefit Clause. What is another term for this?

- A. Reward for performance
- B. Payment terms
- C. Social value
- D. KPIs

정답: C

설명:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

A Community Benefit Clause is also known as a Social Value Clause. The L5M5 study guide (p.126) explains that these clauses integrate economic, social, or environmental benefits into public sector contracts. For example, requiring the use of eco-friendly equipment or prioritising local employment. The Social Value Act 2012 formalised this requirement in UK public procurement. Procurement professionals must ensure such clauses are meaningful and enforceable to create real community benefits, not just tick-box exercises.

질문 # 44

Demand forecasting collects data on a company's supply capacity for an item, including current and projected supply categorized by industry and product end use. Is this statement TRUE?

- A. No - demand forecasting analyzes a company's demand for an item, including current and projected demand

- B. Yes - it is primarily used by manufacturing companies within the supply chain
- C. Yes - it gathers information about both supply and demand
- D. No - supply forecasting predicts short- and long-term prices and trends

정답: A

설명:

Demand forecasting involves analyzing a company's demand for a specific item or SKU, including current and projected demand categorized by industry and product end use. Therefore, the correct answer is Choice A.

질문 # 45

Which of the following best demonstrates how implementing ISO standards can result in direct cost savings?

- A. Artificial intelligence for predictive customer behavior analysis
- B. Enhancing brand image and reputation in the global market
- C. Cloud-based document management systems for paperless operations
- D. Gaining new customers by showcasing compliance with international standards

정답: C

설명:

Option D- This is the correct answer, as cloud-based document storage systems reduce paper, printing, and storage costs. ISO standards often encourage sustainable practices like digitizing documents, which directly saves on operational costs related to printing and paper use.

Incorrect answer:

Option A- While AI can improve business efficiency and decision-making, it is more focused on optimizing customer engagement and marketing strategies. It does not directly lead to cost savings.

Option B- Improving brand image is a long-term strategic benefit but does not directly reduce costs. It may contribute to business growth but not immediate cost savings.

Option C- ISO certification can attract new customers and boost business credibility, but this is more about increasing revenue rather than reducing costs.

질문 # 46

The World Fair Trade Organization (WFTO) aims to help large global businesses expand into new markets, offering better products and fairer prices for consumers. Is this statement accurate?

- A. No, the WFTO primarily focuses on diminishing the influence of multinational corporations
- B. No, the WFTO focuses on supporting smaller and disadvantaged producers
- C. Yes, the WFTO provides financial aid to international companies
- D. Yes, the WFTO establishes global rules to safeguard consumers

정답: B

설명:

Choice C- This is correct. The WFTO's mission is to support small and disadvantaged producers, ensuring fair wages, ethical trade practices, and market access.

Incorrect answer:

Choice A- This is incorrect. The WFTO does not focus on diminishing multinational corporations but works to empower disadvantaged producers.

Choice B- The WFTO does not establish global regulations but promotes fair trade practices and ethical business standards for producers and consumers, therefore this is wrong.

Choice D- This is incorrect. The WFTO's mission does not involve providing financial aid to businesses; it focuses on promoting fair trade principles.

질문 # 47

EcoSmart Solutions, a company specializing in sustainable construction materials, intends to make a sustainability claim for their product. They are aware of the ISEAL Alliance's guidelines for valid sustainability claims. Which of the following would be considered a valid sustainability claim according to ISEAL Alliance standards?

- A. The product claims to improve sustainability, but the claims are solely based on anecdotal evidence and not on any recognized environmental criteria or certification
- **B. The product is made using 100% recycled materials, with claims verified by third-party certification from a recognized sustainability standard**
- C. The product is marketed as "eco-friendly" based on internal environmental policies without any external certification
- D. The product reduces carbon emissions, but the claim is not supported by any third-party audits or verifications

정답: B

설명:

Choice A- This is the correct answer. According to ISEAL Alliance guidelines, a valid sustainability claim must be supported by third-party certification from a credible and recognized sustainability standard, ensuring the claim is verifiable and transparent.

Incorrect answer:

Choice B- This is not a valid claim under ISEAL guidelines because third-party verification is necessary to substantiate any claims related to carbon emissions.

Choice C- This is not a valid claim under ISEAL guidelines. Claims need to be independently verified, and internal policies alone do not provide credibility to the sustainability claim.

Choice D- This is not a valid claim according to ISEAL standards. Claims should be based on verifiable evidence and supported by recognized sustainability standards.
