Our brand has marched into the international market and many overseas clients purchase our MTCNA study materials online. As the saying goes, Rome is not build in a day. The achievements we get hinge on the constant improvement on the quality of our MTCNA study materials and the belief we hold that we should provide the best service for the clients. The great efforts we devote to the MTCNA Study Materials and the experiences we accumulate for decades are incalculable. All of these lead to our success of MTCNA study materials and high prestige.

The MTCNA exam covers a wide range of topics, including network architecture, routing, wireless networks, firewall and security, and network management. Participants who pass the exam will have demonstrated their ability to configure MikroTik routers, manage network traffic, and troubleshoot network issues. The MTCNA certification is an entry-level certification that is ideal for individuals who are just starting their careers in networking or those who are looking to expand their knowledge and skills in MikroTik RouterOS software. MikroTik Certified Network Associate Exam certification is recognized globally and can lead to better job opportunities and higher salaries in the networking industry.

MikroTik MTCNA Certification is a valuable credential for IT professionals who are interested in networking. MikroTik Certified Network Associate Exam certification validates the candidate's knowledge and skills in the area of network infrastructure and is highly valued by employers in the IT industry. Candidates can prepare for the MTCNA exam by attending MikroTik training courses and using study materials.

Newest MTCNA Prep Guide is Prefect MTCNA Practice Exam Dumps

Like the real exam, Pass4SureQuiz MikroTik MTCNA Exam Dumps not only contain all questions that may appear in the actual exam, also the SOFT version of the dumps comprehensively simulates the real exam. With Pass4SureQuiz real questions and answers, when you take the exam, you can handle it with ease and get high marks.

MikroTik Certified Network Associate Exam Sample Questions (Q148-Q153):

NEW QUESTION # 148

How many different priorities can be selected for queues in MikroTik RouterOS?

- A. 0
- B. 1
- **C. 2**
- D. 3

Answer: C

Explanation:

MikroTik RouterOS allows you to assign one of 8 different priority levels to each queue. These range from 1 (highest) to 8 (lowest). This allows for traffic shaping and prioritization in simple queues and queue trees.

These priority levels are used when multiple queues are competing for bandwidth or processing time. They influence which traffic gets handled first when congestion occurs.

- * A. 16 ##Invalid. Only 8 supported.
- * B. 1 ##Not correct. Only says one value; MikroTik supports multiple.
- * C. 8 ##Correct. There are 8 valid priority values.
- * D. 0 ##Priority 0 is not valid in MikroTik queues.

MTCNA Course Manual - Queues and Priorities:

"MikroTik queues support 8 priority levels (1-8). These affect which traffic is processed first." Rene Meneses Study Guide - QoS Mechanics:

"You can select between 8 priorities. These are configured per queue to define traffic importance." Terry Combs Notes - Simple Queues:

"Only 8 priority values exist. They follow a numerical scale from 1 to 8, not 0 or beyond."

NEW QUESTION # 149

A network ready device is directly connected to a MikroTik RouterBOARD 750 with a correct U.T.P. RJ45 functioning cable. The device is configured with an IPv4 address of 192.168.100.70 using a subnet mask of 255.255.255.252. What will be a valid IPv4 address for the RouterBOARD 750 for a successful connection to the device?

- A. 192.168.100.68/255.255.255.252
- B. 192.168.100.70/255.255.255.252
- **C. 192.168.100.69/255.255.255.252**
- D. 192.168.100.71/255.255.255.252

Answer: C

NEW QUESTION # 150

What is the default TTL (time to live) on a router that an IP packet can experience before it will be discarded?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

NEW QUESTION # 151

Which of the following are TCP/IP protocols used at the Application layer of the OSI model?

IP
TCP
Telnet
FTP
TFTP

- A. 1, 3 and 5
- **B. 3, 4 and 5**
- C. All of the above
- D. 1 and 3

Answer: B

NEW QUESTION # 152

[VLAN Management - VTP and Cisco Switching] Which one of the following is true regarding VLANs?

- A. Two VLANs are configured by default on all Cisco switches.
- **B. VTP is used to send VLAN information to switches in a configured VTP domain.**
- C. You should not have more than 10 switches in the same VTP domain.
- D. VLANs only work if you have a complete Cisco switched internetwork. No off-brand switches are allowed.

Answer: B

Explanation:

VTP (VLAN Trunking Protocol) is a Cisco proprietary protocol used to manage and propagate VLAN information throughout a switch fabric. It helps maintain consistency across switches by distributing VLAN configurations from a VTP server to client switches in the same domain.

Cisco Switching Guide - VTP Concepts:

"VTP advertises VLAN definitions on a LAN to ensure consistency. It reduces misconfigurations by centralizing VLAN management." Rene Meneses MTCNA Study Guide - VLAN and VTP Notes:

"VTP sends VLAN updates across switches in the same VTP domain. Switches must be compatible and share the domain name."

Breakdown:

- * A: Only VLAN 1 exists by default
- * B: VLANs are not Cisco-exclusive
- * C: There is no limit of 10 switches in a VTP domain
- * D#Correct

NEW QUESTION # 153

.....

At Pass4SureQuiz, we strive hard to offer a comprehensive MikroTik Certified Network Associate Exam (MTCNA) exam questions preparation material bundle pack. The product available at Pass4SureQuiz includes MikroTik Certified Network Associate Exam (MTCNA) real dumps pdf and mock tests (desktop and web-based). Practice exams give an experience of taking the MikroTik Certified Network Associate Exam (MTCNA) actual exam.
