

2026 Reliable Valid CCCS-203b Test Questions | 100% Free Exam CCCS-203b Score

FEDERAL PUBLIC SERVICE COMMISSION

Aga Khan Road Sector F-5/1

E-mail: fpse@fpse.gov.pk

Website: www.fpse.gov.pk

No.F.2/1/2022-CE

Islamabad the, 7th December 2025

PUBLIC NOTICE

CSS COMPETITIVE EXAMINATION (CE-2026)

1. CALL FOR APPLICATIONS:

- Applications for written part of CSS CE-2026 are invited well before **22nd December, 2025**.
- Examination shall be governed **Entirely by the CSS CE Rules, 2019** with no exceptions.
- Written Exam will tentatively commence from **4th February, 2026 (Wednesday)**.
- The examination shall be conducted in 19 cities in accordance with the prescribed rules.

2. ELIGIBILITY:

- Only candidates **Qualified in MPT CE-2026** are eligible to apply.
- Candidates must hold at least a **Bachelor's Degree (Second Division)**.
- Age must be **21-30 years** on the cutoff date; a **two-year relaxation** is admissible to categories specified in **Rule 6**.
- The **cutoff date is 31st December 2025** for determining age, qualification, domicile, and all other eligibility criteria, in accordance with **Rule 5**.
- Under **Rules 11(20) and 11(21)**, candidates are **provisionally admitted at their own risk**. If found ineligible at any stage, their candidature shall be **cancelled**, regardless of appearance or qualification of even the entire process. **Candidates must ensure full and complete compliance with all eligibility requirements before applying.**

3. PROCEDURE TO APPLY:

- Candidates who have qualified MPT-2026** must log in using their existing MPT Login/Password via the 'Apply Online' link on www.fpse.gov.pk. They must complete their profile and generate a 16-digit PSID for the online fee payment of Rs. 2300/-, well before **22nd December 2025**. (PSID is mandatory for online fee payment.)
- Fee can be paid online via the 1-Link facility using ATMs, mobile banking apps (Easypaisa, JazzCash, etc.), internet banking, or over the counter at any 1-Link member bank. Fee paid on old FPSC Challan Form (TR-6), or through cheque, bank draft, pay order will not be accepted."
- After depositing the fee, candidates must log in again via the 'Apply Online' link on www.fpse.gov.pk and enter the remaining required details to complete their online application.
- Online fee payment alone does not mean your application has been submitted. You must complete the application by selecting optional subjects as per Appendix-I, occupational groups, and exam centre after fee payment. After submission, ensure your application appears in 'Application History.' No changes may be allowed later.
- A signed hard copy of the online application, along with attested copies of educational documents, CNIC, domicile, and four photographs, must reach FPSC **before 1st January 2026**. Documents received after the deadline will not be accepted.
- Admission Certificates for the CSS Written Examination will be uploaded on the FPSC website by **15th January 2026**. Candidates must download themselves; no separate postal intimation will be issued.
- For further information or queries, please contact: **UAN 051-111-600-248**

(Muhammad Ramzan Malik)
Assistant Director (CE)

This kind of polished approach is beneficial for a commendable grade in the CrowdStrike Certified Cloud Specialist (CCCS-203b) exam. While attempting the exam, take heed of the clock ticking, so that you manage the CrowdStrike Certified Cloud Specialist (CCCS-203b) questions in a time-efficient way. Even if you are completely sure of the correct answer to a question, first eliminate the incorrect ones, so that you may prevent blunders due to human error.

Many candidates know our exam bootcamp materials are valid and enough to help them clear CrowdStrike CCCS-203b exams. But they are afraid that purchasing on internet is not safe, money unsafe and information unsafe. In fact you may worry too much. Online sale is very common. Every year there are thousands of candidates choose our CCCS-203b Exam Bootcamp materials and pass exam surely. Money is certainly safe. PayPal will guarantee your money and your benefits safe. We have strict information secret system to guarantee that your information is safe too.

CrowdStrike - CCCS-203b - CrowdStrike Certified Cloud Specialist Pass-Sure Valid Test Questions

Under coordinated synergy of all staff, our CCCS-203b guide materials achieved to a higher level of perfection by keeping close attention with the trend of dynamic market. They eliminated stereotypical content from our CCCS-203b practice materials. And if you download our CCCS-203b study quiz this time, we will send free updates for you one year long since we promise that our customers can enjoy free updates for one year.

CrowdStrike Certified Cloud Specialist Sample Questions (Q115-Q120):

NEW QUESTION # 115

You want to block privileged containers from being executed in your Kubernetes cluster. What sensor type should you deploy?

- **A. Kubernetes Admission Controller**
- B. Kubernetes Protection Agent
- C. Kubernetes Image Assessment at Runtime
- D. Kubernetes Sensor

Answer: A

Explanation:

To block privileged containers before they are executed, CrowdStrike recommends deploying the Kubernetes Admission Controller. This component operates at admission time, intercepting Kubernetes API requests and enforcing security policies before workloads are allowed to run.

Privileged containers represent a significant security risk because they can bypass isolation boundaries and access host resources. The Kubernetes Admission Controller can enforce policies that explicitly deny deployments using privileged flags, hostPath mounts, or other high-risk configurations.

Other options do not provide enforcement. Runtime sensors and agents can detect or alert on risky behavior after execution, but they cannot prevent the workload from starting. Image assessment evaluates image content but does not enforce Kubernetes runtime constraints.

Therefore, to proactively block privileged containers, the correct and CrowdStrike-recommended solution is the Kubernetes Admission Controller.

NEW QUESTION # 116

What is a primary function of the Containers and Images Compliance dashboard in CrowdStrike's Cloud Security platform?

- A. Tracks the network performance of containers and provides detailed network usage data
- B. Displays the list of all containers that are unsupported by Falcon Cloud Security with Containers
- C. Allows users to automatically patch non-compliant containers and images
- **D. Provides a visual summary of compliance across containers and images**

Answer: D

Explanation:

The Containers and Images Compliance dashboard in Falcon Cloud Security is designed to give security and DevOps teams a visual, aggregated view of compliance posture across container images and running containers.

This dashboard summarizes compliance status against benchmarks such as CIS, organizational policies, and security best practices. It highlights compliant versus non-compliant images and containers, severity distribution, and trending risk, enabling teams to quickly assess overall posture and prioritize remediation.

The dashboard does not perform network monitoring, automatic patching, or unsupported container enumeration. Those functions are handled by other Falcon modules or operational workflows.

Therefore, its primary function is to provide a visual summary of compliance across containers and images, making Option A correct.

NEW QUESTION # 117

What is the most appropriate first step when creating a Falcon Fusion workflow to notify individuals about automated remediation actions?

- A. Manually send an email notification to the security team.
- **B. Set up a trigger event for the workflow, such as a detection in the Falcon platform.**
- C. Add a conditional step to verify if the action is approved by an administrator.
- D. Create a custom dashboard to visualize all remediation events.

Answer: B

Explanation:

Option A: The first step in creating a Falcon Fusion workflow is to define the trigger event that initiates the workflow. This could be a specific detection type or another event in the Falcon platform. Without a trigger, the workflow has no starting point. This step ensures that the workflow activates only in response to the desired conditions.

Option B: While notifying the security team is important, manually sending emails defeats the purpose of automating workflows with Falcon Fusion. Automation is designed to streamline the response process and reduce human intervention.

Option C: Adding conditional steps for approval might be part of the workflow, but it is not the first step. Conditional logic is applied after the workflow is triggered. Focusing on triggers first is essential.

Option D: While dashboards are useful for monitoring, they are not part of creating workflows.

Dashboards visualize outcomes, whereas workflows focus on defining triggers and actions.

NEW QUESTION # 118

An organization is attempting to register its AWS account with CrowdStrike Falcon Cloud, but the process fails. The error message indicates insufficient permissions. The security team verifies that the CrowdStrike Falcon role was created in AWS IAM.

What is the most likely cause of this issue?

- A. The AWS account must be linked to an Azure subscription before it can be registered in CrowdStrike Falcon.
- B. The CrowdStrike Falcon Console does not support AWS account registrations unless the Falcon sensor is installed on at least one EC2 instance.
- C. The Falcon role needs to be assigned to an AWS Lambda function for it to be recognized during the registration process.
- **D. The role was created, but it was not granted the required permissions or trust policy for CrowdStrike Falcon to assume it.**

Answer: D

Explanation:

Option A: There is no requirement to link AWS and Azure for Falcon integration. Each cloud provider has its own independent registration process.

Option B: Falcon sensors are not required for cloud account registration. Sensors provide endpoint protection, whereas registration integrates Falcon with AWS APIs for monitoring.

Option C: CrowdStrike Falcon requires a properly configured IAM role with the necessary permissions and a trust policy allowing Falcon to assume the role. If the trust relationship is not set up correctly, Falcon cannot access the account to complete registration.

Option D: The IAM role is not assigned to a Lambda function but is instead created for Falcon to assume. Registering a cloud account does not require Lambda integration.

NEW QUESTION # 119

Which of the following commands initiates a manual image scan using CrowdStrike's command-line tool?

- A. `crowdstrike-image --scan --registry <registry_url> --image <image_name>`
- **B. `falcon-image-scan --registry <registry_url> --image <image_name>`**
- C. `cscli image scan --registry <registry_url> --image <image_name>`
- D. `falconctl scan-image --url <registry_url> --img <image_name>`

Answer: B

Explanation:

Option A: This is the correct command syntax for manually scanning container images using CrowdStrike's command-line tool. The `falcon-image-scan` command is specifically designed for this purpose and requires flags like `--registry` and `--image` to specify the image's location and name. This ensures proper configuration for the scan to target the desired image in the specified registry.

Option B:alconctl is a valid CrowdStrike tool, but it is used for endpoint configuration, not container image scanning. This command incorrectly combines the wrong tool with a scanning function.

Option C: This command structure is fictional and does not align with any CrowdStrike CLI tool or syntax. It might mislead users into assuming the availability of a nonexistent utility.

Option D: While this syntax might resemble a generic CLI tool, cscli is not the command-line tool used by CrowdStrike for image assessment. This option confuses CrowdStrike tools with other third-party solutions.

NEW QUESTION # 120

.....

The CCCS-203b exam real questions are the ideal and recommended study material for quick and complete CrowdStrike CCCS-203b exam preparation. As a CCCS-203b Exam candidate you should not ignore the CCCS-203b exam questions and must add the CrowdStrike CCCS-203b exam questions in preparation.

Exam CCCS-203b Score: <https://www.prep4king.com/CCCS-203b-exam-prep-material.html>

To satisfy different customers' need and rich the market demand, we have three CCCS-203b exam dumps versions for customer to choose at will, It is ok that you can free download the demos of the CCCS-203b exam questions, CrowdStrike Valid CCCS-203b Test Questions With these conditions, you will be able to stand out from the interview and get the job you've been waiting for, Our CCCS-203b desktop practice test software works after installation on Windows computers.

Ask the right questions to create better designs, CCCS-203b When they do so, they realize that they will receive hundreds of applicants, To satisfy different customers' need and rich the market demand, we have three CCCS-203b Exam Dumps versions for customer to choose at will.

Reliable CCCS-203b Practice Materials & CCCS-203b Real Exam Torrent - Prep4King

It is ok that you can free download the demos of the CCCS-203b exam questions, With these conditions, you will be able to stand out from the interview and get the job you've been waiting for.

Our CCCS-203b desktop practice test software works after installation on Windows computers, It not only can improve your cultural knowledge, but also improve your operation level.
