問題 #202

Ursa Major Solar allows accounts to apply for loans to purchase solar panels. Financial information will be stored in a custom object. Only finance team members should see the related financial information about the account. What kind of field should the administrator create in the custom object?

- A. Hierarchical Relationship
- B. Master-Detail Relationship
- C. External Relationship
- D. Lookup Relationship

答案： D

解題說明：

A lookup relationship is a type of field that links one object to another object. It allows you to access related data from another object and display it on a record page. A lookup relationship can be used to link the custom object that stores financial information to the Account object, so that only finance team members can see the related financial information about the account.
