HCL Software Academy HCL-DOM-AADM-12 Relevant Exam Dumps - Authorized Valid HCL-DOM-AADM-12 Test Cram and Perfect HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Latest Test Experience

The pass rate is 98.75%, and we will ensure you pass the exam if you buy HCL-DOM-AADM-12 exam torrent from us. Since the high pass rate, we have received many good feedbacks from candidates. What's more, we pass guarantee and money back guarantee if you fail to pass the exam after purchasing HCL-DOM-AADM-12 Exam Torrent from us. We have online and offline chat service staff, and they possess the professional knowledge about the HCL-DOM-AADM-12 exam dumps, if you have any questions, just have a chat with them.

HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q70-Q75):

NEW QUESTION # 70

Which of the following is required to enable DAOS on a Domino server?

- A. Server-based archiving configuration
- **B. Modification of the server document and compact with DAOS enabled**
- C. A dedicated DAOS license file
- D. Creation of the daoscat.nsf manually

Answer: B

Explanation:

To enable the Domino Attachment and Object Service (DAOS), an administrator must first enable it in the Server document (under the DAOS tab) by specifying a base path and the minimum attachment size. Once the server-level setting is active, the administrator must then enable DAOS on individual databases and run the compact -c -daos on command. This process converts the internal database structure to move attachments into the DAOS repository.

NEW QUESTION # 71

What is the purpose of using a silent install method for Domino server installation?

- A. To enforce GUI-based configuration only
- B. To allow interactive, real-time feedback during setup
- C. To require manual license key entry
- **D. To automate installation without user interaction**

Answer: D

Explanation:

The Silent Install method is used to automate the installation of Domino binaries across one or many servers without requiring a person to manually click through the graphical interface. This is achieved by using a "response file" that contains all the necessary installation parameters. It is highly efficient for large-scale deployments or for installing Domino on remote servers where a graphical display (GUI) may not be available.

NEW QUESTION # 72

Which Domino document is used to define the mail routing topology between servers?

- A. Domain Configuration document
- B. Server document
- C. Person document
- **D. Connection document**

Answer: D

Explanation:

A Connection document is the primary tool used in the Domino Directory to define mail routing topology and replication schedules between servers. It specifies the source and destination servers, the connection type (e.g., Local Network), and the specific times when the Router should push mail or when databases should replicate between the two systems.

NEW QUESTION # 73

Where are DAOS objects physically stored on the server?

- A. In the ddm.nsf file
- B. Inside the mail.box file

- C. In the Domino Directory
- **D. In the designated DAOS base path directory**

Answer: D

Explanation:

The Domino Attachment and Object Service (DAOS) works by extracting file attachments from standard NSF databases and storing them as separate objects. These objects (files with a .NLO extension) are physically stored in a designated DAOS base path directory on the server's file system. This path is defined in the Server document, and within it, DAOS creates a series of subdirectories to organize the objects efficiently and prevent any single folder from containing too many files.

NEW QUESTION # 74

Which two roles in the Server document grant privileged administrative access to the Domino server?
(Choose two)

- A. Run unrestricted agents
- **B. Full Access Administrators**
- C. Create replicas
- **D. Administrators**

Answer: B,D

Explanation:

Privileged access to manage a Domino server is defined in the Security section of the Server document. The Administrators field lists the primary users who can perform standard management tasks. The Full Access Administrators role provides a higher level of privilege, allowing designated individuals to bypass all database Access Control Lists (ACLs) on the server to perform emergency maintenance or troubleshooting.

NEW QUESTION # 75

.....

Let me be clear here a core value problem of Free4Dump. All HCL Software Academy exams are very important. In this era of rapid development of information technology, Free4Dump just one of the questions providers. Why do most people to choose Free4Dump ? Because the Free4Dump exam information will be able to help you pass the test. It provides the information which is up to date. With Free4Dump HCL Software Academy HCL-DOM-AADM-12 Test Questions, you will become full of confidence and not have to worry about the exam. However, it lets you get certified effortlessly.
